20082702\_\_\_

T	A DIII to be entitled
2	An act relating to energy-efficiency standards; providing
3	legislative findings; providing definitions; providing
4	that the act applies to specified types of new products
5	sold, offered for sale, or installed in this state;
6	requiring the Department of Environmental Protection, in
7	consultation with the Public Service Commission, to adopt
8	rules establishing minimum efficiency standards for
9	specified products; specifying minimum efficiency levels
10	for those standards; setting implementation deadlines;
11	authorizing the Department of Environmental Protection to
12	revise rules to increase efficiency levels for specified
13	products over minimum standards when energy conservation
14	is promoted and cost-effective; providing for a delayed
15	effective date; requiring the department to adopt
16	nationally recognized procedures for testing the
17	efficiency of specified products if the procedures are not
18	provided for in the state building code; requiring
19	manufacturers of specified products to certify compliance
20	with the act; requiring the department to adopt rules
21	governing the identification and certification of
22	specified products; authorizing the department to use an
23	accredited testing facility; requiring the department to
24	charge the manufacturer for noncompliant products and to
25	provide information to the public about noncompliant
26	products; authorizing the department to conduct periodic
27	inspections of distributors or retailers; requiring the
28	department to investigate complaints and report the
29	results to the Attorney General; authorizing the Attorney

A bill to be entitled

### Page 1 of 9

20082702 31-02878-08 30 General to initiate civil proceedings to enforce the act; 31 providing for penalties against a manufacturer, 32 distributor, or retailer in violation of the act; providing for a warning for first-time violations; 33 34 authorizing the department to adopt additional rules; 35 providing an effective date. 36 37 Be It Enacted by the Legislature of the State of Florida: 38 39 Section 1. Legislative findings.--The Legislature finds 40 that: 41 (1) Efficiency standards for certain products sold or 42 installed in the state assure business and residential consumers 43 that such products meet minimum efficiency performance levels, 44 thus saving money on utility bills. 45 (2) Such efficiency standards save energy and thus reduce 46 pollution and other environmental impacts associated with the 47 production, distribution, and use of electricity and natural gas. 48 (3) Such efficiency standards can make electrical systems 49 more reliable by reducing the strain on the electric power grid during peak demand periods. Improved energy efficiency can reduce 50 51 or delay the need for new power plants, new power transmission 52 lines, and upgrades to the power distribution system. 53 (4) Energy-efficiency standards contribute to the economy 54 of the state by enabling business and residential consumers to spend less on energy, leaving more capital available for the 55 56 purchase of local goods and services. 57 Section 2. Definitions. -- As used in this act, the term: 58 "Commercial clothes washer" means a soft mount front-(1)

	31-02878-08 20082702
59	loading or soft mount top-loading clothes washer that is designed
60	for use by more than one household, such as in multifamily
61	housing common areas, coin laundries, or other multifamily
62	applications, and that has a clothes container compartment no
63	greater than 3.5 cubic feet for horizontal-axis clothes washers
64	or no greater than 4 cubic feet for vertical-axis clothes
65	washers.
66	(2) "Commercial refrigerator and freezer" means a reach-in
67	cabinet, pass-through cabinet, roll-in cabinet, or roll-through
68	cabinet that has less than 85 cubic feet of cooling space and is
69	not a walk-in model or a consumer product regulated under the
70	National Appliance Energy Conservation Act of 1987, Pub. L. No.
71	100-12.
72	(3) "Department" means the Department of Environmental
73	Protection.
74	(4) "Illuminated exit sign" means an internally illuminated
75	sign that is designed to be permanently mounted and used to
76	identify an exit. A light source illuminates the sign or letters
77	from within and the background of the sign is not transparent.
78	(5) "Large packaged air-conditioning equipment" means
79	packaged air-conditioning equipment having a cooling capacity of
80	240,000 Btu per hour or more.
81	(6) "Low-voltage, dry-type distribution transformer" means
82	a distribution transformer that:
83	(a) Has an input voltage of 600 volts or less;
84	(b) Is between 14kVa and 2,501kVa in size;
85	(c) Is air-cooled; and
86	(d) Does not use oil as a coolant.
87	(7) "Packaged air-conditioning equipment" means air-

