31

An act relating to switched network access rates; amending s. 364.10, F.S.; revising provisions for Lifeline Assistance Plan service; providing for certification and maintenance of claims by Office of Public Counsel; requiring certain local exchange telecommunications companies to provide specified materials relating to the plan; requiring state agencies to provide such material to affected applicants; exempting plan beneficiaries from certain rate increases under certain circumstances; providing for notification; amending s. 364.163, F.S.; revising provisions relating to caps on rates; deleting provisions relating to recovery of costs of government programs; revising provisions relating to rate changes; providing for adjustments in long distance revenues and pass-through to customers; maintaining continuing oversight by the commission; creating s.364.164, F.S.; providing findings; providing for petition to the commission for reduction of access rates; providing for final order; providing for criteria; providing for establishment of revenue category mechanisms; providing for notification; providing for revenue neutrality; providing for notice; providing limitations on adjustments; providing for pricing units; maintaining exemptions;

```
providing definitions; providing an effective
1
2
           date.
3
4
   Be It Enacted by the Legislature of the State of Florida:
5
6
           Section 1. Subsection (3) is added to section 364.10,
7
   Florida Statutes, to read:
8
           364.10 Undue advantage to person or locality
9
   prohibited; exception. --
10
          (3)(a) Any local exchange telecommunications company
    authorized by the commission to reduce its switched network
11
   access rate pursuant to s. 364.164, shall, effective March 31,
12
13
    2003, have tariffed and shall provide Lifeline Assistance Plan
14
    service to any otherwise eligible customer or potential
15
    customer who meets an income eligibility test at 125 percent
    or less of the federal poverty income guidelines for Lifeline
16
17
    Assistance Plan customers. Such test for eligibility shall
    augment, rather than replace, the eligibility standards
18
19
    established by federal law and based on participation in
20
    certain low-income assistance programs. Each interexchange
    telecommunications carrier shall, effective March 31, 2003,
21
    file a tariff providing, at a minimum, the <u>interexchange</u>
22
23
    telecommunications carrier's current Lifeline Assistance Plan
    benefits and exemptions to Lifeline Assistance Plan customers
24
    who meet the income eligibility test set forth in this
25
26
    subsection. The Office of Public Counsel shall serve as the
27
    state agency which certifies and maintains claims submitted by
    a customer for eligibility under the income test authorized by
28
29
    this subsection.
          (b) Each local exchange telecommunications company
30
    subject to this subsection shall provide each state and
31
```

federal agency that provides benefits to persons that are eligible for the Lifeline Assistance Plan service with applications, brochures, pamphlets, or other materials which inform such persons of their eligibility for the Lifeline Assistance Plan service, and each state agency providing such benefits shall furnish such materials to affected persons at the time such persons apply for benefits.

- (c) Any local exchange telecommunications company customer receiving Lifeline Assistance Plan benefits shall not be subject to any residential basic local telecommunications service rate increases authorized by s. 364.164 until such time as the local exchange telecommunications company reaches parity as defined in s. 364.164(6) or until the customer no longer qualifies for the Lifeline Assistance Plan benefits established by this section or s. 364.105, or unless otherwise determined by the commission upon petition by a local exchange telecommunications company.
- (d) Each agency that provides benefits to persons that are eligible for the Lifeline Assistance Plan service shall, by December 31, 2002, notify each such person by postcard of his or her eligibility for the Lifeline Assistance Plan service, together with the name of the local exchange telecommunications company. The direct cost of this postcard production and mailing shall be paid by the local exchange telecommunications companies with more than one million access lines in service. The commission shall report to the Governor, the Speaker of the House of Representatives and the President of the Senate by December 31st of each year on the number of customers who are subscribing to Lifeline Assistance Plan service.

Section 2. Section 364.163, Florida Statutes, is amended to read:

364.163 Network access services.--For purposes of this section, "network access service" is defined as any service provided by a local exchange telecommunications company to a telecommunications company certificated under this chapter or licensed by the Federal Communications Commission to access the local exchange telecommunications network, excluding the local interconnection arrangements in s. 364.16 and the resale arrangements in s. 364.161. Each local exchange telecommunications company subject to s. 364.051 shall maintain tariffs with the commission containing the terms, conditions, and rates for each of its network access services.

