1 be penalized at a rate equal to 2 times the value of the 2 full-time student enrollment reported. 3 (4)(6)(a) The Commissioner of Education shall provide to the State Board of Education no later than December 31 of 4 5 each year a schedule of fees for workforce development б education, excluding continuing workforce education, for 7 school districts and community colleges. The fee schedule 8 shall be based on the amount of student fees necessary to 9 produce 25 percent of the prior year's average cost of a 10 course of study leading to a certificate or diploma. At the 11 discretion of a school board or a community college, this fee schedule may be implemented over a 3-year period, with full 12 13 implementation in the 1999-2000 school year. In years 14 preceding that year, if fee increases are necessary for some programs or courses, the fees shall be raised in increments 15 designed to lessen their impact upon students already 16 17 enrolled. Fees for students who are not residents for tuition purposes must offset the full cost of instruction. 18 19 Fee-nonexempt students enrolled in vocational-preparatory 20 instruction shall be charged fees equal to the fees charged 21 for certificate career education instruction. Each community college that conducts college-preparatory and 22 vocational-preparatory instruction in the same class section 23 24 may charge a single fee for both types of instruction. (b) Fees for continuing workforce education shall be 25 locally determined by the school board or community college. 26 However, at least 50 percent of the expenditures for the 27 28 continuing workforce education program provided by the 29 community college or school district must be derived from 30 fees. 31

56

(c) The State Board of Education shall adopt a fee
 schedule for school districts that produces the fee revenues
 calculated pursuant to paragraph (a). The schedule so
 calculated shall take effect, unless otherwise specified in
 the General Appropriations Act.

6 (d) The State Board of Education shall adopt, by rule,
7 the definitions and procedures that school boards shall use in
8 the calculation of cost borne by students.

9 (5) (7) Each year the State Board of Community Colleges 10 shall review and evaluate the percentage of the cost of adult 11 programs and certificate career education programs supported through student fees. For students who are residents for 12 13 tuition purposes, the schedule so adopted must produce 14 revenues equal to 25 percent of the prior year's average 15 program cost for college-preparatory and certificate-level workforce development programs. Fees for continuing workforce 16 17 education shall be locally determined by the school board or community college. However, at least 50 percent of the 18 19 expenditures for the continuing workforce education program 20 provided by the community college or school district must be 21 derived from fees. Fees for students who are not residents for tuition purposes must offset the full cost of instruction. 22

(6)(8) Each school board and community college board 23 24 of trustees may establish a separate fee for financial aid 25 purposes in an additional amount of up to 10 percent of the student fees collected for workforce development programs 26 funded through the Workforce Development Education Fund. All 27 28 fees collected shall be deposited into a separate workforce 29 development student financial aid fee trust fund of the district or community college to support students enrolled in 30 31 workforce development programs. Any undisbursed balance

57

1 remaining in the trust fund and interest income accruing to 2 investments from the trust fund shall increase the total funds 3 available for distribution to workforce development education 4 students. Awards shall be based on student financial need and 5 distributed in accordance with a nationally recognized system б of need analysis approved by the State Board for Career 7 Education. Fees collected pursuant to this subsection shall be 8 allocated in an expeditious manner.

(7) (7) (9) The State Board of Education and the State 9 10 Board of Community Colleges shall adopt rules to allow the 11 deferral of registration and tuition fees for students receiving financial aid from a federal or state assistance 12 program when such aid is delayed in being transmitted to the 13 student through circumstances beyond the control of the 14 student. The failure to make timely application for such aid 15 is an insufficient reason to receive a deferral of fees. 16 The 17 rules must provide for the enforcement and collection or other settlement of delinquent accounts. 18

19 <u>(8)(10)</u> Any veteran or other eligible student who 20 receives benefits under chapter 30, chapter 31, chapter 32, 21 chapter 34, or chapter 35 of Title 38, U.S.C., or chapter 106 22 of Title 10, U.S.C., is entitled to one deferment each 23 academic year and an additional deferment each time there is a 24 delay in the receipt of benefits.

25 <u>(9)(11)</u> Each school district and community college
26 shall be responsible for collecting all deferred fees. If a
27 school district or community college has not collected a
28 deferred fee, the student may not earn state funding for any
29 course for which the student subsequently registers until the
30 fee has been paid.

31

1 (10) (12) Any school district or community college that 2 reports students who have not paid fees in an approved manner 3 in calculations of full-time equivalent enrollments for state 4 funding purposes shall be penalized at a rate equal to 2 times 5 the value of such enrollments. Such penalty shall be charged б against the following year's allocation from the Florida 7 Workforce Development Education Fund or the Community College Program Fund and shall revert to the General Revenue Fund. 8 9 The State Board of Education shall specify, in rule, approved 10 methods of student fee payment. Such methods must include, 11 but need not be limited to, student fee payment; payment through federal, state, or institutional financial aid; and 12 13 employer fee payments.

14 (11)(13) Each school district and community college 15 shall report only those students who have actually enrolled in instruction provided or supervised by instructional personnel 16 17 under contract with the district or community college in 18 calculations of actual full-time enrollments for state funding 19 purposes. A student who has been exempted from taking a 20 course or who has been granted academic or vocational credit through means other than actual coursework completed at the 21 granting institution may not be calculated for enrollment in 22 the course from which the student has been exempted or for 23 24 which the student has been granted credit. School districts 25 and community colleges that report enrollments in violation of this subsection shall be penalized at a rate equal to 2 times 26 the value of such enrollments. Such penalty shall be charged 27 28 against the following year's allocation from the Workforce 29 Development Education Fund and shall revert to the General Revenue Fund. 30

1 (12)(14) School boards and community college boards of 2 trustees may establish scholarship funds using donations. If 3 such funds are established, school boards and community 4 college boards of trustees shall adopt rules that provide for 5 the criteria and methods for awarding scholarships from the 6 fund.

7 (13)(15) Each school board and community college board 8 of trustees may establish a separate fee for capital 9 improvements, technology enhancements, or equipping buildings 10 which may not exceed 5 percent of the matriculation fee for 11 resident students or 5 percent of the matriculation and tuition fee for nonresident students. Funds collected by 12 community colleges through these fees may be bonded only for 13 14 the purpose of financing or refinancing new construction and equipment, renovation, or remodeling of educational 15 facilities. The fee shall be collected as a component part of 16 17 the registration and tuition fees, paid into a separate 18 account, and expended only to construct and equip, maintain, 19 improve, or enhance the certificate career education or adult education facilities of the school district or community 20 21 college. Projects funded through the use of the capital 22 improvement fee must meet the survey and construction requirements of chapter 235. Pursuant to s. 216.0158, each 23 24 school board and community college board of trustees shall 25 identify each project, including maintenance projects, proposed to be funded in whole or in part by such fee. Capital 26 improvement fee revenues may be pledged by a board of trustees 27 28 as a dedicated revenue source to the repayment of debt, 29 including lease-purchase agreements and revenue bonds, with a term not to exceed 20 years, and not to exceed the useful life 30 31 of the asset being financed, only for the new construction and

60

1 equipment, renovation, or remodeling of educational 2 facilities. Community colleges may use the services of the 3 Division of Bond Finance of the State Board of Administration 4 to issue any bonds authorized through the provisions of this 5 subsection. Any such bonds issued by the Division of Bond б Finance shall be in compliance with the provisions of the 7 State Bond Act. Bonds issued pursuant to the State Bond Act 8 shall be validated in the manner provided by chapter 75. The 9 complaint for such validation shall be filed in the circuit 10 court of the county where the seat of state government is 11 situated, the notice required to be published by s. 75.06 shall be published only in the county where the complaint is 12 13 filed, and the complaint and order of the circuit court shall be served only on the state attorney of the circuit in which 14 the action is pending. A maximum of 15 cents per credit hour 15 may be allocated from the capital improvement fee for child 16 17 care centers conducted by the school board or community college board of trustees. 18 19 (14)(16) Community colleges and district school boards 20 are not authorized to charge students enrolled in workforce 21 development programs any fee that is not specifically authorized by statute. In addition to matriculation, tuition, 22 financial aid, capital improvement, and technology fees, as 23 authorized in this section, community colleges and district

financial aid, capital improvement, and technology fees, as authorized in this section, community colleges and district school boards are authorized to establish fee schedules for the following user fees and fines: laboratory fees; parking fees and fines; library fees and fines; fees and fines relating to facilities and equipment use or damage; access or identification card fees; duplicating, photocopying, binding, or microfilming fees; standardized testing fees; diploma replacement fees; transcript fees; application fees;

