The Committee on Health Care (Saunders) recommended the following amendment:

Senate Amendment (with title amendment)

Section 1. Section 381.028, Florida Statutes, is created to read:

381.028 Adverse medical incidents.--

(1) SHORT TITLE.--This section may be cited as the "Patients' Right-to-Know About Adverse Medical Incidents Act."

(2) PURPOSE.--It is the purpose of this act to implement s. 25, Art. X of the State Constitution. The Legislature finds that this section of the State Constitution is intended to grant patient access to records of adverse medical incidents, which records were made or received in the course of business by a health care facility or provider, and not to repeal or otherwise modify existing laws governing the use of these records and the information contained therein.

The Legislature further finds that all existing laws extending

 16 incidents that are required by state or federal law to be
 17 reported to any governmental agency or body, incidents that
 18 are reported to any governmental agency or body, and incidents
 19 that are reported to or reviewed by any health care facility

 22 committee.

 28 representative of the patient, provided that current records
 29 that have been made publicly available by publication or on