(1) Effective January 1, 1999, the rates for switched network access services of each company subject to this section shall be capped at the rates in effect on January 1, 1999, and shall remain capped until January 1, 2001. Upon the date of filing its election with the commission, the network access service rates of a company that elects to become subject to this section shall be capped at the rates in effect on that date and shall remain capped for 5 years.

(1)(2) After the termination of the caps imposed on rates by subsection (1) and after a local exchange telecommunications company's intrastate switched network access rates are reduced to or below reach parity, as defined in s. 364.164(6), the company's intrastate switched network access rates shall be capped and shall remain capped for 3 years thereafter.with its interstate switched access rates, a company subject to this section may, on 30 days' notice, annually adjust any specific network access service rate in an amount not to exceed the cumulative change in inflation

experienced after the date of the last adjustment, provided, however, that no such adjustment shall ever exceed 3 percent annually of the then-current prices. Inflation shall be measured by the changes in Gross Domestic Product Fixed 1987 Weights Price Index, or successor fixed weight price index, published in the Survey of Current Business, or successor publication, by the United States Department of Commerce.

(3) After the termination of the caps imposed on rates by subsection (1), a company subject to this section may, at any time, petition the commission for a network access service rate change to recover the cost of governmentally mandated projects or programs or an increase in federal or state income tax incurred after that date. The costs and expenses of the government program or project required in part II of this chapter shall not be recovered under this subsection unless such costs and expenses are incurred in the absence of a bid and subject to carrier of last resort obligations as provided for in part II of this chapter. With respect to governmentally mandated projects and programs, such petition shall be acted upon no later than 90 days after the date of filing. A company subject to this section shall show the commission that the cost of a project or program is not recoverable either from the government mandating the project or program or from the beneficiaries of the project or program through user fees or other new revenue sources from the project or program, and to the extent that cost decreases resulting from the project or program are reflected as an offset to cost increases. A company subject to this section shall decrease its network access rates by amounts that reflect any federal or state income tax reduction. Nothing contained in this section shall allow any revisions in the

rates, terms, and conditions for commercial mobile radio service access, which revisions are inconsistent with the requirements or methodologies of the Federal Communications Commission.

(4) A company subject to this section may choose to implement all or a portion of a rate increase allowed for network access service by subsections (1), (2), and (3).

Notwithstanding subsections (1), (2), and (3), a company subject to this section may choose to decrease network service rates at any time, and decreased rates shall become effective upon 7 days' notice.

(5) company-proposed changes to the terms and conditions for existing network access services in accordance with subsections (1), (2), (3), and (4) shall be presumed valid and become effective upon 15 days' notice. company-proposed rate reductions shall become effective upon 7 days' notice. Rate increases made by the local exchange telecommunications company shall be presumed valid and become effective on the date specified in the tariff, but in no event earlier than 30 days after the filing of such tariff. The commission shall have continuing regulatory oversight of local exchange telecommunications company-provided network access services for purposes of determining the correctness of any price increase resulting from the application of the inflation index and making any necessary adjustments, establishing reasonable service quality criteria, and assuring resolution of service complaints. No later than 30 days after the filing of such tariff, the commission may, with respect to determining the correctness of any price increase, vote, without hearing, the local exchange telecommunications company to hold subject to refund all revenues collected under the

