**HOUSE OF REPRESENTATIVES
COMMITTEE ON
NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION
ANALYSIS**

BILL #: HB 161

RELATING TO: Water Management

SPONSOR(S): Representative(s) Argenziano and Russell

TIED BILL(S):

ORIGINATING COMMITTEE(S)/COUNCIL(S)/COMMITTEE(S) OF REFERENCE:

- (1) NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION
- (2) FISCAL POLICY AND RESOURCES
- (3) GENERAL GOVERNMENT APPROPRIATIONS
- (4) COUNCIL FOR READY INFRASTRUCTURE
- (5)

I. SUMMARY:

HB 161 would create the Citrus/Hernando Waterways Restoration Council (Council). Members of the Council will be appointed by the Citrus and Hernando County Commissions and serve in an advisory capacity to the governing board of the Southwest Florida Water Management District (District). Responsibilities of the Council would include reviewing audits and data related to lake restoration and sport fish recovery that apply to Citrus/Hernando waterways, evaluating the need for additional studies, exploring funding sources for restoration activities, and annually reporting to the legislature. The bill also would create an advisory group to the Council consisting of one representative each from the District, the Department of Environmental Protection, the Department of Transportation, the Fish and Wildlife Conservation Commission, the Withlacoochee River Basin Board, and the United States Army Corps of Engineers. Members of the advisory group would be required to have training in biology or another scientific discipline.

HB 161 would also authorize development of the Citrus/Hernando Waterways restoration program and, contingent upon available funding, direct the appropriate agencies award contracts through a competitive bidding process to implement the restoration program. The bill would also authorize the Fish and Wildlife Conservation Commission to conduct a demonstration restoration project on the Tsala-Apopka Chain of Lakes, for which purpose \$100,000 would be appropriated from the General Revenue Fund to the Commission. HB 161 would also appropriate \$45,000 from the General Revenue Fund to the District for the purpose of paying administrative, per diem, and travel expenses of the Council.

HB 161 provides that the act shall take effect upon becoming a law.

II. SUBSTANTIVE ANALYSIS:

A. DOES THE BILL SUPPORT THE FOLLOWING PRINCIPLES:

- | | | | |
|-----------------------------------|------------------------------|-----------------------------|---|
| 1. <u>Less Government</u> | Yes <input type="checkbox"/> | No <input type="checkbox"/> | N/A <input checked="" type="checkbox"/> |
| 2. <u>Lower Taxes</u> | Yes <input type="checkbox"/> | No <input type="checkbox"/> | N/A <input checked="" type="checkbox"/> |
| 3. <u>Individual Freedom</u> | Yes <input type="checkbox"/> | No <input type="checkbox"/> | N/A <input checked="" type="checkbox"/> |
| 4. <u>Personal Responsibility</u> | Yes <input type="checkbox"/> | No <input type="checkbox"/> | N/A <input checked="" type="checkbox"/> |
| 5. <u>Family Empowerment</u> | Yes <input type="checkbox"/> | No <input type="checkbox"/> | N/A <input checked="" type="checkbox"/> |

For any principle that received a “no” above, please explain:

B. PRESENT SITUATION:

Citrus and Hernando Counties are characterized by a number of significant surface water features. Four first-magnitude springs are located in the two counties, including Weekiwachee Springs in Hernando and Crystal River, Homosassa, and Chassahowitzka Springs in Citrus. The Withlacoochee River borders Citrus on the east and north, and Hernando on the east. A comprehensive watershed management plan is being developed by the Southwest Florida Water Management District (District) for the river’s entire watershed. The Lake Tsala-Apopka Chain of Lakes is addressed as part of this watershed management plan. Three rivers within Citrus County – Crystal River, Homosassa River, Chassahowitzka River - are designated “Special Waters” under the Outstanding Florida Waters (OFW) provisions of Ch. 62.302.700, Florida Administrative Code. Crystal River is ranked fourth on the District’s priority list for the Surface Water Improvement and Management (SWIM) Program. All three rivers are part of the Springs Coast watershed, for which the District is developing a comprehensive watershed management plan.

C. EFFECT OF PROPOSED CHANGES:

HB 161 would create the Citrus/Hernando Waterways Restoration Council (Council), to include:

- o One representative of waterfront property owners from each county;
- o One representative of the sport fishing industry from each county;
- o One environmental engineer;
- o One person with training in biology or another scientific discipline;
- o One person with training as an attorney; and
- o One person with training as an engineer.

