Senator Saunders moved the following amendment:

Senate Amendment (with directory and title amendments)

Between line(s) 6371-6372

insert:

Section 110. (1) By July 1, 2009, the Agency for
enterprise Information Technology shall define objective
standards for:

(a) Measuring data center energy consumption and
efficiency, including, but not limited to, airflow and cooling,
power consumption and distribution, and environmental control
systems in a data center facility.

(b) Calculating total cost of ownership of energy-efficient
information technology products, including initial purchase,
installation, ongoing operation and maintenance, and disposal
costs over the life cycle of the product.

469850

17 (2) State shared resource data centers and other data
18 centers that the Agency for Enterprise Information Technology has
19 determined will be recipients for consolidating data centers,
20 which are designated by the Agency for Enterprise Information
21 Technology, shall evaluate their data center facilities for
22 energy efficiency using the standards established in this
23 section.

24 (a) Results of these evaluations shall be reported to the
25 Agency for Enterprise Information Technology, the President of
26 the Senate, and the Speaker of the House of Representatives.
27 Reports shall enable the tracking of energy performance over time
28 and comparisons between facilities.

29 (b) By December 31, 2010, and bi-annually thereafter, the
30 Agency for Enterprise Information Technology shall submit to the
31 Legislature recommendations for reducing energy consumption and
32 improving the energy efficiency of state data centers.

33 (3) The primary means of achieving maximum energy savings
34 across all state data centers and computing facilities shall be
35 the consolidation of data centers and computing facilities as
36 determined by the Agency for Enterprise Information Technology.
37 State data centers and computing facilities in the state data
38 center system shall be established as an enterprise information
39 technology service as defined in s. 282.0041. The Agency for
40 Enterprise Information Technology shall make recommendations on
41 consolidating state data centers and computing facilities,
42 pursuant to s. 282.0056, by December 31, 2009.

43 (4) When the total cost of ownership of an energy-efficient
44 product is less than or equal to the cost of the existing data
45 center facility or infrastructure, technical specifications for
46 energy-efficient products should be incorporated in the plans and
