For any principle that received a "no" above, please explain:

This bill creates new statutory language, that would prohibit activity that is not currently illicit under Florida law.

B. PRESENT SITUATION:

Current Florida law does punish the use of a two-way communications device, including, but not limited to, a portable two-way wireless communications device, to facilitate or further the commission of any crime.

C. EFFECT OF PROPOSED CHANGES:

House bill 1349 provides that any person who uses a two-way communications device, including, but not limited to, a portable two-way wireless communications device, to facilitate or further the commission of any crime commits a felony of the third degree, ranked in level 4 of the Criminal Punishment Code's offense severity ranking chart. To compare this ranking with a current offense similarly ranked, possession of burglary tools is a level 4 offense. The range of punishment that can be imposed for someone convicted of this crime would be between any non-state prison sanction to up to 5 years imprisonment.

The bill would not make the mere possession of such communications devices a criminal offense, even if possessed by a person suspected of criminal activity or with a criminal record, or if on the person's body during the person's commission of an offense. The State would be required to prove that the communications device was used to facilitate or further the commission of a crime. Evidence that the device was on the person's body when he or she committed a crime would be of itself insufficient to meet the elements of this criminal offense. For example, this offense could not be likened to the offense of wearing body armor while possessing a firearm and committing a robbery (s. 775.0846, F.S.), since the State in proving that offense is not required to prove that the body armor facilitated or furthered the commission of the robbery.

As currently drafted, if someone uses a two way communications device to facilitate the commission of a misdemeanor offense, such as petit theft, that person could be charged with the felony offense provided in this bill, in addition to the misdemeanor.

The bill takes effect July 1, 2001.
