The Committee on Governmental Oversight and Productivity
(Alexander) recommended the following **amendment to amendment**
(550866):

Senate Amendment

On page 39, lines 8 through 24, delete those lines

and insert:

(a) Within 6 months following approval or amendment of
its regional water supply plan, each water management district
shall notify by certified mail the entities identified in
sub-subparagraph (2)(a)3.d., of that portion of the plan
relevant to such entity. Upon request of such an entity, the
water management district shall appear before and present its
findings and recommendations to the entity.

(b) Within 1 year after the notification by a water
management district pursuant to paragraph (7)(a), each entity
identified in sub-subparagraph (2)(a)3.d., shall provide
written notification to the water management district of the
following: the water supply projects that it has developed or
intends to develop, if any; an estimate of the quantity of

Bill No. CS for SB 444

1 water to be produced by each project; the status of project
2 implementation, including development of the financial plan,
3 facilities master planning, permitting, and efforts in
4 coordinating multi-jurisdictional projects, if applicable.
5 The information provided in the notification shall be updated
6 on an annual basis and a progress report shall be provided by
7 November 15 of each year to the water management district. If
8 an entity does not intend to develop one of the alternative
9 water supply project options identified in the regional water
10 supply plan, the entity shall propose, within one year of
11 notification by a water management district pursuant to
12 paragraph (7)(a), another alternative water supply project
13 option sufficient to address the needs identified in s.
14 373.0361(2)(a) within the entity's jurisdiction and shall
15 provide an estimate of the quantity of water to be produced by
16 said project and the status of project implementation as
17 described in this paragraph. The entity may request that the
18 water management district consider the other project for
19 inclusion in the regional water supply plan.
