80 organizations designated by the United States Department of

 156 driver's license or identification card upon which an anatomical
 157 gift is indicated does not invalidate the gift.

158 (b) A statement indicating that the donor has made an
 159 anatomical gift that he or she has authorized to be included on
 160 the donor registry. Individuals may make such an authorization
 161 through online access to the donor registry. The Department of
 162 Highway Safety and Motor Vehicles may adopt rules to provide for
 163 verification of the identity of such individuals in a manner
 164 similar to the verification of identity for online driver's
 165 license renewal. An online authorization under this paragraph is
 166 evidence of legally sufficient informed consent to donate an

167 anatomical gift, is legally binding, and satisfies all signature
168 requirements for such authorization.

169 (c) A will. The gift becomes effective upon the death of
170 the testator without waiting for probate. If the will is not
171 probated or if it is declared invalid for testamentary purposes,
172 the gift is nevertheless valid to the extent that it has been
173 acted upon in good faith.

174 (d) 1. ~~(2) (a) A gift of all or part of the body under s.~~
175 ~~765.512(1) may also be made by~~ A document other than a will or
176 online authorization. The gift becomes effective upon the death
177 of the donor. The document must be signed by the donor in the
178 presence of two witnesses who shall sign the document in the
179 donor's presence. If the donor cannot sign, the document may be
180 signed for him or her at the donor's direction and in his or her
181 presence and the presence of two witnesses who must sign the
182 document in the donor's presence. Delivery of the document of
183 gift during the donor's lifetime is not necessary to make the
184 gift valid.

185 2. ~~(b)~~ The following form of written instrument shall be
186 sufficient for any person to give all or part of his or her body
187 for the purposes of this part:

 219 physician may accept the gift as donee upon or following death
 220 in the absence of any expressed indication that the donor

223 possible recipients of an anatomical gift on the basis of race,
 224 color, religion, sex, national origin, age, physical handicap,
 225 health status, marital status, or economic status, and such
 226 restrictions are hereby declared void and unenforceable. The
 227 physician who becomes a donee under this subsection shall not
 228 participate in the procedures for removing or transplanting a
