Representative Ambler offered the following:

**Amendment (with title amendment)**

Remove line(s) 2266-2277, and insert:

Section 47. Section 1004.085, Florida Statutes, is created to read:

1004.085 Informed consent standardization project.--Every public school, college, and university that offers degrees in medicine, nursing, and allied health shall work with the Agency for Health Care Administration to develop bilingual, multimedia methods for communicating the risks of treatment options for medical procedures. Such materials shall be provided to patients and their families in an effort to educate them and to obtain the informed consent to prescribe a treatment procedure. The agency shall develop a list of treatment procedures based on significance of risk and frequency of performance.

Amendment No. (for drafter's use only)

27 Section 48. Section 1005.07, Florida Statutes, is created  
28 to read:

29 1005.07 Patient safety instructional requirements.--Every  
30 nonpublic school, college, and university that offers degrees in  
31 medicine, nursing, and allied health shall include in the  
32 curricula applicable to such degrees material on patient safety,  
33 including patient safety improvement. Materials shall include,  
34 but need not be limited to, effective communication and  
35 teamwork; epidemiology of patient injuries and medical errors;  
36 vigilance, attention, and fatigue; checklists and inspections;  
37 automation and technological and computer support; psychological  
38 factors in human error; and reporting systems.

39 Section 49. Section 1005.075, Florida Statutes, is created  
40 to read:

41 1005.075 Informed consent standardization project.--Every  
42 nonpublic school, college, and university that offers degrees in  
43 medicine, nursing, and allied health shall work with the Agency  
44 for Health Care Administration to develop bilingual, multimedia  
45 methods for communicating the risks of treatment options for  
46 medical procedures. Such materials shall be provided to patients  
47 and their families in an effort to educate them and to obtain  
48 the informed consent to prescribe a treatment procedure. The  
49 agency shall develop a list of treatment procedures based on  
50 significance of risk and frequency of performance.
