By the Committees on General Government Appropriations; Governmental Oversight and Productivity; Domestic Security; and Senator Diaz de la Portilla

601-2384-06

1	A bill to be entitled
2	An act relating to domestic security; amending
3	s. 282.318, F.S.; requiring the Department of
4	Management Services to recommend minimum
5	operating procedures for the security of data
6	and information technology resources; requiring
7	each agency to conduct certain procedures to
8	assure the security of data, information, and
9	information technology resources; requiring
10	that the results of certain internal audits and
11	evaluations be available to the Auditor
12	General; requiring the department to establish
13	an Office of Information Security and to
14	designate a Chief Information Security Officer;
15	requiring the office to develop a strategic
16	plan; providing that the office is responsible
17	for certain procedures and standards; providing
18	legislative findings with respect to the
19	provision of additional funds for enhancements
20	and improvements to the radio system used by
21	state law enforcement agencies; providing for
22	the implementation of certain recommendations
23	contingent upon appropriation; providing an
24	appropriation and authorizing positions;
25	prescribing requirements for fire hydrants to
26	prevent backflow contamination of the domestic
27	water supply; providing an effective date.

Section 1. Section 282.318, Florida Statutes, is 2 amended to read: 3 282.318 Security of data and information technology 4 resources. --5 (1) This section may be cited as the "Security of Data 6 and Information Technology Resources Act." 7 (2) (a) The Department of Management Services, 8 hereafter referred to as the department The State Technology Office, in consultation with each agency head, is responsible 9 for coordinating, assessing, and recommending minimum 10 operating procedures for and accountable for assuring an 11 12 adequate level of security for all data and information 13 technology resources. To assist the department in carrying of each agency and, to carry out this responsibility, each agency 14 15 shall, at a minimum: (a) 1. Designate an information security manager who 16 17 shall administer the security program of each agency for its 18 data and information technology resources. (b) 2. Conduct, and periodically update every 3 years, 19 a comprehensive risk analysis to determine the security 20 21 threats to the data, information, and information technology 22 resources of each agency. The risk analysis information is 23 confidential and exempt from the provisions of s. 119.07(1),

(c)3. Develop, and periodically update, written internal policies and procedures that are consistent with the standard operating procedures recommended by the department to assure the security of the data and information technology resources of each agency. The internal policies and procedures which, if disclosed, could facilitate the

except that such information shall be available to the Auditor

General in performing his or her postauditing duties.

2.8

unauthorized modification, disclosure, or destruction of data or information technology resources are confidential information and exempt from the provisions of s. 119.07(1), except that such information shall be available to the Auditor General in performing his or her postauditing duties.

- (d)4. Implement appropriate cost-effective safeguards to reduce, eliminate, or recover from the identified risks to the data and information technology resources of each agency.
- (e)5. Ensure that periodic internal audits and evaluations of each security program for the data, information, and information technology resources of the agency are conducted. The results of such internal audits and evaluations are confidential information and exempt from the provisions of s. 119.07(1), except that such information shall be available to the Auditor General in performing his or her postauditing duties.
- (f)6. Include appropriate security requirements, as determined by the State Technology Office, in consultation with each agency head, in the written specifications for the solicitation of information technology resources which are consistent with the standard security operating procedures as recommended by the department.
- (b) In those instances in which the <u>department State</u>

 Technology Office develops state contracts for use by state agencies, the <u>department</u> office shall include appropriate security requirements in the specifications for the solicitation for state contracts for procuring information technology resources.
- (3) In order to ensure the security of data, information, and information technology resources, the department shall establish the Office of Information Security

1	and shall designate a Chief Information Security Officer as
2	the head of the office. The office shall coordinate its
3	activities with the Agency Chief Information Officers Council
4	as established in s. 282.315. The office is responsible for
5	developing a strategic plan for information technology
6	security which shall be submitted by December 1, 2006, to the
7	Executive Office of the Governor, the President of the Senate,
8	and the Speaker of the House of Representatives; developing
9	standards and templates for conducting comprehensive risk
10	analyses and information security audits by state agencies;
11	assisting agencies in their compliance with the provisions of
12	this section; establishing minimum standards for the recovery
13	of information technology following a disaster; and conducting
14	training for agency information security managers. This
15	subsection shall expire on June 30, 2007.
16	Section 2. The Legislature finds that infrastructure
17	enhancements and improvements to the radio system used by
18	state law enforcement agencies will provide increased
19	protection to the residents of this state and should be
20	considered for additional funding. In order to ensure
21	continued, improved communication and protection by state and
22	local law enforcement personnel, the recommendations of the
23	Joint Task Force on State Agency Law Enforcement
24	Communications, dated February 2005, or any subsequent
25	recommendations of the joint task force, should be implemented
26	contingent upon the appropriation of funds.
27	Section 3. For the 2006-2007 fiscal year, the sums of
28	\$529,387 in recurring funds and \$25,863 in nonrecurring funds
29	are appropriated from the General Revenue Fund to the
30	Department of Management Services for the Office of
31	

1	Information Security, and five full-time equivalent positions
2	and an associated salary rate of 339,405 are authorized.
3	Section 4. All new and replacement fire hydrants in
4	this state shall have an internal hydrant valve device
5	installed which will prevent intentional or accidental
6	backflow contamination of the domestic water supply. Such
7	device may in no way delay access to the water supply for fire
8	protection.
9	Section 5. This act shall take effect upon becoming a
10	law.
11	
12	STATEMENT OF SUBSTANTIAL CHANGES CONTAINED IN COMMITTEE SUBSTITUTE FOR
13	CS for CS for SB 856
14	
15	Appropriates \$555,250 in general revenue and provides five positions and associated salary rate of 339,405 to the
16	Department of Management Services for the Office of Information Security.
17	
Requires that all new and replacement fire hydrants have internal hydrant valve device installed to prevent backf contamination of the domestic water supply. 19	internal hydrant valve device installed to prevent backflow
	contamination of the domestic water supply.