61

1 graduation fees; and late fees related to registration and 2 payment. Such user fees and fines shall not exceed the cost of 3 the services provided and shall only be charged to persons receiving the service. Parking fee revenues may be pledged by 4 5 a community college board of trustees as a dedicated revenue б source for the repayment of debt, including lease-purchase 7 agreements and revenue bonds with terms not exceeding 20 years 8 and not exceeding the useful life of the asset being financed. 9 Community colleges shall use the services of the Division of 10 Bond Finance of the State Board of Administration to issue any 11 revenue bonds authorized by the provisions of this subsection. Any such bonds issued by the Division of Bond Finance shall be 12 13 in compliance with the provisions of the State Bond Act. Bonds issued pursuant to the State Bond Act shall be validated in 14 the manner established in chapter 75. The complaint for such 15 validation shall be filed in the circuit court of the county 16 17 where the seat of state government is situated, the notice required to be published by s. 75.06 shall be published only 18 19 in the county where the complaint is filed, and the complaint 20 and order of the circuit court shall be served only on the 21 state attorney of the circuit in which the action is pending. (15)(17) Each district school board and community 22 college district board of trustees is authorized to establish 23 24 specific fees for workforce development instruction not 25 reported for state funding purposes or for workforce development instruction not reported as state funded full-time 26

27 equivalent students. District school boards and district

28 boards of trustees are not required to charge any other fee 29 specified in this section for this type of instruction.

30 <u>(16)(18)</u> Each district school board and community
31 college district board of trustees is authorized to establish

62

a separate fee for technology, not to exceed \$1.80 per credit 1 2 hour or credit-hour equivalent for resident students and not 3 more than \$5.40 per credit hour or credit-hour equivalent for nonresident students, or the equivalent, to be expended in 4 5 accordance with technology improvement plans. The technology б fee may apply only to associate degree programs and courses. 7 Fifty percent of technology fee revenues may be pledged by a community college board of trustees as a dedicated revenue 8 9 source for the repayment of debt, including lease-purchase 10 agreements, not to exceed the useful life of the asset being 11 financed. Revenues generated from the technology fee may not be bonded. 12 Section 9. Notwithstanding subsection (7) of section 3 13 of chapter 2000-321, Laws of Florida, section 240.105, Florida 14 Statutes, shall not stand repealed January 7, 2003, as 15 scheduled by that law, but that section is reenacted and 16 17 amended to read: (Substantial rewording of section. See 18 19 s. 240.105, F.S., for present text.) 240.105 Statement of purpose and mission .--20 The Legislature finds that postsecondary education 21 (1)is an integral part of the systemwide support structure that 22 upholds the principles of Florida's educational mission. Under 23 24 these principles, postsecondary education is to maintain 25 effective coordination with other levels and sectors of education, center its efforts and accomplishments on students, 26 continuously improve student access and equity, and promote 27 28 accountability for student achievement and improvement to the 29 highest possible level of academic excellence. This level of excellence requires each participant in postsecondary 30 31 educational efforts to promote education which: 63

1 (a) Is of the highest possible quality. Enables students of all ages, backgrounds, and 2 (b) 3 levels of income to participate in the search for knowledge 4 and individual development. 5 Stresses undergraduate teaching as its main (C) б priority. 7 (d) Offers selected professional, graduate, and 8 research programs with emphasis on state and national needs. 9 (e) Fosters diversity of educational opportunity. 10 (f) Promotes service to the public. 11 (g) Makes effective and efficient use of human and physical resources. 12 13 (h) Functions cooperatively with other educational institutions and systems. 14 Promotes internal coordination and the wisest 15 (i) possible use of resources. 16 17 (2) In providing postsecondary education, the state's mission is to develop the workforce and human resources, to 18 19 discover and disseminate knowledge, and to extend knowledge and its application beyond the campus to the benefit and 20 stimulation of society. Postsecondary education may accomplish 21 its mission only if it develops in students heightened 22 intellectual, cultural, and humane sensitivities; scientific, 23 24 professional, and technological expertise; and a sense of purpose. Inherent in this broad mission are methods of 25 instruction, research, extended training, and public service 26 27 designed to educate people and improve the human condition. 28 Basic to every purpose of the system is the search for truth. 29 Section 10. Notwithstanding subsection (7) of section 30 3 of chapter 2000-321, Laws of Florida, section 240.107, 31

64

Florida Statutes, shall not stand repealed January 7, 2003, as scheduled by that law, but that section is reenacted to read: 240.107 College-level communication and computation

4 skills examination.--

3

5 (1) It is the intent of the Legislature that the 6 examination of college-level communication and computation 7 skills provided in s. 229.551 serve as a mechanism for 8 students to demonstrate that they have mastered the academic 9 competencies prerequisite to upper-division undergraduate 10 instruction. It is further intended that the examination 11 serve as both a summative evaluation instrument prior to student enrollment in upper-division programs and as a source 12 of information for student advisers. It is not intended that 13 student passage of the examination supplant the need for a 14 15 student to complete the general education curriculum 16 prescribed by an institution.

17 (2) State universities and community colleges shall 18 conduct a minimum of two administrations, one of which may 19 consist of an alternative administration, of the college-level 20 communication and computation skills examination per academic term. Such administrations shall be available to all 21 lower-division students seeking associate in arts or 22 baccalaureate degrees upon completion of at least 18 semester 23 24 hours or the equivalent. State universities and community 25 colleges shall report at a minimum the examination scores of all students tested at each administration of the 26 college-level communication and computation skills 27 28 examination.

(3) No state university or community college shall
confer an associate in arts or baccalaureate degree upon any
student who fails to complete successfully the examination of

65

college-level communication and computation skills. Students
 who received their associate in arts degree prior to September
 1, 1982, shall be exempt from the provisions of this
 subsection.

5 (4) The State Board of Education, by rule, shall set б the minimum scores that constitute successful completion of 7 the examination. In establishing the minimum scores that constitute successful completion of the examination, the State 8 9 Board of Education shall consider any possible negative impact 10 of the tests on minority students. Determinations regarding a 11 student's successful completion of the examination shall be based on the minimum standards prescribed by rule for the date 12 13 the student initially takes the examination.

(5) Any student who, in the best professional opinion 14 15 of the university, has a specific learning disability such that the student can not demonstrate successful completion of 16 17 one or more sections of the college-level communication and computation skills examination and is achieving at the college 18 19 level in every area except that of the disability, and whose diagnosis indicates that further remediation will not succeed 20 in overcoming the disability, may appeal through the 21 appropriate dean to a committee appointed by the president or 22 vice president for academic affairs for special consideration. 23 24 The committee shall examine the evidence of the student's academic and medical records and may hear testimony relevant 25 to the case. The committee may grant a waiver for one or more 26 sections of the college-level communication and computation 27 28 skills examination based on the results of its review.

29 (6) Each community college president and university
30 president shall establish a committee to consider requests for
31 waivers from the provisions of subsection (3). The committee

66

1 shall be chaired by the chief academic officer of the 2 institution and shall have four additional members appointed 3 by the president: a member of the mathematics department, a 4 member of the English department, the institutional test 5 administrator, and a fourth faculty member from a department other than English or mathematics. Any student who has taken a б 7 subtest of the examination required by this section at least 8 four times and has not achieved a passing score, but has 9 otherwise demonstrated proficiency in coursework in the same 10 subject area, may request a waiver from that particular 11 subtest. Waivers shall be considered only after students have been provided test adaptations or other administrative 12 13 adjustments to permit the accurate measurement of the student's proficiency in the subject areas measured by the 14 examination authorized in this section. The committee shall 15 consider the student's educational records and other evidence 16 17 as to whether the student should be able to pass the subtest under consideration. A waiver may be recommended to the 18 19 president upon majority vote of the committee. The president 20 may approve or disapprove the recommendation. The president may not approve a request which the committee has disapproved. 21 22 If a waiver for a given subtest is approved, the student's transcript shall include a statement that the student did not 23 24 meet the requirements of subsection (3) and that a waiver was 25 granted.

