1	381.03015 Florida Health Care Practitioner Workforce
2	Database
3	(1) LEGISLATIVE FINDINGS AND INTENT
4	(a) The Legislature finds that the state health
5	policies designed to expand patient access and improve the
6	quality of health care delivery must take into consideration
7	the supply, distribution, diversity, academic preparation, and
8	utilization of the state's health care workforce. The
9	Legislature further finds that the absence of accurate,
10	objective, relevant, and timely data concerning the health
11	care workforce in this state is a barrier to developing and
12	implementing optimal programmatic and fiscal policies relating
13	to the education and training of health care practitioners and
14	the delivery of health care services.
15	(b) In order to eliminate these barriers, it is the
16	intent of the Legislature to create the Florida Health Care
17	Practitioner Workforce Database within the Department of
18	Health. The database shall provide the capacity for the
19	collection, compilation, maintenance, and analysis of data
20	concerning the state's health care workforce. It is further
21	the intent of the Legislature that the workforce database
22	serve as the official state repository of data that can be
23	used by the Legislature, the Executive Office of the Governor,
24	state agencies, and state, regional, and local entities
25	involved in planning, analysis, and policy development for the
26	health care workforce and in the delivery of health care
27	services.
28	(2) DEFINITIONSAs used in this section, the term:
29	(a) "Department" means the Department of Health.
30	(b) "Health care practitioner" has the same meaning as
31	provided in s. 456.001.

2

1	(3) FLORIDA HEALTH CARE PRACTITIONER WORKFORCE
2	DATABASE
3	(a) The Florida Health Care Practitioner Workforce
4	Database is the electronic repository of data elements for
5	each health care profession identified by the department for
6	inclusion in the database. Data elements shall be maintained
7	for as many years as necessary to allow for an analysis of
8	longitudinal trends. To the maximum extent feasible, data
9	elements must be collected and maintained using standardized
10	definitions in order to allow for multistate or national
11	comparisons of this state's data.
12	(b) The workforce database may be implemented in
13	phases; however, the highest priority must be given to
14	including the data elements for allopathic and osteopathic
15	physicians in the database. Inclusion of data elements for
16	other health care practitioners may be accomplished in
17	subsequent phases, as resources allow with priority given to
18	the inclusion of health care practitioners who are subject to
19	the practitioner profiling system under s. 456.041. The
20	department shall develop an implementation plan that
21	recommends the priority order in which other health care
22	practitioners may be added to the database, identifies the
23	data elements to be collected for each group of health care
24	practitioners, and provides an estimate of the cost associated
25	with the addition of each group of health care practitioners
26	to the database. The data elements collected for nurses shall
27	be identified by the department, based upon recommendations
28	made by the Florida Center for Nursing. The implementation
29	plan shall also provide an analysis of technical issues and an
30	estimate of the costs associated with collecting the following
31	data elements for allopathic and osteopathic physicians

3

1 through the licensing processes of the Board of Medicine and the Board of Osteopathic Medicine under s. 456.039, or through 2 3 the profiling process for health care practitioners under s. 456.041: 4 5 The physician's secondary practice location, if 1. б any, including the street address, municipality, county, and 7 zip code. 8 2. The approximate number of hours per week spent in 9 each practice location. 10 3. Each practice setting, by major category of 11 practice setting, including, but not limited to, office-based practice, hospital-based practice, nursing home, health 12 maintenance organization, and county health department. 13 4. Whether the physician is a full-time member of a 14 15 medical school faculty. Whether the physician plans to reduce his or her 16 5. 17 practice volume by a significant percent within the effective 18 period of the currently held license. 19 The implementation plan shall be submitted to the Governor and 20 21 Legislature by December 1, 2005. The data elements for allopathic and osteopathic 22 (4) physicians shall include the following: 23 24 (a) Data elements for each allopathic and osteopathic 25 physician licensed to practice in this state: 26 1. Name. 27 2. Date of birth. 28 Place of birth. 3. 29 4. Gender. 30 5. Race. Social security number. 31 б. 4

1 7. Name of medical school. 8. Year of graduation from medical school. 2 3 9. Location of medical school. 10. Name of each graduate medical education program 4 5 completed. б 11. Year of completion of each graduate medical 7 education program. 8 12. Location of each graduate medical education 9 program completed. 10 13. Type of each graduate medical education program 11 completed, such as internship, residency, or fellowship. 14. Each medical specialty or subspecialty that the 12 13 physician practices. 15. Each medical specialty board certification held. 14 The primary practice location, including the 15 16. street address, municipality, county, and zip code for each 16 17 location. (b) Data elements for each graduate of a Florida 18 19 allopathic or osteopathic medical school: 20 1. Name. Date of birth. 21 2. 22 3. Place of birth. 23 4. Gender. 24 5. Race. 6. Social security number. 25 26 7. Name of medical school. 27 8. Year of graduation from medical school. Name and location, by state and country, of the 28 9. 29 graduate medical education program that the graduate plans to 30 enter. 31

