SUMMARY ANALYSIS

This bill amends the special act that created the West Manatee Fire and Rescue District to allow impact fees to be set in accordance with ch. 191, F.S.

This bill is effective upon becoming law.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. HOUSE PRINCIPLES ANALYSIS:

Ensure Lower Taxes

This bill authorizes the District to increase impact fees on new construction to provide funding for increased fire protection costs made necessary by the new construction.

B. EFFECT OF PROPOSED CHANGES:

Present Situation

Independent Special Districts

Independent special districts, including independent special fire control districts, may only be created by the Legislature. The creation of independent fire control special districts is governed by ch. 189, F.S., the "Uniform Special District Accountability Act of 1989", and ch. 191, F.S., the "Independent Special Fire Control District Act". However, the legislature may provide an exemption from the general law requirements in chs. 189 and 191, F.S., in a local bill creating an independent special district. If a local bill creates an exemption from general law, Rule 5.5 of the Florida House of Representatives prohibits the local bill from being placed on the Special Order Calendar in any section reserved for the expedited consideration of local bills.

Chapter 189, F.S., known as the "Uniform Special District Accountability Act of 1989", includes requirements that must be satisfied when the Legislature creates any independent special district, including independent special fire control districts created under ch. 191, F.S. Unless the Legislature has enacted a special law exempting a particular independent special district, all districts must comply with applicable provisions of ch. 189, F.S., including provisions related to issues that must be addressed in a district's charter, election of district governing board members, bond referenda, public records and meetings, and reporting requirements.

Independent Special Fire Control District Act

Chapter 191, F.S., is known as the "Independent Special Fire Control District Act" (the Act). Section 191.002, F.S., sets forth the Act's purpose, which is to establish standards and procedures concerning the operations and governance of independent special fire control districts (districts), and to provide greater uniformity in the financing authority, operations, and procedures for electing members of the governing boards of districts. Currently, there are 56 districts in Florida.

Unless otherwise exempted by special or general law, the Act requires each district, whether created by special act, general law of local application, or county ordinance, to comply with the Act and provides that it is the intent of the Legislature that the Act supersede all special acts or general laws of local application provisions that contain the charter of a district. Provisions that address district boundaries and geographical subdistricts for the election of members of the governing board are excepted.

General Powers

Section 191.006, F.S., sets forth, among several others, the following general powers of a district, which may be exercised by a majority vote of the board:

- To charge user and impact fees authorized by resolution of the board, in amounts necessary to conduct district activities and services, and to enforce their receipt and collection in the manner

prescribed by resolution and authorized by law. However, the imposition of impact fees may only be authorized as provided by general law.

District Funding Mechanisms

Section 191.009, F.S., authorizes districts to levy ad valorem taxes, special assessments, user charges, and impact fees.

Impact Fees -- If the general purpose local government has not adopted an impact fee for fire services which is distributed to the district for construction within its jurisdictional boundaries, the board may establish a schedule of impact fees to pay for the cost of new facilities and equipment, the need for which is in whole or in part the result of new construction. The impact fees collected by the district must be kept separate from other revenues of the district and must be used exclusively to acquire, purchase, or construct new facilities or portions thereof needed to provide fire protection and emergency services to new construction. The term "new facilities" is defined as land, buildings, and capital equipment, including, but not limited to, fire and emergency vehicles, radiotelemetry equipment, and other firefighting or rescue equipment. The board must maintain adequate records to ensure that impact fees are expended only for permissible new facilities or equipment. The board may enter into agreements with general purpose local governments to share in the revenues from fire protection impact fees imposed by the governments.

West Manatee Fire and Rescue District

The District is an independent special fire control district, and the boundaries of the District are the lands in Manatee County described in the charter. The District is organized and exists for all purposes set forth in the charter and chs. 189 and 191, F.S. The District was created by special act in 2000 and its charter may be amended only by special act of the Legislature.

The district is authorized to assess impact fees in accordance with a schedule published in section 14 of ch. 2000-401, L.O.F.

Effect of Proposed Changes

The bill deletes the schedule of impact fees established by ch. 2000-401, L.O.F., and authorizes the board to establish a schedule of in accordance with chapter 191, F.S. The increase in impact fees may provide funding for fire protection costs made necessary by new construction within the District thereby limiting increased fire protection costs to new developments and not the existing tax base.

C. SECTION DIRECTORY:

Section 1: Amends subsections (4) through (6) of section 14 of ch. 2000-401, L.O.F., by authorizing the schedule of impact fees to be established by the board in accordance with chapter 191, F.S.

Section 2: Provides the bill will be effective upon becoming law.

II. NOTICE/REFERENDUM AND OTHER REQUIREMENTS

A. NOTICE PUBLISHED? Yes No

IF YES, WHEN? January 20, 2007

WHERE? The *Bradenton Herald*, a daily newspaper published at Bradenton in Manatee County.