# Page 3 of 9

100 <u>the cooling space.</u> 101 <u>(11) "Traffic signal module" means a standard 8-inch, 200</u> 102 <u>mm, or 12-inch, 300 mm, round traffic signal indication that has</u> 103 <u>a light source, lens, and all parts necessary to communicate</u> 104 <u>movement messages to drivers through red, amber, and green</u> 105 <u>colors, which may include arrow modules in the same colors to</u> 106 <u>indicate turning movements.</u>		31-02878-08 20082702
90(8) "Pass-through cabinet" means a commercial refrigerator91or commercial freezer with hinged or sliding doors on the front92and rear of the refrigerator or freezer.93(9) "Reach-in cabinet" means a commercial refrigerator,94commercial refrigerator-freezer, or commercial freezer with95hinged or sliding doors or lids, but excluding a roll-in or roll-96through cabinet or pass-through cabinet.97(10) "Roll-in or roll-through cabinet" means a commercial98refrigerator or commercial freezer with hinged or sliding doors99that allows wheeled racks of product to be rolled into or through100the cooling space.101(11) "Traffic signal module" means a standard 8-inch, 200102mm, or 12-inch, 300 mm, round traffic signal indication that has103a light source, lens, and all parts necessary to communicate104movement messages to drivers through red, amber, and green105colors, which may include arrow modules in the same colors to106indicate turning movements.107(12) "Transformer" means a device consisting of two or more108coils of insulated wire that transfers alternating electric109current by electromagnetic induction from one coil to another in100order to change the original voltage or current value.111Section 3. Scope112(1) This act applies to the testing, certification, and113enforcement of efficiency standards for the following types of114new products sold, offered	88	conditioning equipment that is built as a package and shipped as
91or commercial freezer with hinged or sliding doors on the front and rear of the refrigerator or freezer.93(9) "Reach-in cabinet" means a commercial refrigerator, commercial refrigerator-freezer, or commercial freezer with hinged or sliding doors or lids, but excluding a roll-in or roll- through cabinet or pass-through cabinet.97(10) "Roll-in or roll-through cabinet" means a commercial refrigerator or commercial freezer with hinged or sliding doors that allows wheeled racks of product to be rolled into or through the cooling space.101(11) "Traffic signal module" means a standard 8-inch, 200 mm, or 12-inch, 300 mm, round traffic signal indication that has a light source, lens, and all parts necessary to communicate movement messages to drivers through red, amber, and green colors, which may include arrow modules in the same colors to indicate turning movements.101(12) "Transformer" means a device consisting of two or more coils of insulated wire that transfers alternating electric current by electromagnetic induction from one coil to another in order to change the original voltage or current value.113enforcement of efficiency standards for the following types of new products sold, offered for sale, or installed in the state: (a) Commercial clothes washers;	89	a whole to the site of an end user.
92and rear of the refrigerator or freezer.93(9) "Reach-in cabinet" means a commercial refrigerator, commercial refrigerator-freezer, or commercial freezer with94hinged or sliding doors or lids, but excluding a roll-in or roll- through cabinet or pass-through cabinet.97(10) "Roll-in or roll-through cabinet" means a commercial refrigerator or commercial freezer with hinged or sliding doors98that allows wheeled racks of product to be rolled into or through the cooling space.101(11) "Traffic signal module" means a standard 8-inch, 200 mm, or 12-inch, 300 mm, round traffic signal indication that has a light source, lens, and all parts necessary to communicate movement messages to drivers through red, amber, and green colors, which may include arrow modules in the same colors to indicate turning movements.107(12) "Transformer" means a device consisting of two or more coils of insulated wire that transfers alternating electric current by electromagnetic induction from one coil to another in order to change the original voltage or current value.111Section 3. Scope (1) This act applies to the testing, certification, and enforcement of efficiency standards for the following types of new products sold, offered for sale, or installed in the state: (a) Commercial clothes washers;	90	(8) "Pass-through cabinet" means a commercial refrigerator
93 (9) "Reach-in cabinet" means a commercial refrigerator, 94 commercial refrigerator-freezer, or commercial freezer with 95 hinged or sliding doors or lids, but excluding a roll-in or roll- 96 through cabinet or pass-through cabinet. 97 (10) "Roll-in or roll-through cabinet" means a commercial 98 refrigerator or commercial freezer with hinged or sliding doors 99 that allows wheeled racks of product to be rolled into or through 90 the cooling space. 91 (11) "Traffic signal module" means a standard 8-inch, 200 93 mm, or 12-inch, 300 mm, round traffic signal indication that has 94 a light source, lens, and all parts necessary to communicate 95 movement messages to drivers through red, amber, and green 96 colors, which may include arrow modules in the same colors to 97 indicate turning movements. 98 (12) "Transformer" means a device consisting of two or more 99 coils of insulated wire that transfers alternating electric 90 current by electromagnetic induction from one coil to another in 91 order to change the original voltage or current value. 92 section 3. <u>Scope</u> 93 (1) This act applies to the testing, certification, and 94 enforcement of efficiency standards for the following types of 95 new products sold, offered for sale, or installed in the state: 96 (a) Commercial clothes washers;	91	or commercial freezer with hinged or sliding doors on the front
