17       (3) The plan may also require all school districts to  
18 ensure that, by the summer of 2006, there is a summer food site

22       (4) The department shall use the October school indicator

25 the criteria set forth in subsections (2) and (3). The  
26 department shall provide such information to each superintendent

31 the Summer Food Service Program. Although schools have proven to  
32 be the optimal sites for a summer food program, any nonprofit  
33 organization may serve as a site or sponsor. By May 15 of each  
34 year, each school district shall report to the department the  
35 district's summer food sites in compliance with this act.

36       (6) The department shall provide to each school district  
37 by February 15 of each year a list of local organizations that  
38 have filed letters of intent to participate, so that the school  
39 districts can determine adequate coverage of need and placement  
40 of sites.
