B. EFFECT OF PROPOSED CHANGES:

Background

The Florida Keys Aqueduct Authority (FKAA) is an independent special district, first created in 1937, and recreated in ch. 76-441, L.O.F. The FKAA is the sole provider of potable water for all of the residents of the Florida Keys and presently serves 42,237 customers within Monroe County. Potable water is transported to the Keys through a 130 mile transmission pipeline with an additional 649 miles of distribution pipelines which deliver water to the customer's property.¹ The FKAA also operates wastewater treatment plants serving parts of the Keys. The five member board is appointed by the Governor.

The Administrative Procedure Act, ch. 120, F.S. (the "APA"), is applicable to state executive branch agencies and departments, regional planning agencies, and multicounty special districts in which a majority of the governing board consists of nonelected persons. See s. 120.52(1), F.S. The APA is only applicable to other entities, such as the FKAA, if provision is made for applicability of the APA in general or special law applicable to the district. Sections 9 and 10 of the current charter for the FKAA require the FKAA to comply with the APA. Typically, single-county districts like the FKAA are not required to comply with the APA.

Effect of Bill

This bill amends the charter of the Florida Keys Aqueduct Authority (FKAA) to remove the requirement that the FKAA comply with the Administrative Procedure Act, ch. 120, F.S. The charter is further amended to require public hearing before any fee increase.

C. SECTION DIRECTORY:

Section 1 amends the charter of the Florida Keys Aqueduct Authority to provide that the district is not subject to ch. 120, F.S.

Section 2 provides an effective date of upon becoming law.
