

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. HOUSE PRINCIPLES ANALYSIS:

**Provide limited government** – the bill establishes a pilot for foster children age six through 12 years enrolled in the Duval County school system.

#### B. EFFECT OF PROPOSED CHANGES:

##### **Background**

According to the Department of Children and Family Services (DCF), case plans that are developed for children in foster care contain statements related to the educational needs of those children, and the service providers are expected to work with the schools to meet these needs. However, there is currently no mechanism in place to assess the educational needs of children in foster care and to facilitate meeting those needs.

Current law requires DCF to enter into interagency agreements with the Department of Education and local school boards regarding educational issues relating to children known to the department.<sup>1</sup> District school boards are required to identify all educational and other services provided by the school and district school boards which they believe are reasonably necessary to meet the educational requirements of children known to the department.<sup>2</sup> Also, the district school board is required to provide individualized student intervention or an individual educational plan when a determination has been made through legally appropriate criteria that intervention services are required.<sup>3</sup> DCF and the district school boards are required to cooperate in accessing the appropriate services for children known to the department who have or are suspected to have a disability. This section allows the school district to share information regarding children known to the department with DCF.<sup>4</sup>

In response to the requirements of s. 39.0016, F.S., DCF reports that an interagency agreement has been reached and is currently being circulated for signatures. The parties to the agreement are the Duval County Board of Education, DCF, Family Support Services of North Florida (the community-based care lead agency for Duval County), and the Agency for Workforce Innovation. In addition, the community-based care lead agency participates in the Duval County Court Improvement Project. The issue of educational needs of children known to DCF is a standing agenda item for that group, included on the action plan for follow-up as needed. The lead agency also participates in the special work group developed by Duval County Circuit Judge David Gooding, established to improve services for foster children. This group recommended the pilot project created by this bill.

##### **The Bill**

This bill creates a Community Advisory Panel on Foster Care Pilot Program in Duval County. It provides that the purpose of the pilot program is to identify educational needs and follow-up strategies for foster children age six through 12 years enrolled in the Duval County school system. The goal of the program is to ensure that children in foster care will be tested appropriately and placed in an educational environment that optimizes their opportunities for success.

The community-based care provider in Duval County is given responsibility for administering the pilot program and is directed to employ a full-time project coordinator and a full-time psychologist for the program. The chief judge for the Fourth Judicial Circuit or his or her designee is directed to create the

<sup>1</sup> See s. 39.0016(3), F.S.

<sup>2</sup> See s. 39.0016(4)(b)2., F.S.

<sup>3</sup> See s. 39.0016(4)(b)4. F.S.

<sup>4</sup> See s. 39.0016(4)(c), F.S.

## Community Advisory Panel on Foster Care.

The chief judge responsible for dependency and adoption in the Fourth Judicial Circuit or designee is directed to appoint four members of the 15-member panel, and to chair the panel. The other members are to be selected by the Department of Children and Family Services (DCF) (four members), the county school board (four members), and the guardian ad litem program for Duval County (three members).

The bill describes the duties of the panel and of the project coordinator for the pilot project. These duties include reviewing the academic progress, behavioral issues, and attendance of each student age six to 12 who are in the foster care system in Duval County. It authorizes the panel to prioritize the referral of these children for services by assessing the severity of need and recommending that the most critical needs be addressed first. It requires that students who are failing must be referred for educational testing and for additional psychological and therapeutic counseling as recommended, or both, and that the reasons for the school failure be determined as well as any remediation needed.

It requires the development of a research component of the program. This research component, or assessment tool, must be developed by the project coordinator. The research data must be set up to link systems among providers of educational services, psychological services, case management, and the court system. The tasks to be accomplished by the designer of the assessment tool are set forth as:

- **Discovery** – including meeting with information technology staff from DCF, school board staff, and caseworkers;
- **Development** – consisting of determining the best method for data entry, the best database, and the best data format;
- **Implementation** – comprising completing, testing, and delivering the tool; and
- **Maintenance** – involving developing a maintenance plan and schedule after the initiation of the assessment methodology.

The project manager is required to submit an annual report to the court, the President of the Senate, and the Speaker of the House of Representatives.

The bill provides that the pilot program will expire on July 1, 2009.

### C. SECTION DIRECTORY:

**Section 1.** Creates an unnumbered section of the Florida Statutes relating to the creation of the Community Advisory Panel on Foster Care Pilot Program.

**Section 2.** Provides for a \$300,000 appropriation from the General Revenue Fund to implement the provisions of the bill.

**Section 3.** Provides an effective date July 1, 2006.

## II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

### A. FISCAL IMPACT ON STATE GOVERNMENT:

#### 1. Revenues:

None.

#### 2. Expenditures:

The bill includes an appropriation of \$300,000 from the General Revenue Fund to the Fourth Circuit Court in Duval County to be used to implement the bill.

**B. FISCAL IMPACT ON LOCAL GOVERNMENTS:**

1. Revenues:

None.

2. Expenditures:

None.

**C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:**

None.

**D. FISCAL COMMENTS:**

According to the Department of Children and Family Services (DCF), the \$300,000 appropriation will be sufficient to implement the provisions of the bill. As the provision is currently drafted, however, the funds are directed to the Fourth Circuit Court as opposed to DCF. Staff at DCF suggest that this is problematic because the funding goes to the court without instruction to then contract with the community-based care agency to supply funding for the two full-time staff positions that would be housed under the agency.

**III. COMMENTS**

**A. CONSTITUTIONAL ISSUES:**

1. Applicability of Municipality/County Mandates Provision:

This bill does not appear to require counties or municipalities to take an action requiring the expenditure of funds, reduce the authority that counties or municipalities have to raise revenue in the aggregate, nor reduce the percentage of state tax shared with counties or municipalities.

2. Other:

None.

**B. RULE-MAKING AUTHORITY:**

None.

**C. DRAFTING ISSUES OR OTHER COMMENTS:**

On lines 29-30 of the bill, it states, "The community-based care shall administer the pilot program." The term "provider" or "lead agency" should probably be inserted after "community-based care since DCF contracts with the lead agency for foster care services in Duval County.

The Department of Children and Family Services and the Office of the State Courts Administrator are not among those listed in the bill as receiving the annual report. Because the pilot program crosses agency lines, it may be helpful to include these entities as recipients of the report.

**IV. AMENDMENTS/COMMITTEE SUBSTITUTE & COMBINED BILL CHANGES**