26 (7) The State Board of Education, by rule, shall
27 establish fees for the administration of the examination to
28 private postsecondary students.

(8) The State Board of Education, by rule, shall
establish fees for the administration of the examination at
times other than regularly scheduled dates to accommodate

67

1 examinees who are unable to be tested on those dates. 1 (a) The term "dependent child" means any person, 2 whether or not living with his or her parent, who is eligible 3 to be claimed by his or her parent as a dependent under the federal income tax code. 4 5 (b) The term "institution of higher education" means б any of the constituent institutions under the jurisdiction of 7 the State University System or the Florida Community College System. 8 9 (c) A "legal resident" or "resident" is a person who 10 has maintained his or her residence in this state for the 11 preceding year, has purchased a home which is occupied by him or her as his or her residence, or has established a domicile 12 13 in this state pursuant to s. 222.17. 14 (d) The term "parent" means the natural or adoptive parent or legal guardian of a dependent child. 15 (e) A "resident for tuition purposes" is a person who 16 17 qualifies as provided in subsection (2) for the in-state 18 tuition rate; a "nonresident for tuition purposes" is a person 19 who does not qualify for the in-state tuition rate. 20 (2)(a) To qualify as a resident for tuition purposes: 1. A person or, if that person is a dependent child, 21 22 his or her parent or parents must have established legal residence in this state and must have maintained legal 23 24 residence in this state for at least 12 months immediately 25 prior to his or her qualification. 2. (b) A person shall not be deemed to have established or maintained a legal residence in this state and subsequently to have qualified or continued to qualify as a resident for tuition purposes solely by reason of marriage to a person domiciled in this state.

(c) In determining the domicile of a married person, irrespective of sex, the fact of the marriage and the place of domicile of such person's spouse shall be deemed relevant evidence to be considered in ascertaining domiciliary intent.

(8) A person who has been properly classified as a 12 resident for tuition purposes but who, while enrolled in an 13 institution of higher education in this state, loses his or 14 her resident tuition status because the person or, if he or 15 she is a dependent child, the person's parent or parents 16 17 establish domicile or legal residence elsewhere shall continue to enjoy the in-state tuition rate for a statutory grace 18 19 period, which period shall be measured from the date on which 20 the circumstances arose that culminated in the loss of 21 resident tuition status and shall continue for 12 months. However, if the 12-month grace period ends during a semester 22 or academic term for which such former resident is enrolled, 23 24 such grace period shall be extended to the end of that 25 semester or academic term.

(9) Any person who ceases to be enrolled at or who graduates from an institution of higher education while classified as a resident for tuition purposes and who subsequently abandons his or her domicile in this state shall be permitted to reenroll at an institution of higher education in this state as a resident for tuition purposes without the

1 necessity of meeting the 12-month durational requirement of 2 this section if that person has reestablished his or her 3 domicile in this state within 12 months of such abandonment 4 and continuously maintains the reestablished domicile during 5 the period of enrollment. The benefit of this subsection б shall not be accorded more than once to any one person. 7 (10) The following persons shall be classified as 8 residents for tuition purposes: (a) Active duty members of the Armed Services of the 9 10 United States residing or stationed in this state, their 11 spouses, and dependent children. 1 University System and the local governments in which they are 2 located. While the campuses provide research and educational 3 benefits of statewide and national importance, and further 4 provide substantial educational, economic, and cultural 5 benefits to their host local governments, they may also have б an adverse impact on the public facilities and services and 7 natural resources of host governments. On balance, however, 8 universities should be considered as vital public facilities 9 of the state and local governments. The intent of this 10 section is to address this unique relationship by providing 11 for the preparation of campus master plans and associated campus development agreements. 12 13 (2) As used in this section: "Affected local government" means a unit of local 14 (a) government that provides public services to or is responsible 15 for maintaining facilities within a campus of an institution 16 17 in the State University System or is directly affected by development that is proposed for a campus. 18 19 (b) "Affected person" means a host local government; 20 an affected local government; any state, regional, or federal agency; or a person who resides, owns property, or owns or 21 operates a business within the boundaries of a host local 22 government or affected local government. 23 24 (C) "Host local government" means a local government 25 within the jurisdiction of which all or part of a campus of an institution is located, but does not include a county if no 26 part of an institution is located within its unincorporated 27 28 area. 29 "Institution" means a state university in the (d) 30 State University System. 31

116

1 (3) Each university board of trustees shall The Board 2 of Regents shall, no later than 24 months after July 1, 1993, 3 prepare and adopt a campus master plan for its the campus of each institution over which it has jurisdiction. The master 4 5 plan must identify general land uses and address the need for б and plans for provision of roads, parking, public 7 transportation, solid waste, drainage, sewer, potable water, 8 and recreation and open space during the coming 10 to 20 9 years. The plans must contain elements relating to future 10 land use, intergovernmental coordination, capital 11 improvements, recreation and open space, general infrastructure, housing, and conservation. Each element must 12 13 address compatibility with the surrounding community. The 14 master plan must identify specific land uses, location of structures, densities and intensities of use, and contain 15 standards for onsite development, site design, environmental 16 17 management, and the preservation of historic and 18 archaeological resources. The transportation element must 19 address reasonable transportation demand management techniques 20 to minimize offsite impacts where possible. Data and analyses 21 on which the elements are based must include, at a minimum: the characteristics of vacant lands; projected impacts of 22 development on onsite and offsite infrastructure, public 23 24 services, and natural resources; student enrollment projections; student housing needs; and the need for academic 25 and support facilities. The State Board of Education must 26 27 approve the master plan of each university to assure 28 consistency with its strategic plan.Master plans must be 29 updated and reviewed by the state board at least every 5 30 years. 31

1 (4) Campus master plans may contain additional 2 elements at the discretion of the board of trustees Regents; 3 however, such elements are not subject to review under this section. These additional elements may include the academic 4 5 mission of the institution, academic program, utilities, б public safety, architectural design, landscape architectural 7 design, and facilities maintenance.

Subject to the right of the board of trustees 8 (5) 9 Regents to initiate the dispute resolution provisions of 10 subsection (8), a campus master plan must not be in conflict 11 with the comprehensive plan of the host local government and the comprehensive plan of any affected local governments. 12 Α 13 campus master plan must be consistent with the state 14 comprehensive plan.

15 (6) Before a campus master plan is adopted, a copy of the draft master plan must be sent for review to the host and 16 17 any affected local governments, the state land planning 18 agency, the Department of Environmental Protection, the 19 Department of Transportation, the Department of State, the 20 Fish and Wildlife Conservation Commission, and the applicable 21 water management district and regional planning council. These agencies must be given 90 days after receipt of the campus 22 master plans in which to conduct their review and provide 23 24 comments to the board of trustees Regents. The commencement of 25 this review period must be advertised in newspapers of general circulation within the host local government and any affected 26 local government to allow for public comment. Following 27 28 receipt and consideration of all comments, and the holding of 29 at least two public hearings within the host jurisdiction, the board of trustees Regents shall adopt the campus master plan. 30 31 It is the intent of the Legislature that the board of trustees

118

Regents comply with the notice requirements set forth in s. 163.3184(15) to ensure full public participation in this planning process. Campus master plans developed under this section are not rules and are not subject to chapter 120 except as otherwise provided in this section.

6 (7) Notice that the campus master plan has been 7 adopted must be forwarded within 45 days after its adoption to 8 any affected person that submitted comments on the draft 9 campus master plan. The notice must state how and where a copy 10 of the master plan may be obtained or inspected. Within 30 11 days after receipt of the notice of adoption of the campus master plan, or 30 days after the date the adopted plan is 12 13 available for review, whichever is later, an affected person who submitted comments on the draft master plan may petition 14 the board of trustees Regents, challenging the campus master 15 plan as not being in compliance with this section or any rule 16 17 adopted under this section. The petition must state each 18 objection, identify its source, and provide a recommended 19 action. A petition filed by an affected local government may 20 raise only those issues directly pertaining to the public 21 facilities or services that the affected local government provides to or maintains within the campus or to the direct 22 impact that campus development would have on the affected 23 24 local government.

