Senator King moved the following:

Senate Substitute for Amendment (873994)

Delete lines 66 - 82

and insert:

(c) "Class III clean energy source" means clean energy derived from nuclear energy or any fossil fuel generation for which carbon capture and sequestration plans have been approved by the Department of Environmental Protection or from use of pipeline-quality synthetic gas produced by processing waste petroleum coke with carbon capture and sequestration plans approved by the state or federal authority having jurisdiction.

(d) "Clean energy" means electrical energy produced from a

495702

13 method that uses one or more of the following fuels or energy
14 sources: nuclear energy placed in commercial service after July
15 1, 2009; any fossil fuel generation for which carbon capture and
16 sequestration plans have been approved by the Department of
17 Environmental Protection; hydrogen produced from sources other
18 than fossil fuels, biomass, solar photovoltaic, geothermal
19 energy, wind energy, ocean energy, or hydroelectric power. The
20 term includes waste heat from sulfuric acid manufacturing
21 operations; waste heat thermal energy which is produced by a
22 combined heat and power system placed in service in this state
23 after July 1, 2009, and which is used to produce biofuel and any
24 associated coproducts; energy produced using pipeline-quality
25 synthetic gas produced by processing waste petroleum coke with
26 carbon capture and sequestration plans approved by the state or
27 federal authority having jurisdiction; and energy produced using
28 biodiesel.
