

Bill No. CS for SB 1966

Amendment No. ____ Barcode 522356

1 1. Is commercially distributed in accordance with the
2 Federal Food, Drug, and Cosmetic Act.

3 2. Is capable of recognizing the presence or absence
4 of ventricular fibrillation, and is capable of determining
5 without intervention by the user of the device whether
6 defibrillation should be performed.

7 3. Upon determining that defibrillation should be
8 performed, is able to deliver an electrical shock to an
9 individual.

10 (c) "Harm" means damage or loss of any and all types,
11 including, but not limited to, physical, nonphysical,
12 economic, noneconomic, actual, compensatory, consequential,
13 incidental, and punitive damages or losses.

14 (3) Notwithstanding any other provision of law to the
15 contrary, and except as provided in subsection (4), any person
16 who uses or attempts to use an automated external
17 defibrillator device on a victim of a perceived medical
18 emergency, without objection of the victim of the perceived
19 medical emergency, is immune from civil liability for any harm
20 resulting from the use or attempted use of such device. In
21 addition, any person who acquired the device is immune from
22 such liability, if the harm was not due to the failure of such
23 acquirer of the device to:

24 (a) Notify the local emergency medical services
25 medical director of the most recent placement of the device
26 within a reasonable period of time after the device was
27 placed;

28 (b) Properly maintain and test the device; or

29 (c) Provide appropriate training in the use of the
30 device to an employee or agent of the acquirer when the
31 employee or agent was the person who used the device on the

Bill No. CS for SB 1966

Amendment No. ____ Barcode 522356

1 victim, except that such requirement of training does not
2 apply if:

3 1. The employee or agent was not an employee or agent
4 who would have been reasonably expected to use the device; or

5 2. The period of time elapsing between the engagement
6 of the person as an employee or agent and the occurrence of
7 the harm, or between the acquisition of the device and the
8 occurrence of the harm in any case in which the device was
9 acquired after engagement of the employee or agent, was not a
10 reasonably sufficient period in which to provide the training.

11 (4) Immunity under subsection (3) does not apply to a
12 person if:

13 (a) The harm involved was caused by that person's
14 willful or criminal misconduct, gross negligence, reckless
15 disregard or misconduct, or a conscious, flagrant indifference
16 to the rights or safety of the victim who was harmed;

17 (b) The person is a licensed or certified health
18 professional who used the automated external defibrillator
19 device while acting within the scope of the license or
20 certification of the professional and within the scope of the
21 employment or agency of the professional;

22 (c) The person is a hospital, clinic, or other entity
23 whose primary purpose is providing health care directly to
24 patients, and the harm was caused by an employee or agent of
25 the entity who used the device while acting within the scope
26 of the employment or agency of the employee or agent;

27 (d) The person is an acquirer of the device who leased
28 the device to a health care entity, or who otherwise provided
29 the device to such entity for compensation without selling the
30 device to the entity, and the harm was caused by an employee
31 or agent of the entity who used the device while acting within

Bill No. CS for SB 1966

Amendment No. ____ Barcode 522356

1 the scope of the employment or agency of the employee or
2 agent; or

3 (e) The person is the manufacturer of the device.

4 (5) This section does not establish any cause of
5 action. This section does not require that an automated
6 external defibrillator device be placed at any building or
7 other location or require an acquirer to make available on its
8 premises one or more employees or agents trained in the use of
9 the device.

10 Section 2. Subsection (4) of section 768.13, Florida
11 Statutes, is repealed.

12 Section 3. Section 401.2915, Florida Statutes, is
13 amended to read:

14 401.2915 Automated ~~Automatic~~ external
15 defibrillators.--It is the intent of the Legislature that an
16 automated ~~automatic~~ external defibrillator may be used by any
17 person for the purpose of saving the life of another person in
18 cardiac arrest. In order to ensure public health and safety:

19 (1) All persons who ~~have access to or~~ use an automated
20 ~~automatic~~ external defibrillator must obtain appropriate
21 training, to include completion of a course in cardiopulmonary
22 resuscitation or successful completion of a basic first aid
23 course that includes cardiopulmonary resuscitation training,
24 and demonstrated proficiency in the use of an automated
25 ~~automatic~~ external defibrillator;

26 (2) Any person or entity in possession of an automated
27 ~~automatic~~ external defibrillator is encouraged to register
28 with the local emergency medical services medical director the
29 existence and location of the automated ~~automatic~~ external
30 defibrillator; and

31 (3) Any person who uses an automated ~~automatic~~

Bill No. CS for SB 1966

Amendment No. ____ Barcode 522356

1 external defibrillator is required to activate the emergency
2 medical services system as soon as possible upon use of the
3 automated ~~automatic~~ external defibrillator.

