27 in any misleading advertising or unethical practices.

28 (2) INSPECTION OF PREMISES.--

29 (a) The division has responsibility and jurisdiction  
30 for all inspections required by this chapter. The division  
31 has responsibility for quality assurance. Each licensed

Amendment No. \_\_\_\_ Barcode 471720

1 establishment shall be inspected at least biannually and at  
2 such other times as the division determines is necessary to  
3 ensure the public's health, safety, and welfare. The division  
4 shall establish a system to determine inspection frequency.  
5 Public lodging units classified as resort condominiums or  
6 resort dwellings are not subject to this requirement, but  
7 shall be made available to the division upon request. If,  
8 during the inspection of a public lodging establishment  
9 classified for renting to transient or nontransient tenants,  
10 an inspector identifies vulnerable adults who appear to be  
11 victims of neglect, as defined in s. 415.102, or, in the case  
12 of a building that is not equipped with automatic sprinkler  
13 systems, tenants or clients who may be unable to self-preserve  
14 in an emergency, the division shall convene meetings with the  
15 following agencies as appropriate to the individual situation:  
16 the Department of Health, the Department of Elderly Affairs,  
17 the area agency on aging, the local fire marshal, the landlord  
18 and affected tenants and clients, and other relevant  
19 organizations, to develop a plan which improves the prospects

21 alternative living arrangements such as facilities licensed  
22 under part II or part III of chapter 400.

23 (b) For purposes of performing required inspections  
24 and the enforcement of this chapter, the division has the  
25 right of entry and access to public lodging establishments and  
26 public food service establishments at any reasonable time.

27 (c) Public food service establishment inspections  
28 shall be conducted to enforce provisions of this part and to  
29 educate, inform, and promote cooperation between the division  
30 and the establishment.

31 (d) The division shall adopt and enforce sanitation

Bill No. CS for CS for SB 784

Amendment No. \_\_\_\_ Barcode 471720

1 rules consistent with law to ensure the protection of the  
2 public from food-borne illness in those establishments  
3 licensed under this chapter. These rules shall provide the  
4 standards and requirements for obtaining, storing, preparing,  
5 processing, serving, or displaying food in public food service  
6 establishments, approving public food service establishment  
7 facility plans, conducting necessary public food service  
8 establishment inspections for compliance with sanitation  
9 regulations, cooperating and coordinating with the Department  
10 of Health in epidemiological investigations, and initiating  
11 enforcement actions, and for other such responsibilities  
12 deemed necessary by the division. The division may not  
13 establish by rule any regulation governing the design,  
14 construction, erection, alteration, modification, repair, or  
15 demolition of any public lodging or public food service  
16 establishment. It is the intent of the Legislature to preempt  
17 that function to the Florida Building Commission and the State  
18 Fire Marshal through adoption and maintenance of the Florida  
19 Building Code and the Florida Fire Prevention Code. The  
20 division shall provide technical assistance to the commission  
21 and the State Fire Marshal in updating the construction  
22 standards of the Florida Building Code and the Florida Fire  
23 Prevention Code which govern public lodging and public food  
24 service establishments. Further, the division shall enforce  
25 the provisions of the Florida Building Code and the Florida  
26 Fire Prevention Code which apply to public lodging and public  
27 food service establishments in conducting any inspections  
28 authorized by this part.

29 (e)1. Relating to facility plan approvals, the  
30 division may establish, by rule, fees for conducting plan  
31 reviews and may grant variances from construction standards in

Bill No. CS for CS for SB 784

Amendment No. \_\_\_\_ Barcode 471720

1 hardship cases, which variances may be less restrictive than  
2 the provisions specified in this section or the rules adopted  
3 under this section. A variance may not be granted pursuant to  
4 this section until the division is satisfied that:

5 a. The variance shall not adversely affect the health  
6 of the public.

7 b. No reasonable alternative to the required  
8 construction exists.

9 c. The hardship was not caused intentionally by the  
10 action of the applicant.

11 2. The division's advisory council shall review  
12 applications for variances and recommend agency action. The  
13 division shall make arrangements to expedite emergency  
14 requests for variances, to ensure that such requests are acted  
15 upon within 30 days of receipt.

16 3. The division shall establish, by rule, a fee for  
17 the cost of the variance process. Such fee shall not exceed  
18 \$150 for routine variance requests and \$300 for emergency  
19 variance requests.

20 (f) In conducting inspections of establishments  
21 licensed under this chapter, the division shall determine if  
22 each coin-operated amusement machine that is operated on the  
23 premises of a licensed establishment is properly registered  
24 with the Department of Revenue. Each month the division shall  
25 report to the Department of Revenue the sales tax registration  
26 number of the operator of any licensed establishment that has  
27 on location a coin-operated amusement machine and that does  
28 not have an identifying certificate conspicuously displayed as  
29 required by s. 212.05(1)(i).

