	.	

The Committee on Health Regulation (Aronberg) recommended the following:

Senate Amendment (with title amendment)

Delete lines 55 - 56
and insert:

(2) By March 1, 2011, the department shall adopt an electronic monitoring system. If, after complying with the requirements of ss. 287.0571-287.0574, the department determines that it is cost-effective to contract for any system components or services, the department must issue a competitive solicitation for those components or services, notwithstanding s. 287.057(5) (f). The department may not award a contract for

12 any components or services related to biometrics unless it
13 receives a minimum of three responses to its competitive
14 solicitation for such components or services. The purpose of the
15 electronic monitoring system is to monitor the collection of
