3 Section 1. Section 408.918, Florida Statutes, is
4 amended to read:

5 408.918 Florida 211 Network; uniform certification
6 requirements.--

7 (1) The Legislature finds that a statewide Florida 211
8 Network would be of great benefit to Floridians, particularly
9 in times of disaster, and authorizes the planning,
10 development, and, subject to appropriations, the
11 implementation of a statewide Florida 211 Network, which shall
12 serve as the single point of coordination for information and
13 referral for health and human services. The objectives for
14 establishing the Florida 211 Network shall be to:

15 (a) Provide comprehensive and cost-effective access to
16 health and human services information.

17 (b) Improve access to accurate information by
18 simplifying and enhancing state and local health and human
19 services information and referral systems and by fostering
20 collaboration among information and referral systems.

21 (c) Electronically connect local information and
22 referral systems to each other, to service providers, and to
23 consumers of information and referral services.

24 (d) Establish and promote standards for data
25 collection and for distributing information among state and
26 local organizations.

27 (e) Promote the use of a common dialing access code
28 and the visibility and public awareness of the availability of
29 information and referral services.

30 (f) Provide a management and administrative structure
31 to support the Florida 211 Network and establish technical

1 assistance, training, and support programs for information and
2 referral-service programs.

3 (g) Test methods for integrating information and
4 referral services with local and state health and human
5 services programs and for consolidating and streamlining
6 eligibility and case management processes.

7 (h) Provide access to standardized, comprehensive data
8 to assist in identifying gaps and needs in health and human
9 services programs.

10 (i) Provide a unified systems plan with a developed
11 platform, taxonomy, and standards for data management and
12 access.

13 (2) In order to participate in the Florida 211
14 Network, a 211 provider must be certified by the Agency for
15 Health Care Administration. The agency shall develop criteria
16 for certification, as recommended by the Florida Alliance of
17 Information and Referral Services, and shall adopt the
18 criteria as administrative rules.

19 (a) If any provider of information and referral
20 services or other entity leases a 211 number from a local
21 exchange company and is not certified by the agency, the
22 agency shall, after consultation with the local exchange
23 company and the Public Service Commission, request that the
24 Federal Communications Commission direct the local exchange
25 company to revoke the use of the 211 number.

26 (b) The agency shall seek the assistance and guidance
27 of the Public Service Commission and the Federal
28 Communications Commission in resolving any disputes arising
29 over jurisdiction related to 211 numbers.

30 (3)(a) The Florida 211 Network shall be expanded
31 statewide to provide services in each county. Each 211

1 provider shall coordinate with each county emergency
2 management agency in the 211 service area to determine how the
3 Florida 211 Network may be used in the event of a disaster,
4 including how a 211 provider will respond with information
5 that is essential to assisting individuals during a natural
6 disaster.

7 (b) To implement the Florida 211 Network business
8 plan, the agency shall distribute to the Florida Alliance of
9 Information and Referral Services funds appropriated to the
10 agency to expand the Florida 211 Network statewide and to
11 enhance operations of existing 211 providers. The funds
12 distributed to the Florida Alliance of Information and
13 Referral Services shall be made available to 211 providers on
14 a matching basis, with each 211 provider required to provide
15 \$1 for each \$1 provided to that 211 provider from state funds
16 appropriated for that purpose. At a minimum, the funds shall
17 be used to achieve statewide 211 coverage.

18 (c)1. No later than December 15, 2006, each 211
19 provider that receives funding under this subsection shall
20 report to the Florida Alliance of Information and Referral
21 Services the expenditure of the state funds on a form
22 developed by the agency.

23 2. No later than January 1, 2007, the Florida Alliance
24 of Information and Referral Services shall provide a statewide
25 report to the agency which includes the individual reports and
26 aggregated data provided by the 211 providers.

27 3. No later than January 15, 2007, the agency shall
28 submit a report to the Governor, the President of the Senate,
29 and the Speaker of the House of Representatives detailing
30 expenditure of the funds appropriated to it for the purposes
31 of this subsection.

1 (4) As used in this section, the term "211 provider"
2 means an information and referral organization the primary
3 purpose of which is to maintain information about human
4 service resources in the community, supply descriptive
5 information about the agencies or organizations that offer
6 services, and assist consumers in accessing appropriate
7 providers.

8 Section 2. The sum of \$5 million is appropriated for
9 the 2006-2007 fiscal year from nonrecurring general revenue to
10 the Agency for Health Care Administration to fund the
11 statewide expansion of the Florida 211 Network to all counties
12 and to enhance the operations of existing 211 providers under
13 s. 408.918, Florida Statutes, as amended by this act. Any
14 funds that are not encumbered for the 2006-2007 fiscal year
15 shall revert on June 30, 2007, and are reappropriated for the
16 2007-2008 fiscal year for the same purposes.

18 law.
