648.387 Primary bail bond agents; duties; provision of electronic monitoring equipment and services by licensed agents.--

- (6) (a) A licensed bail bond agent qualifying under s.

 907.07 may provide electronic monitoring equipment and services
 for defendants released from custody on a surety bond and
 subject to conditions including electronic monitoring. A
 licensed bail bond agent may subcontract with a third party to
 provide these services if the third party complies with the
 requirements under s. 907.07. A licensed bail bond agent

 entity to provide electronic monitoring equipment and services
 under contract with that entity.
- (b) A licensed bail bond agent may charge a defendant subject to electronic monitoring a reasonable, nonrefundable fee for electronic monitoring equipment and services. The amount of the fee charged in each judicial circuit shall not exceed the maximum daily fee set annually by the chief judge for the judicial circuit in which the defendant is released. The failure of a defendant to pay this fee in a timely manner shall constitute grounds for the licensed bail bond agent to remand the defendant to the custody of the court or appropriate law enforcement agency. Fees charged by a bail bond agent for electronic monitoring equipment and services shall not be

considered part of the bail bond premium and shall be exempt from the provisions of s. 648.33.

- (c) Records and receipts for electronic monitoring equipment and services provided by a licensed bail bond agent shall be kept separate and apart from bail bond records and shall be available for inspection by the court or the appropriate governmental entity.

Section 10. Section 944.161, Florida Statutes, is created to read:

944.161 Electronic monitoring of inmates within correctional facilities.--

- (1) The department is authorized to employ electronic monitoring of inmates incarcerated within state and private correctional facilities. The department must use electronic monitoring systems that meet the minimum specifications set forth in paragraphs (a) and (b) and are consistent with the performance standards set forth in paragraph (c), subject to the best commercially available technology at the time of procurement. Such a system must:
- (a) Have the capacity to continuously receive electronic signals at a monitoring station within the correctional facility from a transmitter that continuously transmits in real time and identifies the specific geographic position within the facility at any time of the following persons who must wear a transmitter:
 - 1. Inmates.

- 2. Department employees.
- 3. Employees of any private sector company contracted to operate a correctional facility.
- 4. Any visitor to a correctional facility provided access to areas designated for authorized personnel only.

Page 18 of 44

(b) Use electronic monitoring transmitters worn by persons in any correctional facility that are capable of providing updates in at least 5-second intervals and transmit the geographical location of a person wearing a transmitter to within at least a 3-meter radius of his or her actual location or to within a radius equal to the width of a facility's average size sleeping quarters, whichever is less, subject to the limitations relating to the state of the art of the technology used and to circumstances of force majeure. Transmitters worn by persons other than inmates shall also include a panic safety button.

- (c) Be consistent with the following technological and functional performance standards:
- 1. Be compatible with a commercially recognized wireless network access standard as designated by the department and sufficient bandwidth to support additional wireless networking devices to expand the capacity of the correctional facility to use the service.
- 2. Have the capability of issuing an alarm to an internal correctional monitoring station in an appropriate amount of time after receiving a panic alert from an employee or visitor transmitter or within an appropriate amount of time after violation of the established parameters for permissible movement of inmates, employees, and visitors within the facility.
- 3. Have the capability of maintaining a historical storage capacity sufficient to store up to at least 6 months of complete inmate, employee, and visitor tracking data for purposes of

followup investigations and vendor contract auditing. The system should be capable of recording the continuous uninterrupted movement of all monitored individuals by specific position, rather than solely by area or zone. All tracking data shall also be periodically archived by appropriate electronic data transfer to a permanent storage medium designated as acceptable by the department and retained for at least a 5-year period. In addition, tracking data collected from each facility shall be electronically transmitted periodically to a secure centralized offsite location designated by the department and in an appropriate storage medium designated as acceptable by the department as a supplemental backup to protect the archived data from alteration and to prevent loss due to disaster or other cause.

- 4. With respect to a transmitter affixed to an inmate, be capable of possessing an internal power source that is field rechargeable or provides at least 1 year of normal operation without the need to recharge or replace the power source.

 Batteries used in devices should be capable of being replaced by correctional employees. The device should emit signal content indicating the power status of the transmitter and notifying the correctional facility monitoring station of any need to recharge or replace the power source.
- 5. Possess and emit signal content indicating whether the transmitter has been tampered with or removed.
- 6. Possess encrypted signal content or another feature designed to discourage duplication.

7. Be shock resistant, waterproof, and capable of reliable function under normal atmospheric and environmental conditions.