rate increase. Within 60 days after such order, the commission must make a determination either compelling a refund of all or 2 3 part of such revenues or releasing them from such requirement. 4 (2) (6) Any local exchange telecommunications company 5 with more than 100,000, but fewer than 3 million, basic local telecommunications service access lines in service on July 1, 6 1995, shall reduce its intrastate switched access rates by 5 7 percent on July 1, 1998, and by 10 percent on October 1, 1998. 8 9 Any interexchange telecommunications carrier company whose intrastate switched network access rate is reduced as a result 10 of the rate adjustments decreases made by a local exchange 11 12 telecommunications company in accordance with s. 364.164 this subsection shall decrease its intrastate long distance 13 14 revenues rates by the amount necessary to return the benefits of such reduction to both its residential and business 15 customers but shall not reduce per minute intra-LATA toll 16 17 rates by a percentage greater than the per minute intrastate 18 switched access rate reductions required by this act. The 19 interexchange telecommunications carrier may determine the specific intrastate rates to be decreased, provided that 20 residential and business customers benefit proportionally from 21 the rate decreases. Subject to the foregoing, any 22 23 interexchange telecommunications carrier that charges an in-state connection fee shall use any decrease in the 24 intrastate switched network access rate reductions required by 25 26 s. 364.164 to first eliminate that fee before it reduces its long distance toll rates. In any event, any in-state 27 28 connection fee shall be eliminated by March 1, 2004, provided that the timetable approved pursuant to s. 364.164(2) reduces 29 30 intrastate switched network access rates in an amount that results in the elimination of the access recovery charge in a 31

revenue-neutral manner. The tariff changes, if any, made by the interexchange telecommunications carrier to carry out the requirements of this subsection shall be presumed valid and become effective on 1 day's notice.

(7) Telecommunications company intrastate switched access and customer long distance rate reductions shall become effective on October 1 of each relevant year. Rate decreases proposed in tariff revisions filed by the telecommunications companies with the commission shall be presumed valid and become effective on October 1 of each relevant year.

(8) No later than 30 days after the filing of such tariff, the commission may, with respect to determining the correctness of any rate decrease, vote, without hearing, the telecommunications company to hold subject to refund all intrastate switched access or customer long distance rate revenues collected after the rate decrease. Within 60 days after such order, the commission must make a determination either compelling a refund of the appropriate part of such revenues or releasing all such revenues from such requirement.

(3)(9) The commission shall have continuing regulatory oversight of intrastate switched network access and customer long distance rates for purposes of determining the correctness of any rate decrease by a telecommunications company resulting from the application of this section and making any necessary adjustments to those rates, establishing reasonable service quality criteria, and assuring resolution of service complaints. Nothing in this subsection shall be construed to mean that the commission does not have continuing regulatory oversight of service quality criteria or the authority to resolve service complaints for all telecommunications companies subject to this section.

1	Section 3. Section 364.164, Florida Statutes, is
2	created to read:
3	364.164 Switched network access rate reduction
4	(1) The Legislature finds the following:
5	(a) Residential local exchange competition is in the
6	best interest of Florida and its telecommunications consumers;
7	(b) Residential basic local telecommunications service
8	prices are, on average, below cost, being subsidized with
9	revenues from other services including switched network access
LO	charges;
L1	(c) The intrastate switched network access charges
L2	paid by interexchange telecommunications companies in Florida
L3	are above cost and are higher than the interstate switched
L4	network access charges which such companies pay to the same
L5	local exchange telecommunications companies in Florida;
L6	(d) The subsidization of residential basic local
L7	telecommunications service prices with revenues from
L8	intrastate switched network access charges is inhibiting the
L9	development of residential basic local exchange service
20	<pre>competition;</pre>
21	(e) Restructuring the prices for residential basic
22	<u>local</u> telecommunications service and intrastate switched
23	network access closer to the cost of providing these services
24	should promote local and long distance competition; and
25	(f) The Florida Public Service Commission is the
26	appropriate body to determine whether intrastate switched
27	network access charges and basic local telecommunications
28	service prices will be adjusted in a manner which is revenue
29	neutral to the local exchange telecommunications company and
30	beneficial to residential consumers.
31	

