

Amendment No.

CHAMBER ACTION

Senate

House

.

1 Representative Kreegel offered the following:

2
3 **Amendment (with directory amendment)**

4 Between lines 5560 and 5561, insert:

5 (4) Pool pump motors shall not be split-phase, shaded-
6 pole, or capacitor start-induction run types. Residential pool
7 pumps and pool pumps motors with a total horsepower of 1 HP or
8 more shall have the capability of operating at two or more
9 speeds with a low speed having a rotation rate that is no more
10 than one-half of the motor's maximum rotation rate. Residential
11 pool pump motor controls shall have the capability of operating
12 the pool pump at a minimum of two speeds. The default
13 circulation speed shall be the residential filtration speed,
14 with a higher speed override capability being for a temporary
15 period not to exceed one normal cycle or 120 minutes, whichever
16 is less. Except that circulation speed for solar pool heating

Amendment No.

17 systems shall be permitted to run at higher speeds during
18 periods of usable solar heat gain.

19 (5) Portable electric spas standby power shall not be
20 greater than 5(V²/3) watts where V = the total volume, in
21 gallons, when spas are measured in accordance with the spa
22 industry test protocol.

23 (6)(3) The Florida Energy Efficiency Code for Building
24 Construction may include standards for other appliances and
25 energy-using systems if they are determined by the department to
26 have a significant impact on the energy use of the building and
27 if they are cost-effective to the consumer.

28 (7)(4) If the provisions of this section are preempted in
29 part by federal standards, those provisions not preempted shall
30 apply.