30 (g) In inspecting public food service establishments,  
31 the department shall provide each inspected establishment with

Bill No. CS for CS for SB 784

Amendment No. \_\_\_\_ Barcode 471720

1 the food-recovery brochure developed under s. 570.0725.

2 (3) SANITARY STANDARDS; EMERGENCIES; TEMPORARY FOOD  
3 SERVICE EVENTS.--The division shall:

4 (a) Prescribe sanitary standards which shall be  
5 enforced in public food service establishments.

6 (b) Inspect public lodging establishments and public  
7 food service establishments whenever necessary to respond to  
8 an emergency or epidemiological condition.

9 (c) Administer a public notification process for  
10 temporary food service events and distribute educational  
11 materials that address safe food storage, preparation, and  
12 service procedures.

13 1. Sponsors of temporary food service events shall  
14 notify the division not less than 3 days prior to the  
15 scheduled event of the type of food service proposed, the time  
16 and location of the event, a complete list of food service  
17 vendor owners and operators participating in each event, and  
18 the current license numbers of all public food service  
19 establishments participating in each event. Notification may  
20 be completed orally, by telephone, in person, or in writing.  
21 A public food service establishment or food service vendor may  
22 not use this notification process to circumvent the license  
23 requirements of this chapter.

24 2. The division shall keep a record of all  
25 notifications received for proposed temporary food service  
26 events and shall provide appropriate educational materials to  
27 the event sponsors, including the food-recovery brochure  
28 developed under s. 570.0725.

29 3.a. A public food service establishment or other food  
30 vendor must obtain a license from the division for each  
31 temporary food service event in which it participates.

Bill No. CS for CS for SB 784

Amendment No. \_\_\_\_ Barcode 471720

1           b. Public food service establishments holding current  
2 licenses from the division may operate under the regulations  
3 of such a license at temporary food service events of 3 days  
4 or less in duration.

5           (4) STOP-SALE ORDERS.--The division may stop the sale,  
6 and supervise the proper destruction, of any food or food  
7 product when the director or the director's designee  
8 determines that such food or food product represents a threat  
9 to the public safety or welfare. If the operator of a public  
10 food service establishment licensed under this chapter has  
11 received official notification from a health authority that a  
12 food or food product from that establishment has potentially  
13 contributed to any instance or outbreak of food-borne illness,  
14 the food or food product must be maintained in safe storage in  
15 the establishment until the responsible health authority has  
16 examined, sampled, seized, or requested destruction of the  
17 food or food product.

18           (5) REPORTS REQUIRED.--The division shall send the  
19 Governor a written report, which shall state, but not be  
20 limited to, the total number of inspections conducted by the  
21 division to ensure the enforcement of sanitary standards, the  
22 total number of inspections conducted in response to emergency  
23 or epidemiological conditions, the number of violations of  
24 each sanitary standard, and any recommendations for improved  
25 inspection procedures. The division shall also keep accurate  
26 account of all expenses arising out of the performance of its  
27 duties and all fees collected under this chapter. The report  
28 shall be submitted by September 30 following the end of the  
29 fiscal year.

30           (6) RULEMAKING AUTHORITY.--The division shall adopt  
31 such rules as are necessary to carry out the provisions of

Bill No. CS for CS for SB 784

Amendment No. \_\_\_\_ Barcode 471720

1 this chapter.

2 (7) PREEMPTION AUTHORITY.--The regulation of public  
3 lodging establishments and public food service establishments,  
4 the inspection of public lodging establishments and public  
5 food service establishments for compliance with the sanitation  
6 standards adopted under this section, and the regulation of  
7 food safety protection standards for required training and  
8 testing of food service establishment personnel are preempted  
9 to the state. This subsection does not preempt the authority  
10 of a local government or local enforcement district to conduct  
11 inspections of public lodging and public food service  
12 establishments for compliance with the Florida Building Code  
13 and the Florida Fire Prevention Code, pursuant to ss. 553.80  
14 and 633.022.

15 Section 23. Section 402.3031, Florida Statutes, is  
16 created to read:

17 402.3031 Infant crib safety.--No child care facility,  
18 family day care home, large family child care home, or  
19 specialized child care facility for the care of mildly ill  
20 children shall offer or provide for use a full-size or  
21 non-full-size crib that is not in conformity with the  
22 requirements of s. 501.144. The department shall enforce the  
23 provisions of this section and may adopt rules pursuant to ss.  
24 120.536(1) and 120.54 to administer this Section.