25 (8) Following receipt of a petition, the petitioning 26 party or parties and the board of <u>trustees</u> Regents shall 27 mediate the issues in dispute as follows:

(a) The parties have 60 days to resolve the issues in
dispute. Other affected parties that submitted comments on the
draft campus master plan must be given the opportunity to
participate in these and subsequent proceedings.

119

1 (b) If resolution of the matter cannot be achieved 2 within 60 days, the issues must be submitted to the state land 3 planning agency. The state land planning agency has 60 days 4 to hold informal hearings, if necessary, identify the issues 5 remaining in dispute, prepare a record of the proceedings, and б submit the matter to the Administration Commission for final 7 action. The report to the Administration Commission must list each issue in dispute, describe the nature and basis for each 8 9 dispute, identify alternative resolutions of the dispute, and 10 make recommendations.

11 (c) After receiving the report from the state land planning agency, the Administration Commission shall take 12 13 action to resolve the issues in dispute. In deciding upon a proper resolution, the Administration Commission shall 14 consider the nature of the issues in dispute, the compliance 15 of the parties with this section, the extent of the conflict 16 17 between the parties, the comparative hardships, and the public interest involved. If the Administration Commission 18 19 incorporates in its final order a term or condition that specifically requires the board of trustees Regents or a local 20 government to amend or modify its plan, the board of trustees 21 Regents shall have a reasonable period of time to amend or 22 modify its plan, and a local government shall initiate the 23 24 required plan amendment, which shall be exempt from the requirements of s. 163.3187(1). Any required amendment to a 25 local government comprehensive plan must be limited in scope 26 so as to only relate to specific impacts attributable to the 27 28 campus development. The final order of the Administration 29 Commission is subject to judicial review as provided in s. 30 120.68.

31

120

1 (9) An amendment to a campus master plan must be 2 reviewed and adopted under subsections (6)-(8) if such 3 amendment, alone or in conjunction with other amendments, would: 4 5 (a) Increase density or intensity of use of land on б the campus by more than 10 percent; 7 (b) Decrease the amount of natural areas, open space, 8 or buffers on the campus by more than 10 percent; or 9 (c) Rearrange land uses in a manner that will increase 10 the impact of any proposed campus development by more than 10 11 percent on a road or on another public facility or service provided or maintained by the state, the county, the host 12 13 local government, or any affected local government. 14 (10) Upon adoption of a campus master plan, the board 15 of trustees Regents shall draft a proposed campus development agreement for each local government and send it to the local 16 17 government within 270 days after the adoption of the relevant 18 campus master plan. 19 (11) At a minimum, each campus development agreement: 20 (a) Must identify the geographic area of the campus 21 and local government covered by the campus development 22 agreement. (f) May, if proposed by the board of <u>trustees</u> Regents, address the issues prescribed in paragraphs (d) and (e) with regard to additional facilities and services, including, but not limited to, electricity, nonpotable water, law enforcement, fire and emergency rescue, gas, and telephone.

(g) Must, to the extent it addresses issues addressed
in the campus master plan and host local government
comprehensive plan, be consistent with the adopted campus
master plan and host local government comprehensive plan.

(12)(a) Each proposed campus development agreement must clearly identify the lands to which the board of <u>trustees</u> Regents intends the campus development agreement to apply.

(b) Such land may include:

9 (6)(9) The State Board of Education Community Colleges 10 shall adopt a rule specifying the definitions and procedures 11 to be used in the calculation of the percentage of cost paid by students. The rule must provide for the calculation of the 12 full cost of educational programs based on the allocation of 13 all funds provided through the general current fund to 14 programs of instruction, and other activities as provided in 15 the annual expenditure analysis. The rule shall be developed 16 17 in consultation with the Legislature.

(7)(10) Each community college district board of 18 19 trustees may establish a separate activity and service fee not 20 to exceed 10 percent of the matriculation fee, according to 21 rules of the State Board of Education. 1 goals and mission statement. The Florida Community College Foundation Board and the Director of the Division of Community 2 3 Colleges receiving state appropriations under this program shall approve each gift to ensure alignment with its goals and 4 5 mission statement. For every year in which there is a 6 legislative appropriation to the program, no less than \$25,000 7 must be reserved to permit each community college and the 8 State Board of Community Colleges, which shall be an eligible 9 community college entity for the purposes of this section, an 10 opportunity to match challenge grants. The balance of the 11 funds shall be available for matching by any eligible community college entity. Funds which remain unmatched by 12 contribution on March 1 of any year shall also be available 13 for matching by any community college entity. The State Board 14 of Community Colleges shall adopt rules providing all 15 community college entities with an opportunity to apply for 16 17 excess funds prior to the awarding of such funds. However, no community college may receive more than its percentage of the 18 19 total full-time equivalent enrollment or 15 percent, whichever 20 is greater, of the funds appropriated to the program for that 21 fiscal year and, likewise, the State Board of Community Colleges may not receive more than 15 percent of the funds 22 appropriated to the program for that fiscal year. A community 23 24 college entity shall place all funds it receives in excess of 25 the first challenge grant and its matching funds in its 26 endowment fund and only the earnings on that amount may be 27 spent for approved projects. A community college entity may 28 spend the first challenge grant and its matching funds as cash 29 for any approved project, except scholarships. If a community 30 college entity proposes to use any amount of the grant or the 31 matching funds for scholarships, it must deposit that amount 333

1 in its endowment in its academic improvement trust fund and 2 use the earnings of the endowment to provide scholarships. 3 (3) Upon approval by the institutional board and the state Board of Education, the ordering of donations for 4 5 priority listing of unmatched gifts should be determined by the submitting institution. Challenge grants shall be б 7 proportionately allocated from the program on the basis of 8 matching each \$4 of state funds with \$6 of local or private funds. To be eligible, a minimum of \$4,500 must be raised from 9 10 private sources. 11 (4) Each year, eligible contributions received by a college's foundation or the State Board of Education by 12 February 1 shall be eligible for state matching funds. 13 (a) Each district board of trustees and respective 14 college president or, when applicable, the Florida Community 15 College Foundation Board receiving state appropriations under 16 17 this program shall also certify in an annual report to the State Board of Education the receipt of eligible cash 18 19 contributions that were previously unmatched by the state. The State Board of Education shall adopt rules providing all 20 21 community college entities with an opportunity to apply for excess funds before the awarding of such funds. 22 23 (b) Institutions must submit to the State Board of Education an annual expenditure report tracking the use of all 24 25 matching funds. The audit of each foundation receiving state funds 26 (C) 27 from this program must include a certification of accuracy in the amount reported for matching funds. 28 29 (5) Funds shall be proportionately allocated to the 30 colleges on the basis of matching each \$4 of state funds with 31 \$6 of local or private funds, except for donations received 334

1 for scholarships, loans, or need-based grants. For all scholarships, loans, or need-based grants, the matching ratio 2 3 shall be \$1 of state funds to \$1 of local private funds. The determination of whether the need-based scholarships and 4 5 scholarships that are not need-based awarded through the б combined program are endowed should be left to the 7 institutions. (6)(a) (4) Funds sufficient to provide the match shall 8 9 be transferred from the state appropriation to the local 10 community college foundation or the statewide community 11 college foundation upon notification that a proportionate amount has been received and deposited by the community 12 13 college entity in its own trust fund. (b) If state funds appropriated for the program are 14 insufficient to match contributions, the amount allocated 15 shall be reduced in proportion to its share of the total 16 eligible contributions. However, in making proportional 17 reductions, every college shall receive a minimum of \$75,000 18 19 in state matching funds if its eligible contributions would have generated an amount at least equal to \$75,000. All unmet 20 contributions shall be eligible for state matching funds in 21 22 subsequent fiscal years. (7) (5) Each community college entity shall establish 23 24 its own matching grant program academic improvement trust fund as a depository for the private contributions and matching 25 state funds provided under this section. 1 physical facilities to meet the current demands of its 2 instructional and community programs. It further recognizes 3 that, to strengthen and enhance the Florida community colleges 4 College System, it is necessary to provide facilities in 5 addition to those currently available from existing revenue б sources. It further recognizes that there are sources of 7 private support that, if matched with state support, can assist in constructing much needed facilities and strengthen 8 9 the commitment of citizens and organizations in promoting 10 excellence throughout the state community colleges. Therefore, 11 it is the intent of the Legislature to establish a program to provide the opportunity for each community college through its 12 13 direct-support organization to receive and match challenge grants for instructional and community-related capital 14 facilities within the community college. 15

(2) There is established the State Community College 16 17 System Facility Enhancement Challenge Grant Program for the purpose of assisting the Florida community colleges College 18 19 System in building high priority instructional and 20 community-related capital facilities consistent with s. 240.301, including common areas connecting such facilities. 21 22 The direct-support organizations that serve the community colleges shall solicit gifts from private sources to provide 23 24 matching funds for capital facilities. For the purposes of 25 this section, private sources of funds shall not include any federal or state government funds that a community college may 26 27 receive.

