HB 1451, Engrossed 1

2006 Legislature

28 | on October 2, 2011, unless reviewed and saved from repeal
29 | through reenactment by the Legislature.

30 | Section 2. The Legislature finds that it is a public
31 | necessity that an individual's medical record held by the brain
32 | tumor registry developed pursuant to s. 381.853(3), Florida
33 | Statutes, be made confidential and exempt from public records
34 | requirements. Matters of personal health are traditionally
35 | private and confidential concerns between the patient and the
36 | health care provider. The private and confidential nature of
37 | personal health matters pervades both the public and private
38 | health care sectors. For these reasons, the individual's
39 | expectation of and right to privacy in all matters regarding his
40 | or her personal health necessitates this exemption. The
41 | Legislature further finds that it is a public necessity to
42 | protect a patient's medical record because the release of such
43 | record could be defamatory to the patient or could cause
44 | unwarranted damage to the name or reputation of that patient.
45 | Finally, the Legislature finds that it is a public necessity to
46 | protect information received by the brain tumor registry from an
47 | individual from another state or nation or the Federal
48 | Government that is otherwise exempt or confidential pursuant to
49 | the laws of that state or nation or pursuant to federal law.
50 | Without this protection, another state or nation or the Federal
51 | Government might be less likely to provide information to the
52 | registry in the furtherance of its duties and responsibilities.