1	10. Type of graduate medical education program, such
2	as internship or residency, which the graduate plans to enter,
3	including the identification of graduate medical education
4	programs during postgraduate year 1 and postgraduate year 2,
5	if applicable, for graduates entering preliminary or
6	transitional positions during postgraduate year 1.
7	(c) Data elements for each allopathic or osteopathic
8	physician completing a graduate medical education program in
9	this state:
10	1. Name.
11	2. Date of birth.
12	3. Place of birth.
13	4. Gender.
14	5. Race.
15	6. Social security number.
16	7. Name of medical school.
17	8. Year of graduation from medical school.
18	9. Location, by state and country, of the medical
19	school.
20	10. Name and location, by state and country, of the
21	graduate medical education program.
22	(5) REQUIRED USE OF EXISTING DATA SOURCESIt is the
23	intent of the Legislature to minimize the cost of creating and
24	operating the Florida Health Care Practitioner Workforce
25	Database and to avoid unwarranted duplication of existing
26	data. Therefore, to the maximum extent possible, the data
27	included in the workforce database shall be derived from
28	existing data sources except as provided in paragraph (6)(a).
29	New data shall be collected for inclusion in the workforce
30	database only when the department determines that such data
31	are essential for evaluating and analyzing the health care
	6

1 professions and when the data cannot be obtained from existing 2 sources. 3 (6)(a) Data elements sought to satisfy paragraph 4 (4)(a) shall be obtained from the licensing processes of the 5 Board of Medicine and the Board of Osteopathic Medicine under б s. 456.039, and from the profiling process for health care practitioners under s. 456.041. In addition to the data 7 8 collected under ss. 456.039 and 456.041, the Board of Medicine and the Board of Osteopathic Medicine shall collect the 9 10 following data from each person applying for initial licensure 11 or licensure renewal to practice medicine or osteopathic medicine as a physician after July 1, 2005, and the Department 12 of Health shall enter the data into the database used for 13 14 licensure or an equivalent database: 15 The place of the applicant's birth. 1. The state and country of the medical school from 16 2. 17 which the applicant graduated. 18 Each medical specialty or subspecialty that the 3. 19 physician practices. Each medical school in this state shall annually 20 (b) 21 submit the data elements described in paragraph (4)(b) to the department, in a manner prescribed by the department, for each 22 medical student who provides written consent to the medical 23 24 school authorizing the release of his or her data to the department. 25 (c) Each graduate medical education program in this 26 27 state shall annually submit the data elements described in 28 paragraph (4)(c) to the department, in the manner prescribed by the department, for each intern or resident who provides 29 written consent to the residency program authorizing the 30 31 release of his or her data to the department.

7

1	(7) IMPLEMENTATION
2	(a) The Secretary of Health may establish an advisory
3	committee to monitor the creation and implementation of the
4	Florida Health Care Practitioner Workforce Database.
5	(b) The department may employ or assign agency staff
6	or may contract, on a competitive-bid basis, with an
7	appropriate entity to administer the workforce database.
8	(8) RULEMAKINGThe department shall adopt rules
9	under ss. 120.536(1) and 120.54 to administer this section.
10	Section 2. This act shall not take effect unless
11	sufficient funds are allocated in a specific appropriation or
12	in the General Appropriations Act for the 2004-2005 fiscal
13	year to fund the Florida Health Care Practitioner Workforce
14	Database. The Medical Quality Assurance Trust Fund may not be
15	used to fund the administration of this act.
16	Section 3. This act shall take effect upon becoming a
17	law.
18	
19	STATEMENT OF SUBSTANTIAL CHANGES CONTAINED IN COMMITTEE SUBSTITUTE FOR
20	SB 1154
21	
22	The Committee Substitute revises the data elements for Florida-licensed allopathic and osteopathic physicians for
23	Florida-licensed allopathic and osteopathic physicians, for graduates of a Florida allopathic or osteopathic medical school, and for Florida allopathic or osteopathic physicians
24	completing a graduate medical education program in Florida that must be included in the health care workforce database
25	created by the bill. The Committee Substitute deletes requirements for the confidentiality of data that the
26	Department of Health obtains from any governmental entity, medical school, or university for the purpose of compiling the
27	workforce database or substantiating other information or records submitted for that purpose.
28	records submitted for that purpose.