(3) The Community College Capital Facilities Matching
Program shall provide funds to match private contributions for
the development of high priority instructional and

31 community-related capital facilities, including common areas

349

connecting such facilities, within the Florida community
 colleges College System.

3 (4) Within the direct-support organization of each 4 community college there must be established a separate capital 5 facilities matching account for the purpose of providing 6 matching funds from the direct-support organization's 7 unrestricted donations or other private contributions for the 8 development of high priority instructional and 9 community-related capital facilities, including common areas 10 connecting such facilities. The Legislature shall appropriate 11 funds for distribution to a community college after matching funds are certified by the direct-support organization and 12 13 community college. The Public Education Capital Outlay and Debt Service Trust Fund shall not be used as the source of the 14 state match for private contributions. 15

(5) A project may not be initiated unless all private 16 17 funds for planning, construction, and equipping the facility 18 have been received and deposited in the direct-support 19 organization's matching account and the state's share for the 20 minimum amount of funds needed to begin the project has been appropriated by the Legislature. The Legislature may 21 appropriate the state's matching funds in one or more fiscal 22 years for the planning, construction, and equipping of an 23 eligible facility. However, these requirements shall not 24 25 preclude the community college or direct-support organization from expending available funds from private sources to develop 26 a prospectus, including preliminary architectural schematics 27 28 and and/or models, for use in its efforts to raise private 29 funds for a facility. Additionally, any private sources of funds expended for this purpose are eligible for state 30 31

350

1 matching funds should the project materialize as provided for 2 in this section.

3 (6) To be eligible to participate in the State Community College System Facility Enhancement Challenge Grant 4 5 Program, a community college, through its direct-support 6 organization, shall raise a contribution equal to one-half of 7 the total cost of a facilities construction project from 8 private sources which shall be matched by a state 9 appropriation equal to the amount raised for a facilities 10 construction project, subject to the General Appropriations 11 Act.

12 (7) If the state's share of the required match is 13 insufficient to meet the requirements of subsection (6), the 14 community college shall renegotiate the terms of the 15 contribution with the donors. If the project is terminated, 16 each private donation, plus accrued interest, reverts to the 17 direct-support organization for remittance to the donor.

18 (8) By September 1 of each year, the <u>director of the</u>
19 Division of Community Colleges shall transmit to the
20 Legislature a list of projects which meet all eligibility
21 requirements to participate in the State Community College
22 System Facility Enhancement Challenge Grant Program and a
23 budget request which includes the recommended schedule
24 necessary to complete each project.

(9) In order for a project to be eligible under this program, it must be survey recommended under the provisions of s. 235.15 and included in the Florida community college System 5-year capital improvement plan, and it must receive prior approval from the State Board of <u>Education</u> Community Colleges. (10) A community college project may not be removed from the approved 3-year PECO priority list because of its

351

successful participation in this program until approved by the
 Legislature and provided for in the General Appropriations
 Act. When such a project is completed and removed from the
 list, all other projects shall move up on the 3-year PECO
 priority list.

б (11) Any project funds that are unexpended after a 7 project is completed shall revert to the community college's 8 direct-support organization capital facilities matching account. Fifty percent of such unexpended funds shall be 9 10 reserved for the community college which originally received 11 the private contribution for the purpose of providing private matching funds for future facility construction projects as 12 13 provided in this section. The balance of such unexpended funds shall be returned to the General Revenue Fund. 14

(12) The surveys, architectural plans, facility, and equipment shall be the property of the participating community college. A facility constructed under this section may be named in honor of a donor at the option of the community college district board of trustees. A facility may not be named after a living person without prior approval by the State Board of Education Community Colleges.

Section 159. Notwithstanding subsection (7) of section 3 of chapter 2000-321, Laws of Florida, section 240.3836, Florida Statutes, shall not stand repealed January 7, 2003, as scheduled by that law, but that section is reenacted and amended to read:

1 state and its residents. The Legislature also recognizes that 2 economic development needs and the educational needs of 3 place-bound, nontraditional students have increased the demand 4 for local access to baccalaureate degree programs. In some, 5 but not all, geographic regions, baccalaureate degree programs 6 are being delivered successfully at the local community 7 college through agreements between the community college and 4-year postsecondary institutions within or outside of the 8 9 state. It is therefore the intent of the Legislature to 10 further expand access to baccalaureate degree programs through 11 the use of community colleges. (2) A community college may be authorized by the State 12 Florida Board of Education to offer a limited number of 13 baccalaureate degrees designed to meet local workforce needs 14 through one of the following processes: 15 (a) A community college may enter into a formal 16

1	Section 177. Notwithstanding subsection (7) of section
2	3 of chapter 2000-321, Laws of Florida, section 240.4042,
3	Florida Statutes, shall not stand repealed January 7, 2003, as
4	scheduled by that law, but that section is reenacted to read:
5	240.4042 Financial aid appeal process
б	(1) The State Board of Education shall adopt, by rule,
7	a procedure for the appeal of errors in eligibility
8	determinations, or failure to transfer awards between eligible
9	institutions, made by the Office of Student Financial
10	Assistance, Department of Education, regarding applicants'
11	eligibility for receiving state student financial aid awards.
12	The procedure must provide for establishment of a committee to
13	consider appeals that are not resolved by other administrative
14	action. Each committee must be comprised of four members
15	appointed by the Commissioner of Education, including one
16	representative of the Office of Student Financial Assistance;
17	two practicing financial aid administrators from public or
18	private postsecondary institutions in this state, one of whom
19	must be from an institution other than one to which the
20	applicant is seeking admission; and one student enrolled in a
21	public postsecondary institution in this state, nominated by
22	the Florida Student Association. An applicant for state
23	student financial aid who believes an error has been made in
24	determining eligibility for student financial assistance or
25	who believes the department has failed to transfer an award
26	between eligible institutions may appeal the decision in
27	writing to the Office of Student Financial Assistance. The
28	Office of Student Financial Assistance shall investigate the
29	complaint and take appropriate action within 30 days after its
30	receipt of the appeal. If the student wishes further review of
31	the appeal, the Office of Student Financial Assistance shall
	386

1 forward the appeal to the committee. Within 30 days after the 2 receipt of a request for a hearing, a final decision shall be 3 rendered by the committee established under this section, and a copy of the decision shall be provided to the applicant. 4 5 The decision rendered by the committee constitutes final 6 agency action. A description of the financial aid appeals 7 process shall be included in the application form for each 8 state student financial aid program. (2) The president of each state university and each 9 10 community college shall establish a procedure for appeal, by 11 students, of grievances related to the award or administration of financial aid at the institution. 12 (3) A student involved in a financial aid appeal 13 proceeding is eligible for a deferral of registration and fee 14 15 payments pursuant to s. 240.235(2). Section 178. Section 240.4043, Florida Statutes, is 16 17 created to read: 240.4043 State-funded student fees.--18 19 (1) The following fee waivers are available to 20 students enrolled in state universities: (a) A state university may grant a fee waiver for up 21 to 6 credit hours per term to a full-time employee of the 22 university who meets academic requirements, if space is 23 24 available in the course. 25 (b) A state university may grant a waiver of state-resident fees to a student who is 60 years of age or 26 27 older who attends classes but does not intend to accrue credit 28 hours for those classes. A university may not award credit for 29 attendance in classes for which fees are waived under this 30 authority. A university may grant this privilege only if space is available in classes that are not filled at the close of 31

