year 2001-2002. The selected project shall meet at least one
of the following criteria:

1. The project supports establishment of a dependable,
sustainable supply of water which is not otherwise financially
feasible;

2. The project provides substantial environmental
benefits by preventing or limiting adverse water resource
impacts, but requires funding assistance to be economically
competitive with other options; or

3. The project significantly implements reuse,
capture, storage, recharge, or conservation of water in a
manner that contributes to the sustainability of regional
water sources.

Projects that create new sources in order to help implement a
