SUMMARY ANALYSIS

In an effort to ensure the safety of Florida's food supply in the aftermath of 9-11 and the Mad Cow disease outbreak in Europe, the Commissioner of Agriculture established a Food Safety Task Force. The Task Force is composed of representatives from every facet of the food industry: production, processing, distribution, sales, consumers, food industry groups, experts in food safety, agencies charged with food safety responsibilities, and legislative representatives. The purpose of the Task Force is to provide a forum for presenting, investigating, and evaluating issues of current importance in food safety.

HB 339 transforms this "ad-hoc" task force into a permanent advisory council (Florida Food Safety and Food Security Advisory Council) under the Department of Agriculture and Consumer Services (department). All members of the Council, with the exception of the Secretaries of the Department of Health and the Department of Business and Professional Regulation and the legislative representatives, are appointed by the Commissioner of Agriculture. The Council will periodically report findings and recommendations to the department. In performing its duties, the Council members may receive confidential data exempt from the provisions of s. 119.07(1), F.S., for review; it is unlawful for any member of the Council to use the data for his/her advantage or reveal the data to the general public.

Recurring appropriations of \$5,000 each are provided from the department's Contracts and Grants Trust Fund and General Inspection Trust Fund. These funds are for use in payment of costs associated with conducting the business of the Council.

This document does not reflect the intent or official position of the bill sponsor or House of Representatives.

B. EFFECT OF PROPOSED CHANGES:

In an effort to ensure the safety of Florida's food supply in the aftermath of 9-11 and the Mad Cow disease outbreak in Europe, the Commissioner of Agriculture established a Food Safety Task Force. The Task Force is composed of representatives from every facet of the food industry: production, processing, distribution, sales, consumers, food industry groups, experts in food safety, agencies charged with food safety responsibilities, and legislative representatives. The purpose of the Task Force is to provide a forum for presenting, investigating, and evaluating issues of current importance in food safety.

HB 339 transforms this "ad-hoc" task force into a permanent advisory council (Florida Food Safety and Food Security Advisory Council) under the Department of Agriculture and Consumer Services (department). All members of the Council, with the exception of the Secretaries of the Department of Health and the Department of Business and Professional Regulation and the legislative representatives, are appointed by the Commissioner of Agriculture. The Council will periodically report findings and recommendations to the department. In performing its duties, the Council members may receive confidential data exempt from the provisions of s. 119.07(1), F.S., for review; it is unlawful for any member of the Council to use the data for his/her advantage or reveal the data to the general public.

The effective date of this legislation is July 1, 2003.
