30 (c) The following statement:

31

32 "Passenger and light truck tires, including spare
33 tires and tires that are stored or have had little or
34 no use, deteriorate as they age and are more prone to
35 sudden failure that can cause a crash. Heat caused by
36 hot climates or frequent high-loading conditions can
37 accelerate the aging process. Most vehicle
38 manufacturers recommend that passenger or light truck
39 tires be replaced after 6 years, regardless of the
40 remaining tread depth."

44 (3) This section does not apply to the private sale of used
45 tires or tires on used vehicles.

46 (4) (a) A violation of this section is a deceptive and
47 unfair trade practice under this part and rules adopted under
