

Bill No. CS for SB 1922

Amendment No. \_\_\_\_ Barcode 925018

1 rule, which provide for increased efficiencies in the use and  
2 management of water for agricultural production. In the  
3 process of developing and adopting rules for interim measures  
4 or best management practices, the department shall consult  
5 with the Department of Environmental Protection and the water  
6 management districts. Such rules may also include a system to  
7 assure the implementation of the practices, including  
8 recordkeeping requirements. As new information regarding  
9 efficient agricultural water use and management becomes  
10 available, the department shall reevaluate and revise as  
11 needed, the interim measures or best management practices.  
12 The interim measures or best management practices may include  
13 irrigation retrofit, implementation of mobile irrigation  
14 laboratory evaluations and recommendations, water resource  
15 augmentation, and integrated water management systems for  
16 drought management and flood control and should, to the  
17 maximum extent practicable, be designed to qualify for  
18 regulatory incentives and other incentives, as determined by  
19 the agency having applicable statutory authority.

20 (3) Provision of assistance to the water management  
21 districts in the development and implementation of a  
22 consistent, to the extent practicable, methodology for the  
23 efficient allocation of water for agricultural irrigation.

24  
25 (Redesignate subsequent sections.)
