4 Remove line 2344 and insert:
5 and climate change is both desirable and advantageous. Further,
6 the Legislature finds that energy infrastructure provides the
7 foundation for secure and reliable access to the energy supplies
8 and services on which Florida depends. Therefore, there is
9 significant value to Florida consumers that comes from
10 investment in Florida's energy infrastructure that increases
11 system reliability, enhances energy independence and
