Representative Richardson offered the following:

Amendment

Between lines 222 and 223, insert:

(i) Shall establish a collaborative research consortium with the state's historically Black colleges and universities to, among other things, fund joint research initiatives in areas such as hypertension, sickle-cell anemia, and diabetes; provide student learning and research opportunities; establish joint degree programs; establish a faculty exchange program; enhance science education and technology programs; and enhance other initiatives to be collaboratively agreed upon.
