Senator Saunders moved the following amendment:

Senate Amendment

On page 5, line 5, delete that line

and insert: reputation of the person or entity. The Legislature finds that it is a public necessity that information that identifies the health care practitioner or health care facility identified in the patient safety data reported to the Florida Patient Safety Corporation and its subsidiaries, advisory committees, or contractors be protected because health care practitioners and health care facilities would be unlikely to voluntarily submit patient safety data if their identity were made public and such information could be defamatory to the person or entity or could cause unwarranted damage to the name or reputation of the person or entity. The Legislature also finds