94       commercial refrigerator-freezer, or commercial freezer with         95       hinged or sliding doors or lids, but excluding a roll-in or roll-         96       through cabinet or pass-through cabinet.         97       (10) "Roll-in or roll-through cabinet" means a commercial         98       refrigerator or commercial freezer with hinged or sliding doors         99       that allows wheeled racks of product to be rolled into or through         100       (11) "Traffic signal module" means a standard 8-inch, 200         101       (11) "Traffic signal module" means a standard 8-inch, 200         102       mm, or 12-inch, 300 mm, round traffic signal indication that has         103       a light source, lens, and all parts necessary to communicate         104       movement messages to drivers through red, amber, and green         105       colors, which may include arrow modules in the same colors to         106       indicate turning movements.         107       (12) "Transformer" means a device consisting of two or more         108       coils of insulated wire that transfers alternating electric         109       current by electromagnetic induction from one coil to another in         100       order to change the original voltage or current value.         111       Section 3. Scope         112       (1) This act applies to the testing, cert	92	and rear of the refrigerator or freezer.
95 hinged or sliding doors or lids, but excluding a roll-in or roll- through cabinet or pass-through cabinet. 97 (10) "Roll-in or roll-through cabinet" means a commercial refrigerator or commercial freezer with hinged or sliding doors 99 that allows wheeled racks of product to be rolled into or through 100 the cooling space. 101 (11) "Traffic signal module" means a standard 8-inch, 200 102 mm, or 12-inch, 300 mm, round traffic signal indication that has 103 a light source, lens, and all parts necessary to communicate 104 movement messages to drivers through red, amber, and green 105 colors, which may include arrow modules in the same colors to 106 indicate turning movements. 107 (12) "Transformer" means a device consisting of two or more 108 coils of insulated wire that transfers alternating electric 109 current by electromagnetic induction from one coil to another in 100 order to change the original voltage or current value. 111 Section 3. <u>Scope</u> 12 (1) This act applies to the testing, certification, and 113 enforcement of efficiency standards for the following types of 114 new products sold, offered for sale, or installed in the state: 115 (a) Commercial clothes washers;	93	(9) "Reach-in cabinet" means a commercial refrigerator,
96       through cabinet or pass-through cabinet.         97       (10) "Roll-in or roll-through cabinet" means a commercial         98       refrigerator or commercial freezer with hinged or sliding doors         99       that allows wheeled racks of product to be rolled into or through         100       the cooling space.         101       (11) "Traffic signal module" means a standard 8-inch, 200         102       mm, or 12-inch, 300 mm, round traffic signal indication that has         103       a light source, lens, and all parts necessary to communicate         104       movement messages to drivers through red, amber, and green         105       colors, which may include arrow modules in the same colors to         106       indicate turning movements.         107       (12) "Transformer" means a device consisting of two or more         108       coils of insulated wire that transfers alternating electric         109       current by electromagnetic induction from one coil to another in         100       order to change the original voltage or current value.         111       Section 3. Scope         112       (1) This act applies to the testing, certification, and         113       enforcement of efficiency standards for the following types of         114       new products sold, offered for sale, or installed in the state: <t< td=""><td>94</td><td>commercial refrigerator-freezer, or commercial freezer with</td></t<>	94	commercial refrigerator-freezer, or commercial freezer with
97 (10) "Roll-in or roll-through cabinet" means a commercial 98 refrigerator or commercial freezer with hinged or sliding doors 99 that allows wheeled racks of product to be rolled into or through 100 the cooling space. 101 (11) "Traffic signal module" means a standard 8-inch, 200 102 mm, or 12-inch, 300 mm, round traffic signal indication that has 103 a light source, lens, and all parts necessary to communicate 104 movement messages to drivers through red, amber, and green 105 colors, which may include arrow modules in the same colors to 106 indicate turning movements. 107 (12) "Transformer" means a device consisting of two or more 108 coils of insulated wire that transfers alternating electric 109 current by electromagnetic induction from one coil to another in 110 order to change the original voltage or current value. 111 Section 3. Scope 12 (1) This act applies to the testing, certification, and 113 enforcement of efficiency standards for the following types of 114 new products sold, offered for sale, or installed in the state: 115 (a) Commercial clothes washers;	95	hinged or sliding doors or lids, but excluding a roll-in or roll-
