Funds provided in Specific Appropriation 73 shall be allocated using a base student allocation of \$3,739.54 for the FEFP.

From the funds in Specific Appropriation 73, charter schools shall be provided an allocation pursuant to section 1002.33(17), Florida Statutes. However, for those charter schools that were in operation prior to July 1, 1999, funds per student shall be no less than they received in 1998-99.

From the funds provided in Specific Appropriation 73, all juvenile justice students in juvenile justice educational programs shall receive no less than the funds per student in 1998-1999.

A minimum guaranteed level of funding shall be calculated to provide each school district a 1.0 percent increase per unweighted full-time equivalent K-12 student over the amount per unweighted full-time equivalent K-12 student funded in the 2004-2005 FEFP. The calculation of this minimum funding shall compare total state and local formula and categorical funds for K-12 programs, discretionary lottery, and actual discretionary local revenue for 2004-2005 with total state and local formula and categorical funds for K-12 programs, discretionary lottery, and maximum potential discretionary local revenue for 2005-2006. Funds for the School Recognition Program shall not be included in the calculation of the Minimum Guarantee.

The district cost differential (DCD) for each district shall be calculated pursuant to the provisions of section 1011.62(2), Florida Statutes. If the funding in Specific Appropriation 79A for District Cost Differential Transition Supplement becomes law, the calculation of the DCD shall incorporate the School Personnel Florida Price Level Index (FPLI) for 2003 and 2004. In the event Specific Appropriation 79A, District Cost Differential Transition Supplement, fails to become law, the Pecuniary FPLI for 2003 and 2004 shall be incorporated in the calculation of the DCD.

District school boards that levy the entire additional 0.25 mills and raise less than \$100 per K-12 FTE shall receive, from the funds provided in Specific Appropriation 73, an amount that, combined with funds raised by the 0.25 mills, will provide \$100 per K-12 FTE. PROGRAM: EDUCATIONAL AND GENERAL ACTIVITIES

Funds in Specific Appropriations 10 through 14A and 144A through 154 are provided as grants and aids to support the operation of state universities. Funds provided to each university are contingent upon that university following the provisions of Chapters 1000 through 1013, Florida Statutes, which relate to state universities. Any withholding of funds pursuant to this provision shall be subject to the approval of the Legislative Budget Commission.

State universities and state university direct support organizations shall not pledge or use any revenues provided in Specific Appropriations 10 through 14A and Specific Appropriations 146 through 153 from state General Revenue operating appropriations, state trust fund operating appropriations, or tuition for the financing of any fixed capital outlay project through any financing mechanism, including, but not limited to, revenue bonds, promissory notes, certificates of participation, lease-purchase agreements or any other form of indebtedness.

The appropriations provided in Specific Appropriations 146, 148, 149, and 151 from the Education and General Student and Other Fees Trust Fund are the only budget authority provided in this act for the 2005-2006 fiscal year to the named universities to expend tuition and fees that are collected during the 2005-2006 fiscal year and carried forward from the prior fiscal year and that are appropriated into local accounts pursuant to section 1011.4106, Florida Statutes. The expenditure of tuition and fee revenues from local accounts by each university shall not exceed the authority provided by these specific appropriations, unless approved pursuant to the provisions of chapter 216, Florida Statutes. If a court of competent jurisdiction finds that the restriction above is invalid, the appropriation made by section 1011.4106, Florida Statutes, is hereby repealed for the 2005-2006 fiscal year and the monies described in that section shall be deposited in the state treasury for expenditure only pursuant to appropriations made by

However, the funds appropriated to a specific university shall not be affected by the failure of another university to comply with this provision.

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

Total..... 625

From the funds provided in Specific Appropriation 146, each university may shift enrollment by level in a manner which is revenue neutral, but shall not increase the number of lower level FTEs.

The Chancellor of the Division of Colleges and Universities shall submit a revised 5-year state university enrollment plan by lower, upper, graduate I and graduate II levels, by university, to the Florida Board of Governors by September 1, 2005. This revised 5-year enrollment plan must be developed with input from each state university. The State Board of Education shall include funding recommendations in its Fiscal Year 2006-2007 Legislative Budget Request to implement the revised 5-year state university enrollment plan.

The enrollment policy adopted by the Legislature does not limit the number of students admitted from out-of-state under the profile admissions policy; however, no state university may receive general revenue funding associated with the enrollment of out-of-state students admitted under this policy. For the purposes of implementing this policy, the Chancellor shall segregate these FTEs and not count them toward the 2005-2006 enrollment plan for the State University System.

The resident tuition per credit hour is hereby established for the 2005-2006 fiscal year as follows:

	2005	2005-2006
	Summer Term	Fall/Spring Terms
Lower Level Coursework	\$ 68.16	\$ 73.27
Upper Level Coursework	\$ 68.16	\$ 73.27

Each university board of trustees shall increase their resident tuition for all other levels by 7.5 percent and nonresident tuition by 7.5 percent. Each university board of trustees is authorized to further increase resident tuition for all other levels and nonresident tuition.

