1 The Committee on Environmental Preservation and Conservation
 2 (Dockery) recommended the following **amendment to amendment**
 3 **(223658)** :

Senate Amendment

Delete line(s) 2037-2060

and insert:

8 (a) Include requirements in the 2010 edition of the Florida
 9 Building Code to increase the energy-efficiency performance of
 10 new buildings by at least 20 percent as compared to the
 11 performance achieved as a result of the implementation of the
 12 energy-efficiency provisions contained in the 2004 edition of the
 13 Florida Building Code, as amended on May 22, 2007;

14 (b) Include requirements in the 2013 edition of the Florida
 15 Building Code to increase the energy-efficiency performance of
 16 new buildings by at least 30 percent as compared to the
 17 performance achieved as a result of the implementation of the

Bill No. SB 1544

578874

18 energy-efficiency provisions contained in the 2004 edition of the
19 Florida Building Code, as amended on May 22, 2007;

20 (c) Include requirements in the 2016 edition of the Florida
21 Building Code to increase the energy-efficiency performance of
22 new buildings by at least 40 percent as compared to the
23 performance achieved as a result of the implementation of the
24 energy-efficiency provisions contained in the 2004 edition of the
25 Florida Building Code, as amended on May 22, 2007; and

26 (d) Include requirements in the 2019 edition of the Florida
27 Building Code to increase the energy-efficiency performance of
28 new buildings by at least 50 percent as compared to the
29 performance achieved as a result of the implementation of the
30 energy-efficiency provisions contained in the 2004 edition of the
31 Florida Building Code, as amended on May 22, 2007.
