Florida House of Representatives - 2002 HB 615 By Representative Bilirakis

1	A bill to be entitled
2	An act relating to community health centers;
3	creating the "Community Health Center Access
4	Program Act"; providing legislative findings
5	and intent; providing for expansion of
6	federally qualified health centers to provide
7	comprehensive primary and preventive health
8	care services; providing for financial
9	assistance to centers that meet specified
10	criteria; specifying that funds must be used
11	for certain operating costs or capital
12	improvement projects; providing for appointment
13	of a panel to review applications for financial
14	assistance; providing responsibilities of the
15	Department of Health and the Florida
16	Association of Community Health Centers, Inc.;
17	providing for administration of the program and
18	technical assistance to centers selected to
19	receive financial assistance; providing an
20	effective date.
21	
22	Be It Enacted by the Legislature of the State of Florida:
23	
24	Section 1. Community health center access program
25	(1) SHORT TITLEThis section may be cited as the
26	"Community Health Center Access Program Act."
27	(2) LEGISLATIVE FINDINGS AND INTENT
28	(a) The Legislature finds that, despite significant
29	investments in health care programs, more than 2 million
30	low-income Floridians, primarily the working poor and minority
31	populations, continue to lack access to basic health care

Florida House of Representatives - 2002 715-159-02

services. Further, the Legislature recognizes that federally 1 2 qualified health centers have a proven record of providing 3 cost-effective, comprehensive primary and preventive health 4 care and are uniquely qualified to address the lack of 5 adequate health care services for the uninsured. 6 (b) It is the intent of the Legislature to recognize 7 the significance of increased federal investments in community 8 health centers and to leverage that investment through the 9 creation of a program to provide for the expansion of the primary and preventive health care services offered by 10 11 federally qualified health centers. Further, such a program 12 will support the coordination of federal, state, and local 13 resources to assist such health centers in developing an 14 expanded community-based primary care delivery system. 15 (3) ASSISTANCE TO FEDERALLY QUALIFIED HEALTH 16 CENTERS.--The Department of Health shall develop a program for the expansion of federally qualified health centers for the 17 purpose of providing comprehensive primary and preventive 18 19 health care services, including services that may reduce the 20 morbidity, mortality, and cost of care among the uninsured population of the state. The program shall provide for 21 22 distribution of financial assistance to federally qualified health centers that apply and demonstrate a need for such 23 24 assistance in order to sustain or expand the delivery of primary and preventive health care services. In selecting 25 26 centers to receive this financial assistance, the program: 27 (a) Shall give preference to communities that have few 28 or no community-based primary care services or in which the 29 current services are unable to meet the community's needs. 30 31