4 Section 4. No later than January 1, 2003, the
5 Secretary of the Department of Health shall adopt rules to
6 establish guidelines on the appropriate placement of automated
7 external defibrillator devices in buildings or portions of
8 buildings owned or leased by the state, and shall establish,
9 by rule, recommendations on procedures for the deployment of
10 automated external defibrillator devices in such buildings in
11 accordance with the guidelines. The Secretary of the
12 Department of Management Services shall assist the Secretary
13 of the Department of Health in the development of the
14 guidelines. The guidelines for the placement of the automated
15 external defibrillators shall take into account the typical
16 number of employees and visitors in the buildings, the extent
17 of the need for security measures regarding the buildings,
18 special circumstances in buildings or portions of buildings
19 such as high electrical voltages or extreme heat or cold, and
20 such other factors as the Secretaries determine to be
21 appropriate. The Secretary of the Department of Health's
22 recommendations for deployment of automated external
23 defibrillators in buildings or portions of buildings owned or
24 leased by the state shall include:

25 (a) A reference list of appropriate training courses
26 in the use of such devices, including the role of
27 cardiopulmonary resuscitation;

28 (b) The extent to which such devices may be used by
29 laypersons;

30 (c) Manufacturer recommended maintenance and testing
31 of the devices; and

Bill No. CS for SB 1966

Amendment No. ____ Barcode 522356

1 (d) Coordination with local emergency medical services
2 systems regarding the incidents of use of the devices.

3
4 In formulating these guidelines and recommendations, the
5 Secretary may consult with all appropriate public and private
6 entities, including national and local public health
7 organizations that seek to improve the survival rates of
8 individuals who experience cardiac arrest.

9 Section 5. This act shall take effect October 1, 2001.

 A bill to be entitled
An act relating to automated external
defibrillators; creating s. 768.1325, F.S.;
creating the Cardiac Arrest Survival Act;
providing definitions; providing immunity from
liability for certain persons who use automated
external defibrillators under certain
circumstances; providing exceptions; repealing
s. 768.13(4), F.S., relating to the Good
Samaritan Act, to delete reference to the use
of an automatic external defibrillator in
certain emergency situations; amending s.
401.2915, F.S.; revising a provision of law
relating to automatic external defibrillators
to conform to the act; directing the Department

Bill No. CS for SB 1966

Amendment No. ____ Barcode 522356

1 of Health, with assistance from the Department
 2 of Management Services, to adopt rules to
 3 establish guidelines on the appropriate
 4 placement and deployment of automated external
 5 defibrillator devices in certain buildings
 6 owned or leased by the state; specifying
 7 factors to be considered in device placement
 8 and deployment; providing an effective date.

9
 10 WHEREAS, over 700 lives are lost every day to sudden
 11 cardiac arrest in the United States alone, and

12 WHEREAS, two out of every three sudden cardiac deaths
 13 occur before a victim can reach a hospital, and

14 WHEREAS, more than 95 percent of these cardiac arrest
 15 victims will die, many because of lack of readily available
 16 lifesaving medical equipment, and

17 WHEREAS, with current medical technology, up to 30
 18 percent of cardiac arrest victims could be saved if victims
 19 had access to immediate medical response, including
 20 defibrillation and cardiopulmonary resuscitation, and

21 WHEREAS, once a victim has suffered a cardiac arrest,
 22 every minute that passes before returning the heart to a
 23 normal rhythm decreases the chances of survival by 10 percent,
 24 and

25 WHEREAS, most cardiac arrests are caused by an abnormal
 26 heart rhythm called ventricular fibrillation, which occurs
 27 when the heart's electrical system malfunctions, causing a
 28 chaotic rhythm that prevents the heart from pumping oxygen to
 29 the victim's brain and body, and

30 WHEREAS, communities that have implemented programs
 31 ensuring widespread access to defibrillators, combined with

Bill No. CS for SB 1966

Amendment No. ____ Barcode 522356

1 appropriate training, maintenance, and coordination with local
2 emergency medical systems have dramatically improved the
3 survival rates from cardiac arrest, and

4 WHEREAS, automated external defibrillator devices have
5 been demonstrated to be safe and effective, even when used by
6 laypersons, since the devices are designed not to allow a user
7 to administer a shock until after the device has analyzed a
8 victim's heart rhythm and determined that an electric shock is
9 required, and

10 WHEREAS, increased public awareness regarding automated
11 external defibrillator devices will greatly facilitate their
12 adoption, and

13 WHEREAS, limiting the liability of users and acquirers
14 of automated external defibrillator devices in emergency
15 situations may encourage the use of the devices, and result in
16 saved lives, NOW, THEREFORE,