98 refrigerator or commercial freezer with hinged or sliding doors 99 that allows wheeled racks of product to be rolled into or through 100 the cooling space. 101 (11) "Traffic signal module" means a standard 8-inch, 200 102 mm, or 12-inch, 300 mm, round traffic signal indication that has 103 a light source, lens, and all parts necessary to communicate 104 movement messages to drivers through red, amber, and green 105 colors, which may include arrow modules in the same colors to 106 indicate turning movements. 107 (12) "Transformer" means a device consisting of two or more 108 coils of insulated wire that transfers alternating electric 109 current by electromagnetic induction from one coil to another in 100 order to change the original voltage or current value. 111 Section 3. Scope 12 (1) This act applies to the testing, certification, and 113 enforcement of efficiency standards for the following types of 114 new products sold, offered for sale, or installed in the state: 115 (a) Commercial clothes washers;	96	through cabinet or pass-through cabinet.
199 that allows wheeled racks of product to be rolled into or through 100 the cooling space. 101 (11) "Traffic signal module" means a standard 8-inch, 200 102 mm, or 12-inch, 300 mm, round traffic signal indication that has 103 a light source, lens, and all parts necessary to communicate 104 movement messages to drivers through red, amber, and green 105 colors, which may include arrow modules in the same colors to 106 indicate turning movements. 107 (12) "Transformer" means a device consisting of two or more 108 coils of insulated wire that transfers alternating electric 109 current by electromagnetic induction from one coil to another in 100 order to change the original voltage or current value. 111 Section 3. Scope 112 (1) This act applies to the testing, certification, and 113 enforcement of efficiency standards for the following types of 114 new products sold, offered for sale, or installed in the state: 115 (a) Commercial clothes washers;	97	(10) "Roll-in or roll-through cabinet" means a commercial
100the cooling space.101(11) "Traffic signal module" means a standard 8-inch, 200102mm, or 12-inch, 300 mm, round traffic signal indication that has103a light source, lens, and all parts necessary to communicate104movement messages to drivers through red, amber, and green105colors, which may include arrow modules in the same colors to106indicate turning movements.107(12) "Transformer" means a device consisting of two or more108coils of insulated wire that transfers alternating electric109current by electromagnetic induction from one coil to another in110order to change the original voltage or current value.111Section 3. Scope112(1) This act applies to the testing, certification, and113enforcement of efficiency standards for the following types of114new products sold, offered for sale, or installed in the state:115(a) Commercial clothes washers;	98	refrigerator or commercial freezer with hinged or sliding doors
101(11)"Traffic signal module" means a standard 8-inch, 200102mm, or 12-inch, 300 mm, round traffic signal indication that has103a light source, lens, and all parts necessary to communicate104movement messages to drivers through red, amber, and green105colors, which may include arrow modules in the same colors to106indicate turning movements.107(12)(12)"Transformer" means a device consisting of two or more108coils of insulated wire that transfers alternating electric109current by electromagnetic induction from one coil to another in100order to change the original voltage or current value.111Section 3.Scope112(1)This act applies to the testing, certification, and113enforcement of efficiency standards for the following types of114new products sold, offered for sale, or installed in the state:115(a)Commercial clothes washers;	99	that allows wheeled racks of product to be rolled into or through
mm, or 12-inch, 300 mm, round traffic signal indication that has a light source, lens, and all parts necessary to communicate movement messages to drivers through red, amber, and green colors, which may include arrow modules in the same colors to indicate turning movements. (12) "Transformer" means a device consisting of two or more coils of insulated wire that transfers alternating electric current by electromagnetic induction from one coil to another in order to change the original voltage or current value. Section 3. Scope (1) This act applies to the testing, certification, and enforcement of efficiency standards for the following types of new products sold, offered for sale, or installed in the state: (a) Commercial clothes washers;	100	the cooling space.