- 8. Have the capability to sustain wear and use in a manner that does not pose a safety hazard or unduly restrict the activities of the inmate.
- 9. Have the capability of being attached to the inmate in a manner that readily reveals any efforts to tamper with or remove the transmitter upon visual inspection.
- 10. Either possess straps or other mechanisms for attaching the transmitter to the inmate which are capable of being adjusted to fit an inmate of any size or available in a variety of sizes.
- 11. Be designed and constructed in such a way as to resist tampering with or removal by the inmate.
- 12. Provide a backup power source in the event of a power failure.
- (d) The provisions of this section do not apply to contracts executed pursuant to chapter 957 before July 1, 2006, between the Department of Management Services and private prison providers.
- (2) A person shall not intentionally alter, tamper with, damage, or destroy any electronic monitoring equipment used to monitor the location of a person within a correctional facility, unless the person is the owner of the equipment or an agent of the owner performing ordinary maintenance and repairs. A person violating this subsection commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(3) A person shall not develop, build, create, possess, or use any device that is intended to mimic, clone, interfere with, or jam the signal of an electronic monitoring device used to monitor the location of a person within a correctional facility. a condition of conditional release, that the releasee make payment of the debt due and owing to a county or municipal detention facility under s. 951.032 for medical care, treatment, hospitalization, or transportation received by the releasee while in that detention facility. The commission, in determining whether to order such repayment and the amount of such repayment, shall consider the amount of the debt, whether there was any fault of the institution for the medical expenses incurred, the financial resources of the releasee, the present and potential future financial needs and earning ability of the releasee, and dependents, and other appropriate factors.

If any inmate, other than an inmate required to register as a sexual predator under s. 775.21 or as a sexual offender under s. 943.0435, placed on conditional release supervision is also subject to probation or community control, resulting from a probationary or community control split sentence within the overall term of sentences, the Department of Corrections shall supervise such person according to the conditions imposed by the court and the commission shall defer to such supervision. If the offense was a controlled substance violation, the conditions shall include a requirement that the offender submit to random substance abuse testing intermittently throughout the term of conditional release supervision, upon the direction of the correctional probation officer as defined in s. 943.10(3). The commission shall also determine whether the terms and conditions of such release have been violated and whether such violation warrants revocation of the conditional release.
- (6) The commission shall review the recommendations of the department, and such other information as it deems relevant, and

may conduct a review of the inmate's record for the purpose of establishing the terms and conditions of the conditional release. The commission may impose any special conditions it considers warranted from its review of the release plan and recommendation. If the commission determines that the inmate is eligible for release under this section, the commission shall enter an order establishing the length of supervision and the conditions attendant thereto. However, an inmate who has been convicted of a violation of chapter 794 or found by the court to be a sexual predator is subject to the maximum level of supervision provided, with the mandatory conditions as required in subsection (7), and that supervision shall continue through the end of the releasee's original court-imposed sentence. The length of supervision must not exceed the maximum penalty imposed by the court. The commission may modify the conditions of supervision at any time as warranted in the interest of public safety.

- (7)(a) Any inmate who is convicted of a crime committed on or after October 1, 1995, or who has been previously convicted of a crime committed on or after October 1, 1995, in violation of chapter 794, s. 800.04, s. 827.071, or s. 847.0145, and is subject to conditional release supervision, shall have, in addition to any other conditions imposed, the following special conditions imposed by the commission:

- 2.a. If the victim was under the age of 18, a prohibition on living within 1,000 feet of a school, day care center, park, playground, designated public school bus stop, or other place where children regularly congregate. A releasee who is subject to this subparagraph may not relocate to a residence that is within 1,000 feet of a public school bus stop.
- b. Beginning October 1, 2004, the commission or the department may not approve a residence that is located within 1,000 feet of a school, day care center, park, playground, designated school bus stop, or other place where children regularly congregate for any releasee who is subject to this subparagraph. On October 1, 2004, the department shall notify each affected school district of the location of the residence of a releasee 30 days prior to release and thereafter, if the releasee relocates to a new residence, shall notify any affected school district of the residence of the releasee within 30 days after relocation. Beginning October 1, 2004, a district school board may not establish or relocate a public school bus stop within 1,000 feet of the residence of a releasee who is subject to this subparagraph. The failure of the district school board

to comply with this subparagraph shall not result in a violation of conditional release supervision.

- c. Beginning October 1, 2006, neither the commission nor the department may approve a residence located within 1,500 feet of a school, day care center, park, playground, designated school bus stop, library, or other business or place where children regularly congregate for any releasee who is subject to this subparagraph. The distance provided in this subsubparagraph shall be measured in a straight line from the offender's place of residence to the nearest boundary line of the school, day care center, park, playground, library, or other business or place where children regularly congregate. The distance may not be measured by a pedestrian route or automobile route.
- 3. Active participation in and successful completion of a sex offender treatment program with qualified practitioners specifically trained to treat sex offenders, at the releasee's own expense. If a qualified practitioner is not available within a 50-mile radius of the releasee's residence, the offender shall participate in other appropriate therapy.

supervised contact with a child under the age of 18 if the approval is based upon a recommendation for contact issued by a qualified practitioner who is basing the recommendation on a risk assessment. Further, the sex offender must be currently enrolled in or have successfully completed a sex offender therapy program. The commission may not grant supervised contact with a child if the contact is not recommended by a qualified practitioner and may deny supervised contact with a child at any time. When considering whether to approve supervised contact with a child, the commission must review and consider the following:

- a. A risk assessment completed by a qualified practitioner. The qualified practitioner must prepare a written report that must include the findings of the assessment and address each of the following components:
 - (I) The sex offender's current legal status;
- (II) The sex offender's history of adult charges with apparent sexual motivation;
- (III) The sex offender's history of adult charges without apparent sexual motivation;

The commission may not appoint a person to conduct a risk assessment and may not accept a risk assessment from a person who has not demonstrated to the commission that he or she has met the requirements of a qualified practitioner as defined in this section.