Each university board of trustees is authorized to waive tuition for purposes which support and enhance the mission of the university. All fee waivers must be based on policies which are adopted by university boards of trustees. Each university shall report the purpose, number, and value of all fee waivers granted annually in a format which shall be prescribed and reviewed by the Florida Board of Governors.

Funds provided in Specific Appropriation 146 for the University of Florida include no more than that amount which the State Board of Education and the City of Gainesville agree represents the cost of service for water provided by the city to the University of Florida. The amount charged shall reflect a cost-based rate only and shall be determined through a cost of service study completed annually by the city and reviewed by the university. The costs of any General Fund transfer to the City of Gainesville from Gainesville Regional Utilities or any profit to the city or utility shall be specifically excluded as costs allocable to the university. The cost-based rate shall include charges for only those water services actually provided by the city to the university and shall not include charges for services furnished by the university.

In order to provide New College and USF Sarasota/Manatee with sufficient up-front operating capital to support shared services functions and to eliminate the significant current accounting inefficiencies, a total of \$5,000,000 from the funds in Specific Appropriation 146 shall be released in equal amounts to New College and USF/USF Sarasota-Manatee as part of the first cash distribution in the fiscal year. The remaining appropriated funds for these two institutions shall be distributed in accordance with normal release protocol, beginning with the first cash distribution in the fiscal year. New College and USF/USF Sarasota-Manatee are authorized to make lump sum budget transfers between the two institutions, as appropriate, to facilitate management of shared services.

These payments may be used, in collaboration with the Department of Health, to provide funding for hospitals supporting primary care services in medically underserved areas.

The agency may make special Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis, subject to the availability of state, local and federal funds.

From the funds in Specific Appropriation 190, \$46,846,800 from the Medical Care Trust Fund is provided to the Agency for Health Care Administration to fund services for children in Statewide Inpatient Psychiatric Program. The program shall be designed to permit limits on services, prior authorization of services, and selective provider enrollment. From the funds in Specific Appropriation 194, \$18,930,023 from the Grants and Donations Trust Fund and \$27,128,426 from the Medical Care Trust Fund are provided to increase the outpatient cap for adults from \$1,000 to \$1,500 per year and to eliminate the outpatient reimbursement ceilings for teaching, specialty, Community Health Education Program hospitals and Level III Neonatal Intensive Care Units that have a minimum of three of the following designated tertiary services as regulated under the certificate of need program: pediatric bone marrow transplantation, pediatric open heart surgery, pediatric cardiac catheterization and pediatric heart transplantation.

From the funds in Specific Appropriation 194, \$3,778,912 from the Grants and Donations Trust Fund and \$5,415,522 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals whose charity care and Medicaid days as a percentage of total adjusted hospital days equals or exceeds 11 percent. The agency shall use the average of the 1998, 1999 and 2000 audited Disproportionate Share Hospital (DSH) data available as of March 1, 2004. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency will use the average of the audited DSH data for 1998, 1999 and 2000 that are available.

From the funds in Specific Appropriation 194, \$316,434 from the Grants and Donations Trust Fund and \$453,479 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals whose Medicaid days, as a percentage of total hospital days, exceed 9.6 percent, and are trauma centers. The agency shall use the average of the 1998, 1999 and 2000 audited DSH data available as of March 1, 2004. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency will use the average of the audited DSH data for 1998, 1999 and 2000 that are

available.

From the funds in Specific Appropriation 194, \$3,445,619 from the Grants and Donations Trust Fund and \$4,937,881 from the Medical Care Trust Fund are available for special Medicaid payments to rural hospitals under a Medicaid outpatient upper payment limit program. These payments are contingent on the agency obtaining approval from the Centers for Medicare and Medicaid Services of a Medicaid outpatient upper payment limit program. If the Medicaid outpatient upper payment limit program is approved, these payments will replace the special Medicaid payments paid to rural hospitals provided in Specific Appropriation 190.

Funds provided in Specific Appropriation 194 are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. The agency shall submit a revised hospital outpatient reimbursement plan to the Legislative Budget Commission for approval if the state share is not available to fund the removal of hospital outpatient ceilings or if the Centers for Medicare and Medicaid Services does not approve amendments to the Medicaid Hospital Outpatient Reimbursement Plan to eliminate the reimbursement ceilings for certain hospitals.

Funds in Specific Appropriation 194 reflect a reduction of \$8,485,705 from the General Revenue Fund, \$12,159,540 from the Medical Care Trust Fund and \$56,407 from the Refugee Assistance Trust Fund as a result of reducing the per diem increase for hospital rates. The agency shall implement changes to the methodology in the Title XIX Outpatient Hospital Reimbursement Plan which may include, but are not limited to, the inflation factor, variable cost target, county rate ceiling or county ceiling target rate to effect this reduction in the reimbursement methodology.