103       a light source, lens, and all parts necessary to communicate         104       movement messages to drivers through red, amber, and green         105       colors, which may include arrow modules in the same colors to         106       indicate turning movements.         107       (12)       "Transformer" means a device consisting of two or more         108       coils of insulated wire that transfers alternating electric         109       current by electromagnetic induction from one coil to another in         100       order to change the original voltage or current value.         111       Section 3.       Scope         112       (1)       This act applies to the testing, certification, and         113       enforcement of efficiency standards for the following types of         114       new products sold, offered for sale, or installed in the state:         115       (a)       Commercial clothes washers;	101	(11) "Traffic signal module" means a standard 8-inch, 200
104movement messages to drivers through red, amber, and green105colors, which may include arrow modules in the same colors to106indicate turning movements.107(12) "Transformer" means a device consisting of two or more108coils of insulated wire that transfers alternating electric109current by electromagnetic induction from one coil to another in100order to change the original voltage or current value.111Section 3. Scope112(1)(1)This act applies to the testing, certification, and113enforcement of efficiency standards for the following types of114new products sold, offered for sale, or installed in the state:115(a)(b)Commercial clothes washers;	102	mm, or 12-inch, 300 mm, round traffic signal indication that has
105colors, which may include arrow modules in the same colors to106indicate turning movements.107(12) "Transformer" means a device consisting of two or more108coils of insulated wire that transfers alternating electric109current by electromagnetic induction from one coil to another in110order to change the original voltage or current value.111Section 3.122(1)133enforcement of efficiency standards for the following types of144new products sold, offered for sale, or installed in the state:115(a)(b)Commercial clothes washers;	103	a light source, lens, and all parts necessary to communicate
106indicate turning movements.107(12) "Transformer" means a device consisting of two or more108coils of insulated wire that transfers alternating electric109current by electromagnetic induction from one coil to another in110order to change the original voltage or current value.111Section 3. Scope112(1)113enforcement of efficiency standards for the following types of114new products sold, offered for sale, or installed in the state:115(a)(b)Commercial clothes washers;	104	movement messages to drivers through red, amber, and green
107(12) "Transformer" means a device consisting of two or more108coils of insulated wire that transfers alternating electric109current by electromagnetic induction from one coil to another in110order to change the original voltage or current value.111Section 3. Scope112(1) This act applies to the testing, certification, and113enforcement of efficiency standards for the following types of114new products sold, offered for sale, or installed in the state:115(a) Commercial clothes washers;	105	colors, which may include arrow modules in the same colors to
108coils of insulated wire that transfers alternating electric109current by electromagnetic induction from one coil to another in110order to change the original voltage or current value.111Section 3. Scope112(1) This act applies to the testing, certification, and113enforcement of efficiency standards for the following types of114new products sold, offered for sale, or installed in the state:115(a) Commercial clothes washers;	106	indicate turning movements.
<pre>109 current by electromagnetic induction from one coil to another in 110 order to change the original voltage or current value. 111 Section 3. 117	(c) Illuminated exit signs;
118	(d) Large packaged air-conditioning equipment;
119	(e) Low-voltage, dry-type distribution transformers; and
120	(f) Traffic signal modules.
121	(2) This act does not apply to:
122	(a) New products manufactured in the state and sold outside
123	the state;
124	(b) New products manufactured outside the state and sold at
125	wholesale inside the state for final retail sale and installation
126	outside the state;
127	(c) Products installed in mobile manufactured homes at the
128	time of construction; or
129	(d) Products designed expressly for installation and use in
130	recreational vehicles.
131	Section 4. Efficiency standardsBy January 1, 2009, the
132	department, in consultation with the Public Service Commission,
133	shall adopt rules, in accordance with chapter 120, Florida
134	Statutes, establishing minimum efficiency standards for the types
135	of new products set forth in section 3. The rules shall provide
136	for the following minimum efficiency standards:
137	(1) Commercial clothes washers shall meet the requirements
138	shown in Table P-3 of section 1605.3 of the California Code of
139	Regulations, Title 20: Division 2, Chapter 4, Article 4:
140	Appliance Efficiency Regulations which took effect on November
141	<u>27, 2002.</u>
142	(2) Commercial refrigerators and freezers shall meet the
143	requirements shown in Table A-6 of section 1605.3 of the
144	California Code of Regulations, Title 20: Division 2, Chapter 4,
145	Article 4: Appliance Efficiency Regulations which took effect on

