House

The Policy and Steering Committee on Ways and Means (Fasano) recommended the following:

Senate Amendment

Delete lines 775 - 779
and insert:
government unless provided by general law. Nothing in this section shall be construed to limit the ability of a county, municipality, airport, seaport, or other local government entity to adopt standards for security cameras in publicly operated facilities, including standards for private businesses operating within such public facilities pursuant to a lease or other contractual arrangement. This section does not apply to municipalities that adopted an ordinance or rule establishing

837782

13

standards for security cameras before February 1, 2009.
