The Committee on Environmental Preservation (Baker)
recommended the following **amendment to amendment** (934324):

Senate Amendment

On page 3, lines 15 through 18 after the period delete
those lines

and insert: Nothing in this section shall prohibit a local
government that has adopted a stricter concurrency management
system prior to the enactment of Ch. 2005-290, Laws of
Florida, that provides for a shorter time frame than three
years from retaining this concurrency management system and
requirements, wherein a local government need not issue a
building permit or its functional equivalent under any
circumstances that results in traffic generation until
adequate transportation facilities are in place pursuant to
this adopted concurrency management system.
