Senator King moved the following:

Senate Amendment

Delete lines 66 - 82

and insert:

(c) "Class III clean energy source" means clean energy derived from nuclear energy or integrated gasification combined cycle for which carbon capture and sequestration plans have been approved by the Department of Environmental Protection or from use of pipeline-quality synthetic gas produced by processing waste petroleum coke with carbon capture and sequestration plans approved by the state or federal authority having jurisdiction.

(d) "Clean energy" means electrical energy produced from a

873994

13 method that uses one or more of the following fuels or energy
14 sources: nuclear energy placed in commercial service after July
15 1, 2009, integrated gasification combined cycle for which carbon
16 capture and sequestration plans have been approved by the
17 Department of Environmental Protection, hydrogen produced from
18 sources other than fossil fuels, biomass, solar photovoltaic,
19 geothermal energy, wind energy, ocean energy, or hydroelectric
20 power. The term includes waste heat from sulfuric acid
21 manufacturing operations; waste heat thermal energy which is
22 produced by a combined heat and power system placed in service
23 in this state after July 1, 2009, and which is used to produce
24 biofuel and any associated coproducts; and energy produced using
25 pipeline-quality synthetic gas produced by processing waste
26 petroleum coke with carbon capture and sequestration plans
27 approved by the state or federal authority having jurisdiction.
