1	A bill to be entitled
2	An act relating to arthritis prevention and
3	education; creating s. 385.210, F.S.; providing
4	a short title; providing legislative findings;
5	providing purposes; directing the Department of
6	Health to establish an arthritis prevention and
7	education program; requiring the department to
8	conduct a needs assessment; providing for
9	establishment of a statewide partnership on
10	arthritis; providing for implementation of a
11	public awareness effort; providing for funding
12	through contributions; directing the Secretary
13	of Health to seek federal waivers as necessary
14	to maximize federal funding; providing an
15	effective date.
16	
17	Be It Enacted by the Legislature of the State of Florida:
18	
19	Section 1. Section 385.210, Florida Statutes, is
20	created to read:
21	385.210 Arthritis prevention and education
22	(1) SHORT TITLEThis act may be cited as the
23	"Arthritis Prevention and Education Act."
24	(2) LEGISLATIVE FINDINGS The Legislature finds the
25	<u>following:</u>
26	(a) Arthritis encompasses more than 100 diseases and
27	conditions that affect joints, the surrounding tissues, and
28	other connective tissues.
29	(b) Arthritis is the leading cause of disability in
30	the United States, limiting daily activities for more than 7
31	<u>million citizens.</u>

1	<u>(c) This disease has a significant impact on quality</u>
2	of life, not only for the individual who experiences its
3	painful symptoms and resulting disability, but also for family
4	members and caregivers.
5	(d) There are enormous economic and social costs
б	associated with treating arthritis and its complications; the
7	economic costs are estimated at over \$116 billion (1997)
8	annually in the United States.
9	(e) Currently, the challenge exists to ensure delivery
10	of effective, but often underutilized, interventions that are
11	necessary in the prevention or reduction of arthritis-related
12	pain and disability.
13	(f) Although there exists a large quantity of public
14	information about arthritis, including programs that can
15	dramatically affect early diagnosis and treatment as well as
16	the quality of life of people with arthritis, such information
17	remains inadequately disseminated and insufficient in
18	addressing the needs of specific diverse populations and other
19	underserved groups.
20	(q) The National Arthritis Foundation, the Centers for
21	Disease Control and Prevention, and the Association of State
22	and Territorial Health Officials have led the development of a
23	public health strategy, the National Arthritis Action Plan, to
24	respond to this challenge.
25	(h) Educating the public and the health care community
26	throughout the state about this devastating disease is of
27	paramount importance and is in every respect in the public
28	interest and to the benefit of all residents of the state.
29	(3) PURPOSESThe purposes of this section are to:
30	(a) Create and foster a statewide program that
31	promotes public awareness and increases knowledge concerning

1	the causes of arthritis, the importance of early diagnosis and
2	appropriate management, effective prevention strategies, and
3	pain prevention and management.
4	(b) Develop knowledge and enhance understanding of
5	arthritis by disseminating educational materials and
б	information on research results, services provided, and
7	strategies for prevention and education to patients, health
8	professionals, and the public.
9	<u>(c) Establish a solid scientific base of knowledge</u>
10	concerning the prevention of arthritis and related
11	disabilities through surveillance, epidemiology, and
12	prevention research.
13	(d) Use educational and training resources and
14	services developed by organizations with appropriate expertise
15	and knowledge of arthritis and to use available technical
16	assistance.
17	(e) Evaluate the need for improving the quality and
18	accessibility of existing community-based arthritis services.
19	(f) Heighten awareness among state and local health
20	and human services officials, health professionals and
21	providers, and policymakers about the prevention, detection,
22	and treatment of arthritis.
23	(q) Implement and coordinate state and local programs
24	and services to reduce the public health burden of arthritis.
25	(h) Provide lasting improvements in the delivery of
26	health care for individuals with arthritis and their families,
27	thus improving their quality of life while also containing
28	health care costs.
29	(4) ARTHRITIS PREVENTION AND EDUCATION PROGRAM
30	(a) Program establishmentTo the extent that funds
31	are specifically made available for this purpose, the

First Engrossed

SB 1450

arthritis prevention and education program to raise publicawareness, educate consumers, and educate and train healthprofessionals, teachers, and human services providers, and forother purposes as provided in this section.(b) Needs assessmentThe department shall conduct aneeds assessment to identify:11peine conducted within the state.102.
