

1 A bill to be entitled
2 An act relating to designations; creating s.
3 15.052, F.S.; designating key lime pie as the
4 official state pie; creating s. 15.0337, F.S.;
5 designating Ocala Limestone as the state rock;
6 creating s. 15.0338, F.S.; designating calcite
7 as the state mineral; creating s. 15.0339,
8 F.S.; designating the Eocene Heart Urchin as
9 the state fossil; providing an effective date.

10

11 Be It Enacted by the Legislature of the State of Florida:

12

13 Section 1. Section 15.052, Florida Statutes, is
14 created to read:15 15.052 Official state pie.--Key lime pie is designated
16 as the official Florida state pie.17 Section 2. Section 15.0337, Florida Statutes, is
18 created to read:19 15.0337 State rock.--The Ocala Limestone, a cream to
20 white porous limestone containing abundant fossils, found
21 throughout Florida and one of most permeable rock units of the
22 Floridan aquifer system, is designated the Florida state rock.23 Section 3. Section 15.0338, Florida Statutes, is
24 created to read:25 15.0338 State mineral.--Calcite, the major
26 rock-forming mineral of limestone, occurring commonly as
27 translucent crystals of vitreous luster, colorless to
28 honey-colored, having the chemical composition of calcium
29 carbonate, is designated the Florida state mineral.30 Section 4. Section 15.0339, Florida Statutes, is
31 created to read:

1 15.0339 State fossil.--The Eocene Heart Urchin,
2 Eupatagus antillarum. This Late Eocene age irregular echinoid
3 is similar to the heart urchins of modern tropical seas. It
4 lived buried in the bottom sediments of the shallow seas that
5 covered Florida 38 million years ago. The fossilized shell of
6 this species is commonly found in the Ocala Limestone and Avon
7 Park formations. The Eocene Heart Urchin is designated the
8 Florida state fossil.

9 Section 5. This act shall take effect July 1, 2006.
