Representative(s) Paul offered the following:

Amendment

On page 1231, lines 9-17

remove: all of said lines

and insert:

3. Total potential funds per FTE for each district shall be calculated by dividing the total potential funds, not including prior year adjustments, for each district by its FTE student count;

4. A state average total potential funds per FTE shall be calculated by dividing the total potential funds, not including prior year adjustments, for all districts by the state total FTE student count;

5. For districts that have a levy value per FTE as calculated in subparagraph 1. higher than the state average calculated in subparagraph 2., a sparsity wealth adjustment shall be calculated as the product of the difference between the state average levy value per FTE calculated in subparagraph 2. and the district's levy value per FTE

hbd-38

Amendment No. ____ (for drafter's use only)

1 calculated in subparagraph 1. and the district's FTE student
2 count and -1;

3 6. However, no district shall have a wealth adjustment
4 which, when applied to the total potential funds in
5 subparagraph 3., would cause the district's total potential
6 funds per FTE to be less than the statewide average in
7 subparagraph 4.;

8 7. Each district's sparsity supplement allocation