1 registration. A university may limit or deny the privilege for courses in programs that have selective admissions criteria. 2 3 Persons paying full fees and state employees have priority over these noncredit students. 4 5 (c) A state university may waive out-of-state tuition fees for nondegree-seeking students if the earned student б credit hours generated by those students are nonfundable and 7 8 the direct cost for the program of study is recovered from the fees charged to all students. 9 10 (d) A graduate student enrolled in a state-approved 11 school psychology training program is entitled to a waiver of registration fees for internship credit hours applicable to an 12 internship in the public school system under the supervision 13 of a school psychologist certified by the Department of 14 Education and employed by the school system. 15 (e) A state university shall waive matriculation and 16 17 other mandatory fees for persons who supervise student interns, under conditions and limitations provided by the 18 19 State Board of Education. Student credit hours generated by students receiving these 26 27 benefits are fundable credit hours. The Department of 28 Management Services may provide the vouchers, grants, or 29 waivers from funds appropriated for this purpose or, if 30 insufficient funds are appropriated to the department, each 31

388

1 state agency may support the training and education needs of its employees from funds appropriated to the agency. 2 3 (b) A student for whom the state is paying a board payment for foster care under s. 409.145(3) or parts II and 4 5 III of chapter 39, for whom the permanency planning goal б pursuant to part III of chapter 39 is long-term foster care or 7 independent living, or who is adopted from the Department of 8 Children and Family Services after May 5, 1997, is exempt from 9 the payment of undergraduate fees, including fees associated 10 with enrollment in vocational-preparatory or 11 college-preparatory instruction. The student must apply for other federal and state 12 1. grants that are authorized to pay fees, and the postsecondary 13 education institution must exempt the student only from the 14 portion of fees not paid by another state or federal program. 15 2. Eligibility for the exemption ends 7 years after 16 graduation from high school, and a student may not use the 17 exemption for more than 110 percent of the number of hours 18 19 required to complete the program, including any required vocational-preparatory or college-preparatory enrollment. 20 3. A student must earn a grade-point average of 2.0 or 21 higher for the previous term, maintain a cumulative 22 grade-point average of 2.0 or higher for all postsecondary 23 24 education courses attempted, or have a grade-point average 25 below 2.0 only for the previous term. The 13 student must provide evidence to the postsecondary education 14 institution verifying that the conditions of this paragraph 15 have been met, including support documentation provided by the 16 17 Department of Revenue. The student must be currently enrolled in, or begin coursework within, a program area by fall 18 19 semester 2000. The exemption is valid for 4 years following 20 the date that the postsecondary education institution confirms that the conditions of this paragraph have been met. 21 (f) A university, a community college, a college, or a 22 school district that conducts postsecondary education programs 23 24 may defer matriculation and other mandatory fees for a student 25 whose state or federal financial-assistance payment is delayed, if the delay is beyond the student's control and the 26 27 student meets the program requirements, including the application deadline. Veterans and others receiving benefits 28 29 under chapter 30, chapter 31, chapter 32, chapter 34, or chapter 35 of Title 38 U.S.C., or under chapter 106 of Title 30 31 10 U.S.C., are entitled to one deferment each academic year

390

Florida Senate - 2002 302-2333-02

1	(Substantial rewording of section. See
2	s. 240.405, F.S., for present text.)
3	240.405 State-funded assistance for school
4	employeesState-funded assistance for school employees is
5	provided to attract capable and promising students to
6	employment in the public school system, especially to areas of
7	projected or current critical shortage. Funds appropriated by
8	the Legislature or repaid by students for the programs
9	governed by this section must be deposited in the State
10	Student Financial Assistance Trust Fund. Any balance at the
11	end of a fiscal year remains in the trust fund and is
12	available for the individual programs in future years. This
13	section shall be implemented only to the extent specifically
14	funded and authorized by law. Pursuant to ss. 120.536(1) and
15	120.54, the State Board of Education shall adopt rules
16	necessary to identify the areas of critical shortage and to
17	administer the programs. The Department of Education shall
18	administer the programs or shall delegate administrative
19	responsibility as required in this section or rules of the
20	State Board of Education.
21	(1) The reimbursement program for college expenses is
22	established to encourage qualified personnel to seek
23	employment in areas in which critical shortages exist in
24	publicly funded schools. For purposes of this chapter, a
25	school is publicly funded if it receives at least 75 percent
26	of its operating costs from governmental agencies and operates
27	its educational program under contract with a public school
28	district or the Department of Education. The two components of
29	the program are for repayment of student loans or for tuition
30	reimbursement, as follows:
31	

392

1	(a) Loan repayments are intended to be made to
2	qualified applicants who begin employment for the first time
3	in designated shortage areas and who apply during their first
4	year of teaching as certified teachers or licensed therapists
5	in these areas. Repayment is limited to loans from a federal
6	program or a commercial lending institution. A student who
7	receives a scholarship loan or a fellowship loan provided
8	under this section is not eligible to receive a loan repayment
9	from the program. From the funds available, the Department of
10	Education may make loan principal repayments as follows:
11	1. Up to \$2,500 a year for up to 4 years on behalf of
12	selected graduates of state-approved undergraduate
13	postsecondary teacher preparation programs; persons certified
14	to teach pursuant to any applicable teacher certification
15	requirements; selected teacher preparation graduates from any
16	state participating in the Interstate Agreement on the
17	Qualification of Educational Personnel; or selected graduates
18	of accredited programs for undergraduate preparation of
19	occupational therapists or physical therapists. A licensed
20	occupational therapist assistant or licensed physical
21	therapist assistant is eligible for an award for up to 2
22	years.
23	2. Up to \$5,000 a year for up to 2 years on behalf of
24	selected graduates of state-approved graduate postsecondary
25	teacher preparation programs, persons with graduate degrees
26	certified to teach pursuant to any applicable teacher
27	certification requirements, or selected teacher preparation
28	graduates from any state participating in the Interstate
29	Agreement on the Qualification of Educational Personnel.
30	
31	

393

1 All repayments are contingent on continued proof of employment in the designated areas in this state and shall be made 2 3 directly to the holder of the loan or, if the loan is paid in full, directly to the teacher or therapist. The state is not 4 5 responsible for collecting any interest charges or other б remaining balance. If the State Board of Education changes the 7 designated critical shortage areas, an employee remains 8 eligible for loan repayment as long as he or she continues 9 employment in the area for which the original loan repayment 10 was made and otherwise meets all conditions of eligibility. 11 (b) Tuition reimbursement is intended for current employees or persons preparing for employment in critical 12 shortage areas. Any full-time certified teacher, licensed 13 physical therapist or assistant, or licensed occupational 14 therapist or assistant in a publicly funded school or 15 developmental research school in this state is eligible for 16 17 tuition reimbursement for the following courses in areas of critical shortage: 18 19 1. Graduate-level courses leading to a master's, 20 specialist, or doctoral degree; 21 2. Graduate-level courses leading to a new 22 certification area; or 23 3. State-approved undergraduate courses leading to an 24 advanced degree or new certification area. 25 Participants may receive tuition reimbursement payments for up 26 27 to 9 semester hours, or the equivalent in quarter hours, per 28 year, at a rate not to exceed \$78 per semester hour, up to a 29 total of 36 semester hours. Tuition reimbursements are contingent on passing an approved course with a minimum 30 grade-point average of 3.0 or its equivalent. 31 394

1	(2) The forgivable loan program for school employees
2	in areas of critical shortage is intended to make
3	undergraduate-level and graduate-level forgivable loans
4	available to eligible students entering programs of study
5	which lead to a degree in a program in an area of critical
6	shortage in the public school system. A person is not eligible
7	for both a forgivable loan and a reimbursement of college
8	expenses under this section.
9	(a) The Legislature finds that reimbursement of
10	college expenses is a more effective method of meeting the
11	needs of the state than are forgivable loans. The Legislature
12	intends to phase out the forgivable loan program.
13	(b) To be eligible for a loan under this program, a
14	candidate must:
15	1. Be a full-time student at the upper-division
16	undergraduate or graduate level in a state-approved teacher
17	preparation program leading to certification in a critical
18	teacher shortage subject area, or be a full-time student in a
19	therapy assistant program or in the upper division or higher
20	level in an occupational therapist or physical therapist
21	educational program. Occupational therapist and occupational
22	therapy assistant programs must be accredited by the American
23	Medical Association in collaboration with the American
24	Occupational Therapy Association. Physical therapist and
25	physical therapist assistant programs must be accredited by
26	the American Physical Therapy Association.
27	2. Have declared an intent to be employed, for at
28	least the number of years for which a forgivable loan is
29	received, in publicly funded elementary or secondary schools
30	in this state in a critical shortage area identified by the
31	State Board of Education.

