or sell the same as the unadulterated product of such manufacturer or distributor or as the unadulterated product of any other manufacturer or distributor. However, nothing in this chapter shall be construed to prevent the lawful owner of such products from applying his, her, or its own trademark, trade name, or symbol to any product or material. Ethanol-blended Alcohol blended fuels which contain 90 percent unleaded gasoline and up to 10 percent denatured ethanol by volume ethyl alcohol of a minimum of 198 proof and a maximum 50 parts per million of acetic acid, commonly known as "gasohol," may be sold at retail service stations for use in motor vehicles, as long as the gasoline component complies with current state specifications, until the American Society for Testing and Materials approves specifications for gasohol. To provide retail service stations flexibility during the transition period to ethanol-blended fuels, the T50 and TV/L specifications for gasoline containing between 9 and 10 percent ethanol shall be applied to all gasoline containing between 1 and 10 percent ethanol by volume provided the last three or fewer deliveries contained between 9 and 10 percent ethanol by volume. If there is no reasonable availability of ethanol or the price of ethanol exceeds the price of gasoline, the T50 and TV/L specifications for gasoline containing between 9 and 10 percent ethanol shall be applicable for gasoline containing between 1 and 10 percent ethanol for up to three deliveries of fuel.
