The Committee on Education (Webster) recommended the following amendment:

Senate Amendment (with title amendment)

On page 1, between lines 18 and 19,

insert:

Section 1. The Legislature finds that medium-sized counties in Florida have experienced rapid and dynamic growth in the last decade. The Legislature recognizes that some counties have been experiencing rapid growth, based on student enrollment figures. The Legislature also recognizes that the needs of students in kindergarten through grade 12 are significantly tied to expansive growth in these counties, and that the needs of families that have school-age children require critical consideration. The Legislature finds that the will of the electors regarding education issues may be better realized by offering an alternate procedure for the district school board chair to be elected directly by the electors of the school district.