395

1 3. Meet the general requirements for student eligibility as provided in s. 240.404. 2 3 4. If applying for an undergraduate forgivable loan for employment as a teacher, have maintained a minimum 4 5 cumulative grade-point average of 2.5 on a 4.0 scale for all б undergraduate work. 7 If applying for an undergraduate forgivable loan 5. 8 for employment as an occupational therapist, physical therapist, or therapist assistant, have maintained a minimum 9 10 cumulative grade-point average of 2.0 on a 4.0 scale for all 11 undergraduate work. 6. If applying for renewal of an undergraduate loan, 12 have maintained a minimum cumulative grade-point average of at 13 least a 2.5 on a 4.0 scale for all undergraduate work and have 14 earned at least 12 semester credits per term, or the 15 16 equivalent. 17 7. If applying for a graduate forgivable loan for any eligible employment, have maintained an undergraduate 18 19 cumulative grade-point average of at least a 3.0 on a 4.0 scale or have attained a Graduate Record Examination score of 20 at least 1,000. Renewal applicants for graduate loans shall 21 maintain a minimum cumulative grade-point average of at least 22 a 3.0 on a 4.0 scale for all graduate work and have earned at 23 least 9 semester credits per term, or the equivalent. 24 (c) An undergraduate forgivable loan may be awarded 25 for 2 undergraduate years, not to exceed \$4,000 per year, or 26 27 for a maximum of 3 years for programs requiring a fifth year of instruction to obtain initial teaching certification. 28 29 (d) A graduate forgivable loan may be awarded for 2 graduate years and may not exceed \$8,000 per year for a 30 31 teacher and \$4,000 per year for a therapist or therapist

396

1 assistant. At the graduate level, a loan recipient must meet the educational and general criteria required of an 2 3 undergraduate recipient and must also: 1. Hold a bachelor's degree from a college or 4 5 university accredited by the Commission on Colleges of the б Southern Association of Colleges and Schools, the American 7 Physical Therapy Association, or the American Medical 8 Association in collaboration with the American Occupational 9 Therapy Association. 10 2. Not already hold a teaching certificate or therapy 11 license resulting from an undergraduate degree in education or therapy in an area of critical shortage as designated by the 12 State Board of Education. 13 3. Not have received a forgivable loan from this 14 program at the undergraduate level. 15 (e) Recipients of the Paul Douglas Teacher Scholarship 16 17 Loan Program as authorized under Title IV, part D, subpart 1 of the Higher Education Act of 1965, as amended, are not 18 19 eligible to participate in the Florida Critical Teacher 20 Shortage Forgivable Loan Program. (f) A forgivable loan must be repaid within 10 years 21 after completion of a program of studies. 22 23 1. Credit for repayment of an undergraduate or 24 graduate forgivable loan shall be in an amount not to exceed 25 \$4,000 in loan principal, plus applicable accrued interest, for each full year of eligible teaching service. However, 26 27 credit in an amount not to exceed \$8,000 in loan principal, plus applicable accrued interest, shall be given for each full 28 29 year of eligible teaching service completed at a high-density, 30 low-economic urban school or at a low-density, low-economic rural school, as identified by the State Board of Education. 31

1	2. Any forgivable loan recipient who fails to teach in
2	a publicly funded elementary or secondary school in this
3	state, or a nonpublic school teaching any grades from K-12 in
4	this state which is recognized by the Florida Association of
5	Academic Nonpublic Schools, is responsible for repaying the
6	loan plus accrued interest at 8 percent annually.
7	3. Forgivable loan recipients may receive loan
8	repayment credit for teaching service rendered at any time
9	during the scheduled repayment period. However, this repayment
10	credit is applicable only to the current principal and accrued
11	interest balance that remains at the time the repayment credit
12	is earned. A loan recipient may not be reimbursed for previous
13	cash payments of principal and interest.
14	(3)(a) The grant program for teachers preparing for
15	exceptional student education is designed for teachers who:
16	1. Hold a full-time contract to teach in a district
17	school system, a state-operated or state-supported program, or
18	an agency or organization under contract with the Department
19	of Education;
20	2. Hold a valid Florida educator's certificate that
21	does not reflect an exceptional-student-education coverage or
22	endorsement that is appropriate for the teacher's assignment;
23	and
24	3. Satisfactorily complete the eligible courses.
25	(b) The Department of Education shall establish rates
26	to determine grant amounts.
27	(4) The "Chappie" James Most Promising Teacher
28	Scholarship shall be offered to a top graduating senior from
29	each publicly funded secondary school in the state. An
30	additional number of "Chappie" James Most Promising Teacher
31	Scholarship awards shall be offered annually to graduating
	208

1	seniors from nonpublic secondary schools in the state which
2	are listed with the Department of Education and accredited by
3	the Southern Association of Colleges and Schools or any other
4	private statewide accrediting agency that makes public its
5	standards, procedures, and member schools. The nonpublic
6	secondary schools must be in compliance with regulations of
7	the Office for Civil Rights. The number of awards to nonpublic
, 8	
	secondary school students shall be proportional to the number
9	of awards available to public secondary school students and
10	shall be calculated as the ratio of the number of nonpublic to
11	public secondary school seniors in the state multiplied by the
12	number of public secondary schools in the state.
13	(a) The scholarship may be used for attendance at a
14	state university, a community college, or an independent
15	institution eligible for the William L. Boyd, IV, Florida
16	Resident Access Grant.
17	(b) The amount of the scholarship is \$1,500 and may be
18	renewed for 1 year if the student earns a 2.5 cumulative

29	otherwise provided in this section; and have the intent to
30	enter the public teaching profession in this state.
31

1	(d) Three candidates from each public secondary school
2	and one candidate from each nonpublic secondary school in this
3	state shall be nominated by the principal and a committee of
4	teachers, based on criteria that includes, but need not be
5	limited to, rank in class, standardized test scores,
6	cumulative grade-point average, extracurricular activities,
7	letters of recommendation, an essay, and a declaration of
8	intention to teach in a public school in this state.
9	(e) From public secondary school nominees, the
10	Commissioner of Education shall select a graduating senior
11	from each public high school to receive a scholarship.
12	Selection of recipients from nonpublic secondary schools shall
13	be made by a committee, appointed by the Commissioner of
14	Education, comprised of representatives from nonpublic
15	secondary schools and the Department of Education.
16	(f) Fifteen percent of scholarships awarded shall be
17	to minority students. However, if fewer than 15 percent of the
18	total eligible nominees are minority students, the
19	commissioner may allocate all award funds as long as a
20	scholarship loan is reserved for each eligible minority
21	nominee.
22	(5) The minority teacher education scholars program is
23	a collaborative performance-based scholarship program for
24	African-American, Hispanic-American, Asian-American, and
25	Native American students. The participants in the program
26	include the state's public community colleges and its public
27	and private universities that have teacher education programs.
28	(a) The minority teacher education scholars program
29	provides an annual scholarship of \$4,000 for each approved
30	minority teacher education scholar who is enrolled in one of
31	

