(2) For purposes of implementing s. 26, Art. X of the State Constitution, the board may not license or continue to license a medical doctor found to have committed repeated medical malpractice. When reviewing the final judgment of a court of law in order to find repeated medical malpractice to determine whether a license must be denied or revoked under this section, the board must determine by clear and convincing evidence that a final judgment of a court of law has been entered against a medical doctor. If any of the incidents occurred outside this state, they may not be considered as incidents of medical malpractice unless the board determines by clear and convincing evidence that the incidents would have been considered medical malpractice if committed in this state.