1	(2) Each local exchange telecommunications company
2	with more than 1 million access lines in service may, after
3	December 1, 2002, petition the commission to reduce its
_	
4 5	intrastate switched network access rates in a revenue neutral
	manner. Any local exchange telecommunications company with 1
6 7	million or less access lines in service may, after December 1,
-	2003, petition the commission to reduce its intrastate
8	switched network access rates in a revenue neutral manner.
9	The commission shall issue its final order granting or denying
10	any petition filed pursuant to this section within 90 days.
11	The commission shall grant the petition if it finds that
12	granting the petition:
13	(a) Will result in switched network access rate
14	reductions that will be implemented during a period to be
15	determined by the commission, but such period shall not be
16	less than 2 years or more than 5 years;
17	(b) Will benefit residential consumers by reducing or
18	eliminating the subsidy to residential basic local
19	telecommunications service rates provided by intrastate
20	switched network access rates;
21	(c) Will move intrastate switched network access rates
22	to parity;
23	(d) Will create a more favorable competitive
24	environment;
25	(e) Will be revenue neutral to the local exchange
26	telecommunications company as set forth in subsection (3); and
27	(f) Will result in benefits to toll customers.
28	(3) In the event the commission grants the local
29	exchange telecommunications company's petition, the local
30	exchange telecommunications company is authorized, the
31	requirements of s. 364.051(3) notwithstanding, to immediately

18 19

20

21

3031

implement a revenue category mechanism consisting of basic local telecommunications service revenues and intrastate 2 3 switched network access revenues, to achieve revenue 4 neutrality. The local exchange telecommunications company 5 shall thereafter, on 45 days' notice, adjust the various 6 prices and rates of the services within its revenue category 7 authorized by this section once in any 12-month period in a 8 revenue neutral manner. In no event shall any adjustment in 9 rates be offset entirely by the monthly recurring rate for basic local telecommunications service. All annual rate 10 adjustments within the revenue category established pursuant 11 12 to this section shall be implemented simultaneously and shall be revenue neutral. The commission shall, within 45 days 13 14 after the rate adjustment filing, issue a final order confirming compliance with this section, and such order shall 15 16 be final for all purposes.

- (4) Any filing under this section shall be based on the company's most recent 12 months' pricing units in accordance with subsection (8) for any service included in the revenue category established under this section. The commission shall have the authority only to verify the pricing units for the purpose of ensuring that the company's specific adjustments, as authorized by this section, make the revenue category revenue neutral for each filing. Any discovery or information requests under this section shall be limited to a verification of historical pricing units necessary to fulfill the commission's specific responsibilities under this section of ensuring that the company's rate adjustments make the revenue category revenue neutral for each annual filing.
- (5) Nothing in this section shall affect the local exchange telecommunications company's exemptions pursuant to

1 s. 364.051(1)(c) or authorize any local exchange
2 telecommunications company to increase the cost of local
3 exchange services to any person providing services under s.
4 364.3375.

- (6) For purposes of this section, "parity" means that the local exchange telecommunications company's intrastate switched network access rate is equal to its interstate switched network access rate in effect on January 1, 2002, if the company has more than 4 million access lines in service. If the company has 4 million or less and more than 1 million access lines in service, "parity" means that the company's intrastate switched network access rate is equal to 2 cents per minute. If the company has 1 million or less access lines in service, "parity" means that the company's intrastate switched network access rate is equal to 8 cents per minute. Nothing in this section shall prevent the company from making further reductions in its intrastate switched network access rate, within the revenue category established in this section, below parity on a revenue-neutral basis, or from making other revenue neutral rate adjustments within this category.
- (7) For purposes of this section, "intrastate switched network access rate" means the composite of the originating and terminating network access rate for carrier common line, local channel/entrance facility, switched common transport, access tandem switching, interconnection charge, information surcharge, and local switching.
- (8) For purposes of this section, "revenue neutral"
 means that the total revenue within the revenue category
 established pursuant to this section remains the same before
 and after the local exchange telecommunications company
 implements any rate adjustments under this section.

```
Calculation of revenue received from each service prior to
    implementation of any rate adjustment shall be made by
 2
 3
    multiplying the then-current rate for each service by the most
 4
    recent 12 months' actual pricing units for each service within
 5
    the category, without any adjustments to the number of pricing
 6
    units. Calculation of revenue for each service to be received
 7
    after implementation of rate adjustments shall be made by
 8
    multiplying the rate to be applicable for each service by the
 9
    most recent 12 months' actual pricing units for each service
    within the category, without any adjustments to the number of
10
    pricing units. Billing units associated with Lifeline
11
12
    Assistance Plan service shall not be included in any
    calculation under this subsection.
13
14
           Section 4. This act shall take effect upon becoming a
15
    law.