SB 2702

	31-02878-08 20082702
146	November 27, 2002.
147	(3) Illuminated exit signs shall meet the product
148	specification (Version 2.0) of the Energy Star Program
149	Requirements for Exit Signs developed by the United States
150	Environmental Protection Agency.
151	(4) Large packaged air-conditioning equipment shall meet
152	the Tier 2 efficiency levels of the Minimum Equipment
153	Efficiencies for Unitary Commercial Air Conditioners and Minimum
154	Equipment Efficiencies for Heat Pumps, developed by the
155	Consortium for Energy Efficiency in Boston, Massachusetts, which
156	took effect on July 1, 2002.
157	(5) Low-voltage, dry-type distribution transformers shall
158	meet or exceed the energy-efficiency values shown in Table 4-2 of
159	National Electrical Manufacturers Association Standard TP-1-2002.
160	(6) Traffic signal modules shall meet the product
161	specifications of the Energy Star Program Requirements for
162	Traffic Signals, developed by the United States Environmental
163	Protection Agency, which took effect in February 2001.
164	Section 5. ImplementationOn or after January 1, 2012, a
165	new product of a type set forth in section 3 may not be sold or
166	offered for sale in the state unless the efficiency of the new
167	product meets or exceeds the efficiency standards set forth in
168	the rules adopted under section 4. On or after January 1, 2009, a
169	new product of a type set forth in section 3 may not be installed
170	in the state unless the efficiency of the new product meets or
171	exceeds the efficiency standards set forth in the rules adopted
172	under section 4.
173	Section 6. <u>Revised standardsThe department may adopt</u>
174	rules that increase efficiency standards for products listed in

# Page 6 of 9

	31-02878-08 20082702
175	section 3 beyond the efficiency levels specified in section 4. In
176	considering such rules, the department shall consult with the
177	Public Service Commission. The rules must be based on a
178	determination that the increased efficiency levels would promote
179	energy conservation and be cost-effective for consumers who
180	purchase and use such products. A rule establishing revised
181	efficiency standards does not take effect until 1 year after the
182	rule is adopted. The department may apply for a waiver of federal
183	preemption, under 42 U.S.C. s. 6297(d), for those products
184	regulated by the Federal Government.
185	Section 7. Testing, certification, labeling, and
186	enforcement
187	(1) The department shall adopt procedures for testing the
188	energy efficiency of the products listed in section 3 if such
189	procedures are not provided for in the Florida Building Code. The
190	department shall use test methods approved by the United States
191	Department of Energy or, in the absence of such test methods,
192	other appropriate nationally recognized test methods. The
193	manufacturers of such products shall cause samples of such
194	appliances to be tested in accordance with the test procedures
195	adopted under this subsection or the Florida Building Code.
196	(2) Each manufacturer of the new products listed in section
197	<u>3 shall certify to the department that such products are in</u>
198	compliance with this act. The department shall adopt rules
199	governing the certification of such products and may work in
200	coordination with the certification program of other states that
201	have similar standards.
202	(3) Each manufacturer of the new products listed in section
203	3 shall identify each product offered for sale or installed in
I

31-02878-08

20082702

204 the state as in compliance with this act by means of a mark, 205 label, or tag on the product and packaging at the time of sale or 206 installation. The department shall adopt rules governing the 207 identification of such products and packaging and may work in 208 coordination with the labeling programs of other states that have 209 equivalent standards. 210 (4) The department may test the products listed in section 211 3 using an accredited testing facility. If products tested do not 212 comply with the minimum efficiency standards established under 213 section 4, or as revised under section 6, the department shall: 214 (a) Charge the manufacturer of such product for the cost of 215 product purchase and testing; and 216 (b) Provide information to the public concerning products 217 found not to be in compliance with the standards. 218 The department may conduct periodic inspections of (5) 219 distributors or retailers of the products listed in section 3 in 220 order to determine compliance with this act. The department shall 221 work with the Department of Business and Professional Regulation 222 to coordinate inspections when such products are also covered by 223 the Florida Building Code. 224 (6) The department shall investigate complaints received 225 concerning violations of this act and shall report the results of 226 such investigations to the Attorney General. The Attorney General 227 may institute civil proceedings to enforce the provisions of this act. Any manufacturer, distributor, or retailer who violates this 228 229 act shall be issued a warning by the department for a first 230 violation. Repeat violations are subject to a civil penalty of 231 not more than \$250. Each violation constitutes a separate 232 offense, and each day that such violation continues constitutes a

Page 8 of 9

233	separate offense. Penalties assessed under this subsection are in
234	addition to costs assessed under subsection (4).
235	(7) The department shall adopt rules as necessary to ensure
236	the proper administration and enforcement of this act.
237	Section 8. This act shall take effect upon becoming a law.