Members of the Council would be appointed by the Citrus and Hernando County Commissions and serve in an advisory capacity to the governing board of the Southwest Florida Water Management District (District). Members could not be appointed to any council, board, or commission of any agency represented on the advisory group to the Council. The advisory group would consist of one representative each from the District, the Department of Environmental Protection (DEP), the Department of Transportation (DOT), the Fish and Wildlife Conservation Commission (FWCC), the Withlacoochee River Basin Board, and the United States Army Corps of Engineers (USACOE).

The District would be responsible for providing staff to assist the Council in carrying out its duties. Council members would not receive compensation, but would be entitled to per diem and travel expenses incurred during the performance of their Council duties, to be reimbursed by the District. HB 161 would appropriate \$45,000 from the General Revenue Fund to the District for the purpose of paying administrative, per diem, and travel expenses of the Council.

Responsibilities of the Council would include:

- Reviewing audits and data related to lake restoration and sport fish population recovery, including data and strategies for shoreline restoration, sediment control and removal, exotic species management, floating tussock management or removal, navigation, water quality, and fish and wildlife habitat improvement, that are applicable to the Citrus/Hernando waterways;
- Evaluating the need for additional studies;
- Exploring possible funding sources for conducting restoration activities; and
- Providing an annual progress report to the Speaker of the House of Representatives and the President of the Senate by November 25 of each year.

HB 161 would direct the FWCC and the District, in conjunction with DEP, local governments, and the Council, to review existing restoration proposals and to determine which proposals are the most environmentally sound and economically feasible for improving the fish and wildlife habitat and natural systems of Citrus/Hernando waterways. The FWCC, with assistance from the District and in consultation and by agreement with DEP and local governments, is directed to develop tasks to initiate a restoration program recommended by the Council. The District, DEP, and local governments would be responsible for evaluating different methodologies for removal of tussocks and buildup of organic matter and conducting additional studies as recommended by the Council. Based upon the availability of legislative appropriations, as well as financial participation by federal, state, and local governments, the appropriate agencies are directed to award by competitive bid contracts to implement activities of the Council's recommended restoration program.

The bill would authorize the FWCC to conduct a demonstration restoration project on the Tsala-Apopka Chain of Lake. The purpose of the demonstration project would be to remove overlying undesirable vegetation and associated organic material down to mineralized soil to allow for the establishment of a more desirable aquatic plant community and to create improved fish and wildlife habitat. Proper permits would be required for conducting the demonstration project. HB 161 would appropriate \$100,000 from the General Revenue Fund to the FWCC for the purpose of conducting the demonstration project.

The act would take effect upon becoming law.

D. SECTION-BY-SECTION ANALYSIS:

This section need be completed only in the discretion of the Committee.

III. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT:

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

N/A

2. Expenditures:

HB 161 would appropriate from the General Revenue Fund to the FWCC the sum of \$100,000 for the purpose of conducting the Tsala-Apopka Chain of Lakes demonstration project.

HB 161 could have additional, indeterminate fiscal impacts on the FWCC, DEP, and DOT in carrying out their respective responsibilities related to the Council.

B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

N/A

2. Expenditures:

HB 161 would appropriate from the General Revenue Fund to the District the sum of \$45,000 for the purpose of paying administrative, per diem, and travel expenses of the Council.

HB 161 could have additional, indeterminate fiscal impacts on the District in carrying out its responsibilities related to the Council.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

N/A

D. FISCAL COMMENTS:

N/A

IV. CONSEQUENCES OF ARTICLE VII, SECTION 18 OF THE FLORIDA CONSTITUTION:

A. APPLICABILITY OF THE MANDATES PROVISION:

The bill does not require counties or municipalities to expend funds, nor does it require counties or municipalities to take an action requiring the expenditure of funds.

B. REDUCTION OF REVENUE RAISING AUTHORITY:

The bill does not reduce the authority of municipalities or counties have to raise revenues in the aggregate.

C. REDUCTION OF STATE TAX SHARED WITH COUNTIES AND MUNICIPALITIES:

The bill does not reduce the percentage of a state tax shared with counties or municipalities.
