CHAMBER ACTION

<u>Senate</u>	.	<u>House</u>
Comm: FAV	.	
3/19/2008	.	
	.	
	.	

---

1 The Committee on Environmental Preservation and Conservation  
 2 (Saunders) recommended the following **amendment to amendment**  
 3 **(223658)** :

**Senate Amendment**

Between line(s) 969-970

insert:

4 4. The business project is located in this state; and

5 5. The jobs created by the business project pay an  
 6 estimated annual average wage that equals at least 130 percent of  
 7 the average private sector wage. The average wage requirement  
 8 may be waived if the office and the commission determine that the  
 9 merits of the individual project or the specific circumstances  
 10 warrant such action; and

11 6. The business project meets one of the following  
 12 criteria:

187784

17       a. Results in the creation of at least 35 direct, new jobs  
18 at the business; or

19       b. Has an activity or product that uses feedstock or other  
20 raw materials grown or produced in this state; or

21       c. Has a cumulative investment of at least \$50 million  
22 within a 5-year period.

23       d. The project shall address technical feasibility of the  
24 technology, and the extent to which the proposed project has been  
25 demonstrated to be technically feasible based on pilot project  
26 demonstrations, laboratory testing, scientific modeling, or  
27 engineering or chemical theory that supports the proposal.

28       e. The project shall include innovative technology and the  
29 degree to which the project or business incorporates an  
30 innovative new technology or an innovative application of an  
31 existing technology.

32       f. The project shall include production potential and the  
33 degree to which a project or business generates thermal,  
34 mechanical, or electrical energy by means of a renewable energy  
35 resource that has substantial long-term production potential.  
36 The project must, to the extent possible, quantify annual  
37 production potential in megawatts or kilowatts.

38       g. The project shall include and address energy efficiency  
39 and the degree to which a project demonstrates efficient use of  
40 energy, water, and material resources.

41       h. The project shall include project management and the  
42 ability of management to administer a complete the business  
43 project.