1 the state's public or private universities in the junior year and is admitted into a teacher education program. 2 3 (b) To assist each participating education institution in recruiting and retaining minority teacher scholars, the 4 5 administrators of the Florida Fund for Minority Teachers, б Inc., shall implement a systemwide training program. The training program must include an annual conference or series 7 8 of conferences for students who are in the program or who are identified by a high school or a community college as likely 9 candidates for the program. The training program must also 10 11 include research about and dissemination of information concerning successful activities or programs that recruit 12 minority students for teacher education and retain them 13 through graduation, certification, and employment. Staff 14 employed by the corporation may work with each participating 15 education institution to assure that local faculty and 16 17 administrators receive the benefit of all available research and resources to increase retention of their minority teacher 18 19 education scholars. The total amount appropriated annually for new 20 (C) scholarships in the program must be divided by \$4,000 and by 21 the number of participating colleges and universities. Each 22 participating institution has access to the same number of 23 24 scholarships and may award all of them to eligible minority 25 students. If a college or university does not award all of its scholarships by the date set by the program administration at 26 27 the Florida Fund for Minority Teachers, Inc., the remaining 28 scholarships must be transferred to another institution that 29 has eligible students. 30 (d) A student may receive a scholarship from the 31 program for 3 consecutive years if the student remains

401

1 enrolled full-time in the program and makes satisfactory progress toward a baccalaureate degree with a major in 2 3 education. 4 (e) If a minority teacher education scholar graduates 5 and is employed as a teacher in a publicly funded school in б this state, the scholar is not required to repay the scholarship amount so long as the scholar teaches in a 7 8 publicly funded school. A scholar may repay the entire scholarship amount by remaining employed as a teacher for 1 9 10 year for each year he or she received the scholarship. 11 (f) If a minority teacher education scholar does not graduate within 3 years, or if the scholar graduates but does 12 not teach in a publicly funded school in this state, the 13 14 scholar must repay the total amount awarded, plus annual interest of 8 percent. 15 Interest begins accruing the first day of the 13th 16 1. 17 month after the month in which the recipient completes an 18 approved teacher education program or after the month in which 19 enrollment as a full-time student is terminated. Interest does 20 not accrue during any period of deferment or eligible teaching 21 service. The repayment period begins the first day of the 22 2. 13th month after the month in which the recipient completes an 23 24 approved teacher education program or after the month in which 25 enrollment as a full-time student is terminated. The terms and conditions of the scholarship 26 3. 27 repayment must be contained in a promissory note and a 28 repayment schedule. The loan must be paid within 10 years 29 after the date of graduation or termination of full-time 30 enrollment, including any periods of deferment. A shorter repayment period may be granted. The minimum monthly repayment 31

However, it is not the 8 9 intention of the Legislature that the provisions of this act 10 impede mining or quarrying for rock, gravel, fill, phosphate, 11 and other minerals, or the construction of canals or similar excavations, when such activities are permitted by law. 12 13 Rather, it is the intent of the Legislature that mine and 14 heavy equipment operators be encouraged to cooperate with the 15 state in preserving its vertebrate paleontological heritage and vertebrate fossils by notifying the Florida Museum of 16 17 Natural History whenever vertebrate fossils are discovered during mining or digging operations and by allowing such 18 19 fossils to be properly salvaged and that persons having 20 knowledge of vertebrate paleontological sites be encouraged to 21 communicate such information to the museum. (2) It is hereby declared to be the public policy of 22 this state to protect and preserve vertebrate paleontological 23 24 sites containing vertebrate fossils, including bones, teeth, natural casts, molds, impressions, and other remains of 25 prehistoric fauna, and to provide for the collection, 26 acquisition, and study of the vertebrate fossils of the state 27 28 which offer documentation of the diversity of life on this 29 planet. 8 240.529 Public accountability and state approval for9 teacher preparation programs.--

10 (1) INTENT.--The Legislature recognizes that skilled 11 teachers make an important contribution to a system that allows students to obtain a high-quality education. The intent 12 13 of the Legislature is to establish a system for development 14 and approval of teacher preparation programs that will free 15 postsecondary teacher preparation institutions to employ varied and innovative teacher preparation techniques while 16 17 being held accountable for producing graduates with the competencies and skills necessary to achieve the state 18 19 education goals; help the state's diverse student population, 20 including students with limited English proficiency, meet high 21 standards for academic achievement; maintain safe, secure classroom learning environments; and sustain the state system 22 of school improvement and education accountability established 23 24 pursuant to ss. 229.591 and 229.592. The State Board of 25 Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 that establish uniform core curricula for each 26 27 state-approved teacher preparation program. 28 (2) DEVELOPMENT OF TEACHER PREPARATION PROGRAMS. -- A 29 system developed by the Department of Education in collaboration with institutions of higher education shall 30 31 assist departments and colleges of education in the

550

1 restructuring of their programs to meet the need for producing 2 quality teachers now and in the future. The system must be 3 designed to assist teacher educators in conceptualizing, developing, implementing, and evaluating programs that meet 4 5 state-adopted standards. The Education Standards Commission 6 has primary responsibility for recommending these standards to 7 the State Board of Education for adoption. These standards 8 shall emphasize quality indicators drawn from research, professional literature, recognized guidelines, Florida 9 10 essential teaching competencies and educator-accomplished 11 practices, effective classroom practices, and the outcomes of the state system of school improvement and education 12 13 accountability, as well as performance measures. Departments 14 and colleges of education shall emphasize the state system of school improvement and education accountability concepts and 15 standards, including Sunshine State Standards. State-approved 16 17 teacher preparation programs must incorporate appropriate English for Speakers of Other Languages instruction so that 18 19 program graduates will have completed the requirements for 20 teaching limited English proficient students in Florida public 21 schools.

22

(3) INITIAL STATE PROGRAM APPROVAL.--

(a) A program approval process based on standards 23 24 adopted pursuant to subsection (2) must be established for 25 postsecondary teacher preparation programs, phased in according to timelines determined by the Department of 26 Education, and fully implemented for all teacher preparation 27 28 programs in the state. Each program shall be approved by the 29 department, consistent with the intent set forth in subsection (1) and based primarily upon significant, objective, and 30 31 quantifiable graduate performance measures.

551

2	Department of Education, as provided for by this section,
3	shall require students to meet the following as prerequisites
4	for admission into the program:
5	1. Have a grade point average of at least 2.5 on a 4.0
6	scale for the general education component of undergraduate
7	studies or have completed the requirements for a baccalaureate
8	degree with a minimum grade point average of 2.5 on a 4.0
9	scale from any college or university accredited by a regional
10	accrediting association as defined by state board rule; and
11	2. Beginning with the 2000-2001 academic year,
12	Demonstrate mastery of general knowledge, including the
13	ability to read, write, and compute by passing the College
14	Level Academic Skills Test, a corresponding component of the
15	National Teachers Examination series, or a similar test
16	pursuant to rules of the State Board of Education.
17	
18	The State Board of Education may provide by rule for a waiver
19	of these requirements. The rule shall require that 90 percent
20	of those admitted to each teacher education program meet the
21	requirements of this paragraph and that the program implement
22	strategies to ensure that students admitted under a waiver
23	receive assistance to demonstrate competencies to successfully
24	meet requirements for certification.
25	(4) CONTINUED PROGRAM APPROVALNotwithstanding
26	subsection (3), failure by a public or nonpublic teacher
27	preparation program to meet the criteria for continued program
28	approval shall result in loss of program approval. The
29	Department of Education, in collaboration with the departments
30	and colleges of education, shall develop procedures for
31	
	550

552

1 continued program approval which document the continuous 2 improvement of program processes and graduates' performance. 3 (a) Continued approval of specific teacher preparation 4 programs at each public and nonpublic institution of higher 5 education within the state is contingent upon the passing of б the written examination required by s. 231.17 by at least 90 7 percent of the graduates of the program who take the 8 examination. Additional criteria for continued program approval 22 for nonpublic institutions shall be developed in the same 23 24 manner as for public institutions; however, such criteria must be based upon significant, objective, and quantifiable 25 graduate performance measures. Responsibility for collecting 26 27 data on outcome measures through survey instruments and other 28 appropriate means shall be shared by the institutions of 29 higher education, the Board of Regents, the State Board of Independent Colleges and Universities, and the Department of 30 31 Education, and the Commission for Independent Education.
