SUMMARY ANALYSIS

HB 1747 changes the nomenclature referring to "vocational-technical" terms in current law to "career." The term "career" more accurately describes the professional education and training involved in preparing students to enter the workforce today. In addition, the bill also changes nomenclature referring to "workforce development education" to "workforce education" to alleviate some confusion to another workforce development program.

This bill becomes effective July 1, 2003.

Information regarding the fiscal impact was not available at the time the bill analysis was prepared; however, the fiscal impact appears to be insignificant.

This document does not reflect the intent or official position of the bill sponsor or House of Representatives.

B. EFFECT OF PROPOSED CHANGES:

Historically, terms such as “vocational and technical” have been used to describe educational paths for students who do not plan to attend a college or university. These terms do not reflect the skills and professionalism required of persons entering the workforce today.

This bill changes references to “vocational and technical” education in current law in the following ways:

- “Vocational and technical programs” are changed to “career programs.”
- “Vocational-technical certificates” are changed to “career certificates.”
- “Vocational-technical schools” are changed to “career institutes.”
- “Vocational-technical training” is changed to “career training.”
- “Area technical centers” are changed to “career institutes.”
- “Technical institutes and vocational schools” are changed to “career institutes.”
- “Vocational-technical facilities” are changed to “career institute facilities.”
- “Vocational-technical centers” are changed to “career institutes.”
- “Vocational-directed” is changed to “career-directed.”
- “Vocational education” is changed to “career education.”
- “Technical centers” are changed to “career centers.”
- “Vocational schools” are changed to “career institutes.”
- “Vocational work-related programs” are changed to “career-related programs.”
- “Vocational-preparatory” is changed to “career-preparatory.”
- “Technical credit” is changed to “career credit.”

This change in nomenclature more accurately describes the professional preparation of these programs.
