The Committee on Environmental Preservation (Dockery)
recommended the following amendment:

Senate Amendment (with title amendment)

On page 2, between lines 24 and 25,

insert: (h) For the purposes of this subsection,
construction and demolition materials shall be weighed at the
materials recovery facility prior to any unloading or
processing. Any materials that are transported from such
materials recovery facility must be weighed prior to
transport. The owner or operator of a materials recovery
facility that accepts or processes construction and demolition
materials shall, upon the request of a local government,
provide the following documentation for any solid waste
generated or transported from the facility:

1. The amount and type of construction and demolition
materials handled at the facility;

2. The amount of materials being disposed of and the
disposal site location; or

3. The name of the person with whom such disposal was
