Other Comments

The Economic Impact Statement states that the bill will allow for greater employee choices regarding pension options and improves the attractiveness of the City's plan as an employee benefit, thereby enhancing the city's ability to attract and retain employees in the post-9/11 employment environment. A stated disadvantage of the bill is that it could result in slightly earlier retirement patterns.<sup>1</sup>

The bill has been reviewed by the Bureau of Local Retirement, Department of Management Services who opine that the bill satisfies the requirements of s. 14, art. X of the State Constitution and the provisions of chapter 112, F.S.<sup>2</sup> Their fiscal note states:

The December 3, 2002, actuarial impact statement determined an annual cost to the members of 2.74% of payroll (approximately \$899,000 in 2001/2002 dollars) for the fractional years of service credits, benefit increase to 70% from 60% and the BACKDROP option. The annual cost to the city for the re-employment of retired police officers is 0.07% of payroll (approximately \$46,000 in 2001/2002 dollars). (This is the cost for one retired police officer.)
