A bill to be entitled
An act relating to information technology management; creating s. 282.0051, F.S.; providing legislative findings and intent with respect to optimizing the state's use of information technology; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 282.0051, Florida Statutes, is created to read:

282.0051 Information technology management.--The Legislature finds that the state needs an information technology architecture that supports the business needs of individual agencies while optimizing the state's collective use of information technology through integration, coordination, consolidation, and sharing. It is the intent of the Legislature that:

(1) The state make governmental information and services more accessible to the public by developing a statewide Internet portal presence, a state e-mail system, and state security protocols.

(2) Each state agency develop and implement information technology in the best interest of the state by means that are cost-effective, efficient, and non-vendor-specific, and that maximize use of shared data and resources.

(3) Agency information technology investments be governed responsibly, consistent with fiscal and substantive

1 policies established by the Legislature, and aligned with
2 business needs.

3 Section 2. This act shall take effect July 1, 2007.