From the funds in Specific Appropriation 194, \$6,165,000 from the Grants and Donations Trust Fund and \$8,835,000 from the Medical Care Trust Fund are appropriated so that the agency may amend its current rules and/or contracts regarding the billing of Medicaid outpatient clinic facility fees and physician services to allow for payments to public hospitals for the cost of providing health care services to Medicaid recipients, where the public hospital assumed the fiscal and operating responsibilities for one or more primary care centers previously operated by the Florida Department of Health or the local county government. Any payments made to public hospitals because of this change will be contingent on the state share being provided through grants and donations from counties, local governments, districts or taxing authorities.

From the funds in Specific Appropriation 248, \$11,353,631 for the HomeSafenet Project is contingent upon the reversion of funds appropriated in Section 10 of Chapter 2004-268, Laws of Florida, which were originally appropriated in Specific Appropriation 248 in Chapter 2003-397, Laws of Florida.

Prior to the initial release of any funds in Specific Appropriation 248 provided for the HomeSafenet Project, the Department of Children and Family Services shall prepare and submit to the Executive Office of the Governor and the chairs of the Senate Ways and Means Committee and the House Fiscal Council a chart and description of the fully operational management structure and organization for the HomeSafenet project, which includes the acquisition of external quality assurance assistance for testing and procurement of the system integrator. PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

Funds provided in Specific Appropriations 676, 688, and 698 shall be used to meet any obligations or payments to private prisons pursuant to the requirements of the operation and management services contracts and lease-purchase agreements. Any surplus funds in these categories that result from delays in starting the 1,086 new private prison beds authorized by the 2003-2004 General Appropriations Act may be transferred as necessary to allow the department to hire staff and pay other expenses associated with the increased workload to the department resulting from any delays. The department shall not make any other transfer of funds from these appropriations categories.

Funds in Specific Appropriations 666 through 761 and Specific Appropriations 781 through 794 include an increase of 343 FTEs and \$23,242,751 from the General Revenue Fund which is sufficient to provide housing and security for 88,997 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 86,615 inmates.

The department and each participating court shall agree on a protocol to identify youth appropriate for diversion into the pilot project.

From the funds in Specific Appropriations 2273, 2275, 2276, and 2278, \$372,383 and eight positions are to be held in reserve pending certification of need by the Department of Business and Professional Regulation. The department shall submit reports on a quarterly basis to the Executive Office of the Governor, the chairs of the Senate Ways and Means Committee and House Fiscal Council, the Senate Regulated Industry Committee, the House Business Regulation Committee, and the Office of Program Policy Analysis and Government Accountability related to its responsibilities defined in section 718.501, Florida Statutes. The quarterly report shall include, but not be limited to the following data: the number of training programs provided for condominium association board members and unit owners; the number of complaints received by type; the number and percent of complaints acknowledged in writing within 30 days as required by section 718.501(1)(m), Florida Statutes; the number and percent of investigations acted upon within 90 days as required by section 718.501(1)(m), Florida Statutes; and the number of investigations that are continuing in excess of the 90-day requirement with reasons that cases required more than 90 days to close.

The department shall monitor caseloads, timeliness of responses to complaints and investigations and prepare an analysis of the resources and staffing required by the Division of Land Sales, Condominiums and Mobile Homes to maintain compliance with the requirements of section 718.501, Florida Statutes. In addition, the department shall evaluate core business processes associated with the complaint handling, in order to determine improvements in response time and efficiencies in the complaint review process.

In addition, the department shall evaluate non-jurisdictional complaints to determine if any categories of complaints warrant statutory changes providing additional authority for resolution. The department shall include any recommendations for making such statutory changes in its quarterly reports.

If the department determines that the workload justifies additional staffing, it shall request, through the Executive Office of the Governor, pursuant to section 216.181, Florida Statutes, authorization to release justified positions, associated salary rate, and appropriated funds.

	FROM GENERAL REVENUE FUND		774,334

Funds in Specific Appropriation 2999 are provided as contingency funds to the Judicial Branch to ensure the availability of due process services to indigent criminal defendants and other indigent parties who have a constitutional or specific statutory right to such services, and that adequate funds are available to pay juror and witness costs which are the responsibility of the state courts. In the event that there are unforeseen shortfalls in any appropriations provided for due process services as described herein, access and use of these contingency funds are subject to the authority, procedures and reporting requirements established in sections 29.016 and 29.0095, Florida Statutes.

Upon certification by the Office of State Courts Administrator that sufficient surplus funds are available that will not be needed by the courts, funds in Specific Appropriation 2999 may be transferred to the Justice Administrative Commission to address shortfalls for due process costs, including court appointed counsel, if the contingency fund provided in the Justice Administrative Commission is insufficient to cover all unanticipated shortfalls.

The positions authorized in Specific Appropriation 2999 shall be held in reserve as a contingency in the event the state courts determine that some portion of Article V due process services need to be shifted from a contractual basis to an employee model in one or more judicial circuits. The Chief Justice of the Supreme Court may request transfer of these positions to salary and benefits appropriation categories within any of the state courts budget entities, consistent with requests for transfers of funds into those same categories. Such transfers are subject to the notice, review, and objection provisions of section 216.177, Florida Statutes.
