Senator Pruitt moved the following amendment to amendment (085144):

**Senate Amendment (with title amendment)**

On page 108, between lines 16 and 17,

insert:

Section 37. Subsection (6) is added to section 163.3202, Florida Statutes, to read:

163.3202 Land development regulations.--

(6)(a) The Legislature finds that electric utilities have a statutory duty pursuant to this chapter to provide reasonably sufficient, adequate, and efficient service. The Legislature further finds that electric substations are an indispensable component of the grid system by which electric utilities deliver reliable electric service to all public and private persons as required by law. The Legislature further finds that electric utility substations are essential services for the public health, safety, and welfare and therefore are in the public interest.

(b) Nothing in this section shall prohibit a local

Amendment No. \_\_\_\_ Barcode 833308

1 government from adopting land development regulations which  
2 establish reasonable standards for setbacks, buffering, and  
3 landscaping and other such site conditions which ensure  
4 consistency with the local comprehensive plan for a substation  
5 that will be constructed or operated by an electric utility.  
6 Compliance with any such adopted standards shall render a  
7 substation compatible with adjacent land uses and consistent  
8 with the local comprehensive plan.

9 (c) Notwithstanding any other law, after an electric  
10 utility demonstrates by competent substantial evidence that it  
11 meets all criteria for approval of an application for a  
12 development permit for the location, construction, and  
13 operation of a substation, the local government may not deny  
14 the application unless the preponderance of the evidence  
15 applying a strict scrutiny standard of review demonstrates the  
16 application does not meet the requirements of the  
17 comprehensive plan or applicable land development regulations.

18 Section 38. Paragraph (b) of subsection (3) of section  
19 380.04, Florida Statutes, is amended to read:

20 380.04 Definition of development.--

21 (3) The following operations or uses shall not be  
22 taken for the purpose of this chapter to involve "development"  
23 as defined in this section:

24 (b) Work by any utility and other persons engaged in  
25 the distribution or transmission of gas, electricity, or  
26 water, for the purpose of inspecting, repairing, renewing, or  
27 constructing on established rights-of-way any sewers, mains,  
28 pipes, cables, utility tunnels, power lines, towers, poles,  
29 tracks, or the like.

30  
31 (Redesignate subsequent sections.)
