Section 3. Neither Line Item 1808 of the 2001-2002 General Appropriations act or any other provision of that act nor the nutrient management or studies provided for in this act authorizes any expenditure or action that would result in the breeching of the George Kirkpatrick Dam in any manner. Furthermore, any drawdowns necessary to effectuate the nutrient management or studies must be minimized to the greatest extent possible and follow prescribed procedures for weed and water quality control, and the level of the reservoir as it existed prior to any drawdowns must be restored as expeditiously as possible.
